These two cases involve the same principle—getting chilled; one after exercise, the other by remaining cold for hours. Surely it is not hard to remember the lesson. Let every parent press it on the mind of each child on the instant, and it may prevent the great calamity of dying childless, than which nothing is harder for the heart to bear; indeed, it often fails to bear them, and breaks under the burden.—*Hall's Journal of Health*.

BORN TO NO MASTER, OF NO SECT ARE WE.

**EARLY VEGETABLES.** Some of our early vegetarians, during the past week, conceived the happy idea, of stealing the march on their less enterprising neighbors, by raising an early crop of vegetables. But poor, shortsighted mortals! when the time arrived to commence operations, they found that they would have to drill through a foot or more of snow, a frozen crust of earth, two or three inches in thickness, and then the seed would have to be dropped into its place through a tunnel; this was not to be thought of: Nature they knew would never compromise her laws in that way; they wisely concluded, therefore, to wait until matters cleared up, and take their chance with the rest of mankind; with the hope, that if everything now proved favorable, they would have a mess of peas at their Thanksgiving repast. Talk of "winter lingering in the lap of spring"—it not only lingers, but it has fairly taken its seat there, and so chilled the affections of the youthful visitor, that we despair of receiving a single smile from her during her brief sojourn with us. This, of course, will be set down, as the severest storm, at this season of the year, within the recollection of the oldest inhabitant; snow a foot and a half deep; a cold, piercing air; the railroads blocked up, and our people moving about on snow-shoes.

**FAST DAY,** was a fast time with us.—Fast teams, with fast young men courting our thoroughfares; fast preachers, with fast sermons, who piled up our sins mountains high; fast eating and drinking, with such a current of fast feeling from old habits to new, that we think, if others done as well, the Commonwealth, hereafter, will shine forth, in a

**NORFOLK AGRICULTURAL SOCIETY.** At the annual meeting lately held in Dedham, the following officers were elected for the coming year:

**President**—Marshall P. Wilder of Dorchester.

**Vice Presidents**—John Gardner of Dedham; Charles Breck of Milton; Bradach Atwood of Franklin; Joseph H. Billings of West Roxbury; Otis Cary of Foxboro; John H. Robinson of Dorchester.

**Corresponding Secretary**—Charles C. Sewall of Medfield.

**Recording Secretary**—Henry O. Hildreth of Dedham.

**Treasurer**—Chauncey C. Churchill of Dedham.

**Executive Committee**—Marshall P. Wilder of Dorchester; Aaron D. Weld of West Roxbury; Hollis H. Hunnewell of Needham; Truman Clarke of Walpole; Charles Hamman of Medfield; Freedom Guild of Foxboro.

**Finance Committee and Auditors**—Martin B. Innes of Dedham; Truman Clarke of Walpole; Lewis H. Kingsbury of Dedham.

**HEN THIEVES.** The hen roost robbers, who were arrested in Boston, have been held in one thousand dollars each trial at the April Court at Dedham. They have been extensively engaged in this business in several towns in this county.

**CHRIST CHURCH.** The annual meeting of the proprietors of Christ Church, was held on Easter Sunday, and the following named gentlemen elected officers for the ensuing year:

**For Clerk**—William S. Glover.

**For Wardens**—Charles C. Jewett, F. W. Grantham.

**For Treasurer**—C. C. Johnson.

**For Vestry**—Levi White, Jeffrey R. Brackett, Peter Butler, H. M. Saville, Henry H. Hunt, L. F. Emerson, Henry Walker.

**RELIGIOUS NOTICE.** The Rev. Mr. Heath, of Easton, (Penn.) will preach in the Universalist Church to-morrow. Services commence in the morning, at ten o'clock, in the afternoon, at one quarter past two.

**N. B.** On account of the inclemency of the weather on the day assigned for the funeral of our esteemed friend and fellow citizen, Ebenezer Crane, it is expected that appropriate services will be performed at the Universalist Church, Sunday afternoon, (to-morrow). Relatives and friends are invited to be present.

## Boston Correspondence

BOSTON, APRIL 3d, 1861.

In the matter of finance and business, serious embarrassments are likely to occur in the commercial community. By reason of the new order of things at the South, our foreign import trade in its legitimate operations, bids fair to meet serious interruption.

The new tariff is unpopular at home and abroad, and is capable of being dodged without measure, by the *status* of things at the South. A New York paper says,

"That at least one million dollars in foreign orders which have gone forward have been countermanded and ordered from New York to Mobile and New Orleans. The clerks of these Northern houses are sent to the Southern ports above named, where they become domiciled and hang out their shingle as commission merchants. The consignments are made directly to them—the duties on the goods are paid on delivery; they go into the bond, and then perhaps, without breaking bulk, they are re-voiced to a Northern house, and on their arrival here, the Custom House certificates are duly exhibited as evidence that they have been duly entered and paid for at another port in the United States."

Thus we see that yankee ingenuity is at work to realize, by hook or crook, large foreign importations, by evading through the Southern Confederacy, the payment of duties. It is possible that difficulty may be met by a rigid inspection of all goods brought by land or water from the Seceding States. But this would require unceasing vigilance and a large number of revenue officers on the Western rivers and at the sea ports of the United States. The perplexing subject in relation to revenue collection is under serious consideration at Washington.

The latest telegraphic news from Virginia, is favorable to secession; with her will go the Border States, and New England must stand alone in her glory. The South boasts that the Cabinet of the new Confederacy will eat their dinner in Washington on Christmas Day,—of course under their new banner.

The perplexing subject in relation to revenue collection is under serious consideration at Washington.

Having presented these considerations to your notice, I take the liberty to add, that for nine years I have been engaged here, the Committee have generally expressed themselves satisfied with the school. I have no desire to remain after you consider my term of usefulness ended; but I do not wish to have it thought that the school "died out" under my charge, for I believe I can labor as efficiently as ever.

Wishing, when I go, to leave the school in a condition satisfactory, at least, to myself, I submit to you this proposition. The next term is the short one—and I ask that I may be allowed that time to retrieve the past; and at its close I will resign, holding myself in readiness, meanwhile, to withdraw if any one of your number is not in all respects perfectly satisfied with every thing pertaining to me or the school.

Hoping you will be disposed to grant the favor asked, upon the conditions proposed, I leave the matter to your disposal.

Respectfully yours, S. DEWING, Jr.

To the SCHOOL COMMITTEE OF QUINCY.

879 WASHINGTON STREET,  
BOSTON, FEB 1, 1861.

Messrs Editors:

A sincere feeling of personal gratitude towards Dr. Flagg, (late Cummings & Flagg,) 23 Tremont Street, accompanied, I believe, with a truly philanthropic motive, prompts me to speak of the following incident illustrating the invaluable benefit of the use of Ether. I had endured, as best I could, the excruciating pain and vast inconvenience, from the gradual decay of all my teeth; fearing all the time, still more, the pain of extraction, yet convinced there was no other remedy. I was ignorant of the effects of Ether, supposing it intolerable to a nervous and sensitive person. Dr. Flagg, however, persuaded me to take it, and then removed eleven teeth, without any feeling of pain on my part, or any knowledge of the precise moment of the operation. In a few days I quite submitted to their inhalation of Ether again, when seventeen teeth and roots were extracted with the same result. In a short time, my gums, when sufficiently healed, were fitted to a temporary set of artificial teeth, affording me more comfort for the year while I used them, than I had known for a long time. These were replaced by a permanent set, which, in every respect, do not hesitate to say, cannot be surpassed, except by natural teeth. I cannot withhold my acknowledgments to Dr. Flagg, for the superior skill and kind treatment which I have received at his hands. Yours truly,

GEORGE BAXTER, JR.

[The correspondent, in the above tribute to the practical skill of Dr. Flagg, does that gentleman but simple justice. As a dentist, he stands in the front rank of his profession. He has worked his way up, through all the intermediate degrees. By long practice and studious application, fostered by a love of his art, and stimulated by a laudable ambition to excel, he has achieved many triumphs. The tokens of his success—beautiful beyond compare—are in the mouths of thousands, whose tongues, in gratitude, like the writer of the above, speak loudly and confidently in his praise. He is prompt and decisive in his operations; understands exactly what is to be done in every case, and the best way to do it.

We are glad to see that he is meeting with the success which his professional skill so richly deserves.—*Ed. Boston Traveller.*

**INFLUENCE OF NEWSPAPERS.** Small is the sum that is required to patronize a newspaper, and amply rewarded is its patron. I can not be humble and unpretending the gazette which it takes. It is next to impossible to fill a sheet with printed matter without putting into it something that is worth the subscription price. Every parent whose son is away from home at school, should supply him with a newspaper. I well remember what a marked difference there was between those of my schoolmates who had, and those who had not, access to newspapers. Other things being equal, the first were always superior to the last in debate, composition, and general intelligence.—Daniel Webster.

## Poetry.

## The Merchant.

There is a Farm-house fringed with vines,  
And o'er its roof the sunlight shines;  
Where swallows sail the summer air,  
And pour their notes of music there.

The wifely wren hath built her nest  
Song 'gainst the roof's low, modest crest;  
While 'round each plant and blossoming tree  
Swings in and out the humble bee.

The house-dog suns his shaggy side  
Nearest the porch the cat beside;  
While robin redbreast chants his song,  
And mocking birds the notes prolong.

There is a face within the cot—  
Oh! blessed face, and ne'er forgot!—  
Her beauteous eyes turn on her boy—  
The mother's hope, the widow's joy.

A playmate of the birds he seems,  
A shape that comes to us in dreams;  
The shadow from the broken tree  
Ne'er fell as yet, my child, on thee!

11.

There is a House within the town,  
Rich carvings o'er its portal stands,  
And suetens bars the way  
Of rising sun and noon tide day.

Old paintings hang along the wall,  
Stained lights upon the carpet fall;  
Rich mouldings here and there are fret,  
Carved wood blue and gold are set.

Upon the buffet silver gleams  
Where Art hath carved her choicest dreams;  
The liv'd violet hovers 'round  
With muffled feet that wake no sound.

A face beneath the lights is there,  
Its lines deep graved by grief and care;  
His hand, long used to count his gold,  
Is thin and long, and lean and cold.

There is a Ship upon the sea—  
A golden freighted argosy—  
Bearing the golden fleece afar  
To port where sets the Evening Star.

There is a House within the town,  
Rich carvings o'er its portal stands,  
And suetens bars the way  
Of rising sun and noon tide day.

The merchant's thoughts are not with thee,  
O! golden freighted argosy;

But with the farm-house fringed vines,  
Upon whose roof the sunlight shines.

He sums his long life o'er and o'er,  
His wealth, his credit, social power;

But still his thoughts will wander there,  
Where swallows sail the summer air.

'Mid all the notes and bonds that stand  
His memory 'round, like silver band,  
His fancy fondly 'scapes to thee,  
Thou robin's note from out the tree.

Along the chambers of the past  
Are busts in bronze and marble cast;  
Still are his thoughts within the cot,  
And mother's name is ne'er forgot.

## The Baby.

Another little form, laid gently down to rest;  
Another little spirit, shining with the bloom;  
Another little life, free from care and pain,  
Another little soul, taken home again.

Two more little hands, powerless to work ill;  
Two more little feet, now forever still;

Two more little eyes, never dimmed with tears;

Another little being, yielded without fears.

Another little voice, forever silent here;

Another little grave, another stone to rear;

Two more little lips, falsehood ne'er to know;

Another little heart, free from every woe.

Another little link, added to the chain;

Another flower transplanted, to bloom in heaven  
again;

Another gleam of sunshine but for a moment  
left;

Recalled to God, the Father—and so the baby  
went.

Come in and Shut the Door.

O! do not stand so long outside,

Why need you be so shy?

The people's eyes are open, John,

As they are passing by!

You cannot tell what they may think,

They've said strange things before;

And if you wish to talk awhile,

Come in and shut the door!

You say I did not answer you

To what was said last night;

I heard your question in the dark;

And now my lips shall utter what

My heart has said before.

Yes, dearest, I—but stay awhile—

Come in and shut the door!

## Anecdotes.

A plain, hard fisted old man called upon Gov. Curtin, of Pennsylvania, the other day. The Governor, supposing, of course that the man wanted a place somewhere, expressed his appreciation of his past services, and said he was sorry he could not reward him with an office.

But I don't want an office, said the old man, I merely called to see if you didn't want to buy a good dog?

Well, Jane, this is a queer world, said Edward to his wife, a sect of women philosophers has sprung up.

Indeed, said Jane, and what do they hold?

The strangest thing in nature, said he,—

their tongues!

A son of Erin being asked why he wore his stockings wrong side out, replied:

Bekase there's a hole on the other side of 'em.

At a hotel table, one boarder remarked to his neighbor: This must be a very healthy place for chickens.

Why? asked the other.

Because I never saw any dead ones about.

## THE QUINCY PATRIOT.

Saturday, April 13th, 1861.

BORN TO NO MASTER, OF NO SPECTRE WE."

## Representative to Congress.

We copy the following article from the Milford (Mass.) Journal, and feel gratified that the name of our respected townsmen has been brought forward as a candidate for Representative to Congress. Mr. Morton, for more than twenty years, has been an esteemed resident of this town, and we believe is a native of the District, and from personal knowledge, we can safely say that his qualifications, in every respect, eminently fit him for the distinguished position, to which our friend of the press, has so worthily connected his name. The election of Mr. Morton to Congress would be most acceptably received by every lover of his country, and would be hailed with joy by his townsmen, who delight to honor integrity and worth.

Mr. EDITOR: It is understood that Mr. Adams, our Representative in Congress, will accept the appointment of Minister Plenipotentiary to the Court of St. James, and therefore it becomes us to look about for his successor.

Several gentlemen have been spoken of as proper persons for the position; but there are none which so fully come up to our standard as that of William S. Morton, Esq., of Quincy, a gentleman well known through his District and the Commonwealth.

Mr. Morton is a native of the District, and has ever been a resident within its limits, frank and considerate in his manners, energetic when occasion requires, of unpolished reputation, and conversant with the wants of our people; we feel that at Washington he would be effectively attentive to the interests, and at the same time reflect credit upon his constituents.

Mr. Morton is a gentleman of liberal education, a graduate of Harvard University, and has often been elected to fill offices of honor in the State. He was a member of the last Constitutional Convention, and since then a member of the State Legislature. We know of no one whose election to the Congress of the United States would be more satisfactorily received.

FIRE. A fire was discovered, at noon, on Thursday last, in an unoccupied dwelling, situated on the Braintree and Weymouth Turnpike, near the toll house. The Niagara, Tiger, and Granite of this town, and Hydrant of Milton, sprang to the alarm, but came up too late to save the building, which was reduced to a mere shell. We did not learn whether there was any insurance.

PRINTS. Our ladies have been on a rush at Packard's Dry Goods Store during the past week. The way they made the prints leave the shelves reminded us of hot griddle cakes for breakfast. Mr. Packard was obliged to take an early train for the city on Thursday morning last to replenish his stock, which he has done very extensively—particularly those beautiful four cent prints.

STATISTICAL. The table on the agricultural resources of the New England and Confederate States, which may be found on our first page, has been furnished us by a friend for publication. By the dissemination of such knowledge it places the two antagonistic sections of the country in their true position—their relative importance in the Union. If we had before, dealt fairly with each other, it might have saved a world of trouble. In our next we shall give their relative commercial resources.

JURORS. J. Mayhew Marsh has been drawn as Grand Juror, to serve for one year at Dedham; and John Thomas Veszie, and William H. Sampson, as Petit Jurors, April Term, Superior Court, Dedham.

FINANCIAL. We have heard of some rich, financial operations, by members of our community, who were never before suspected of such propensities, which, for tact and adroitness in their execution, would have done credit to Rothschild, a Jim Law or Jack Ketch. We shall not at present, go into particulars, but wait further developments, and then, publish them in full gilt.

CARPETS FOR THE PEOPLE. The New England Carpet Company, of Boston, have an advertisement in our issue of to-day, which purchasers of carpetings should read.

The Rev. Mr. Heath, of Easton, (Penn) will preach in the Universalist Church, to-morrow.

SCHOOL BOOKS—a new invoice—embracing the whole catalogue used in our schools, have just been received by Mr. Gill, and are offered at greatly reduced prices. See advertisement.

RAILROAD CHANGE. By referring to the railroad advertisement our reader will notice that a change takes place on Monday next.

ADJOURNED. Our State Legislature brought their labors to a close on Thursday last, after a session of over ninety days.

## Boston Correspondence.

BOSTON, APRIL 17, 1861.

The rumors from Washington are by no means reliable. Many of them contradict each other, and their speculations and predictions are valueless. The tone of telegraphic reports, that has come to us since Saturday, is warlike up to the hub. And all admit we must have civil war or settle down in peace soon. God grant the latter. The camp fires of Secession are burning bright, while the Union spirit is still lambent in a large portion of the American mind. Civil war will test the strength and love of National union. A loyal American citizen knows no other flag but the National banner of thirty four stars—and if he is true to his God and true to his country, he will never desert that standard. The time for political recrimination is past; party barriers and platforms are broken in pieces; and that party is destined for future ascendancy if we are still to have a country, who will take the broadest view of the Constitution, on State Sovereignty, in relation to non-interference with their domestic concerns, or the domestic concerns of the Territories. The negro question is the rock on which the old ship of State is drifting; take it out of the political arena and all, now in gloom, may be bright again. The only way to keep the Border States in the Union is an entire disclaiming of all interference by the non-Slaveholding States of slavery where it exists.

Private advices from New York assure us of a gloomy state of affairs in that great city. Never in the memory of man were there so many houses to let—families are breaking up to save expenses and leaving the city. Business dull—clerks held by a certain tenure. Men on half pay or wholly unemployed. Little can be collected—manufacturers are about to close their factories and wait the autumn aspect before attempting to make goods. Besides the prostration of business a spirit of secession is ripe there. Efforts are secretly at work to make New York a free port, and should the Border States go out, there will be serious trouble in the city of Gotham.

The community here are under continual excitement from Southern news. The public mind is fed by newspaper reports, and every thing is out to sea as future calculations. Failures occur, but to a limited extent, and business continues quiet. With a continuance of these troubled times a depression of all kinds of property, personal and real, must follow, and it is only the hard hand of industry and the exercise of great prudence, that will save many from ruin in the present season. The Boston Advertiser of this morning, presents a gloomy picture of finance and business here.

EVENING. The Southern news of this evening declare that war is inevitable. Look out for a battle at Charleston.

## Poetry.

For the Patriot.

April.

BY LINDA LINDAN.

April 1 mouth of smiles and tears,  
Bringing sweet refreshing showers,  
Robing all the earth anew,  
Dotting all the fields with flowers.

On the trees the buds are swelling,  
Soon the green leaves will appear,  
And the merry birds of spring-time,  
Sing among them, sweet & clear.

'Neath the sun's warm rays is springing  
Many a lovely floral gem,  
Sweeter—purer far, than diamonds  
Of a royal diadem.

Now a strange and gloomy darkness,  
Now a sudden burst of rain,  
Now a sunbeam and a rainbow,  
And the green earth smiles again!

Changeful April! thou art welcome,  
Since stern winter's reign is o'er;  
For the birds and flowers thou bringest,  
Beautify our earth once more.

But thy stay is brief, and shortly  
Thou thy sceptre must resign  
Unto smiling May, who brings us  
Beauties o'er surpassing thine.

Lincoln, Ill., April, 1861.

## Happiness.

One morning in the month of May,  
I wandered o'er the hill;  
Though nature all around was gay,  
My heart was heavy still.

Can God, I thought, the just, the great,  
These meaner creatures bless,  
And yet deny to man's estate  
The boon of happiness?

Tell me, ye woods, ye smiling plains,  
Ye blessed birds around,  
In which of nature's wide domains  
Can bliss for man be found?

The birds wild caroll'd overhead,  
The breeze around me blew,  
And nature's awful chorus said—  
No bliss for man she knew.

I questioned Love, whose early ray  
So rosy bright appears,  
And bade the timid gazer say,  
His light was dimmed by tears.

I questioned Friendship: Friendship sighed,  
And thus her answer gave—  
The few whom fortune never tried  
Were withered in the grave!

I asked if Virtue could bless bestow?  
Virtue blushed loud and well,  
But fading, from her withered brow  
The borrowed roses fell.

I sought of Feeling, if her skill  
Could soothe the wounded breast;  
And found her mourning, faint, and still,  
For others' woes distressed.

I questioned Virtue: Virtue sighed,  
No boon could she dispense—  
Nor Virtue was her name, she cried,  
But humble Penitence.

I questioned Death—the grisly shade  
Relaxed his brow severe—  
And "I am happiness," he said,  
"If Virtue guides thee here."

The Angels of the House.

'Tis said that ever round our path  
The unseen angels stray,  
That give us blissful dreams by night,  
And guard our steps by day.  
But there's an angel in the house,  
Meek, watchful and sincere,  
That whispers words of hope to us  
When none beside are near:  
It is the one, the chosen one,  
That's linked to us for life;  
The angel of the happy home,  
The faithful trusting wife.

"Tis said that angels walk the earth—  
I'm sure it must be so—  
When round our path, scarce seen by us,  
Such bright things come and go.  
Are there not beings by our side  
As fair as angels are?  
As pure, as stainless, as the forms  
That dwell beyond the star?  
Yes! there are angels of the earth,  
Pure, innocent and mild;  
The angels of our hearts and homes,  
Each loved and loving child.

## Auroras.

Bridget just arrived from sweet Erin, and snugly ensconced with a gentle family as maid-of-all-work, sat down to her first meal. Having diminished the substantial, she came to the apple pie. It was something entirely new to her. She viewed it from all quarters, and examined it very minutely. She then removed the upper crust, and commenced eating the apple, carefully scraping it from the under crust. Her mistress observed her, and said:

Bridget, why do you eat the pie in that manner?

A little startled, Bridget looked up and exclaimed:

Does ye think I'd be after ateing the box-ing?

In the fight between the United States and the Macedonian, when the mizzen mast of the latter went by the board, hearing a sailor say to his comrade, Jack, we have made a big of her.

Decatur remarked: Take good sin, Jack, and she will soon be a sloop.

Two little boys sat listening eagerly while their grandmother was telling them the Bible story of Elijah going up to heaven in a whirlwind, with a chariot and horses of fire, when little Willie interrupted her with:

O, Sammy, wouldn't you have been afraid? Sammy hesitated a moment and replied: No, not if I had the Lord to drive!

# Cephalic Pills CURE Sick Headache CURE Nervous Headache All kinds of Headache

By the use of these Pills the periodic attacks of Nervous or Sick Headache may be prevented; and if taken at the commencement of an attack, immediate relief from pain and sickness will be obtained.

They seldom fail in removing the Nausea and Headache to which females are so subject.

They act gently upon the bowels,—removing constipation.

For Literary Men, Students, Delicate Females and all persons of sedentary habits, they are valuable as a Laxative, immediately improving the appetite, giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the nervous system or from a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children.

**Seroful and Serofulous Affections, such as Tumors, Ulcers, Severe Erptions, Pustules, Purulent Blister, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gentlemen: I feel it my duty to acknowledge your favor. Your Sarsaparilla has been of service to me in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it took the form of a severe Eruption; sometimes it was a Boil, and once or twice, which was painful and troublesome beyond description, it became a large Ulcer. I consulted several physicians, but without much relief from any thing, in the disorder grew worse. At length I was rejoiced to find in the drug store a bottle of your Sarsaparilla, and have since taken it with great pleasure and profit. I know from your reputation that any thing you make must be good. I sent to Cincinnati and got it, and it did its work well. I took it for two months, and used almost three bottles. New and healthy skin soon began to form under the ulcer, which after a while disappeared entirely. I can only say by my feelings that the disease has gone from my system. You well believe that I feel what I am saying when I tell you that I have taken no species of medicine, and remain ever grateful. Yours,

ALFRED B. TALLEY.

**St. Anthony's Fire, Rashes or Erysipelas, Petter and Salt Rheum, and Sore Eyes, Dropsey, Ringworm, Red Eyes, Drophy.**

Dr. Robert M. Pringle writes from Salem, N. Y., 12th Sept., 1859, that he had cured an inveterate case of *Dysentery* in a child, long laboring under it, by the persevering use of our Sarsaparilla, and also a dangerous attack of *Malignant Erysipelas* by large doses of the same; also he cures the common *Erysipelas* by it constantly.

**Bronchitis, Gout or Swelled Neck.**

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Gout*—a hideous swelling on the neck, which I had suffered from over two years."

**Lymphorrhea or Whites, Ovarian Turner, Uterine Inflammation, Female Diseases.**

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully testify to the remarkable results obtained in saying I have found your Sarsaparilla a most excellent alternative in the numerous complaints for which we suffer, and particularly in those cases where we are free from the Scrofulous disease." I have cured many inveterate cases of Lymphorrhea by it, and some where the complaint had been long laboring under it, and the affection was then so cured. Nothing within my knowledge equals it for these female derangements."

John A. Murray, of New York, writes: "A dangerous ovarian tumor of the female in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician advised us that no operation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved successful, taking away my remedy eight weeks ago symptom of the disease remains."

**Syphilis and Mercurial Disease.**

New ORLEANS, 23rd August, 1859. Dr. J. C. AYER: Sir, I chearfully comply with the request of your agent, and send you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints of the Scrofulous disease, and the effects are truly wonderful in the cure of *Tuberculosis* and *Mercurial Disease*. One of my patients had Syphilis ulcers in his nose, which were constant; his palate was cut the top of his nose, and his Sarsaparilla was taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the affection had come on him in the course of a year. I advised the doctor to would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the patient is now well, and has no more trouble, and has some disfigurement to his face. A woman who had been treated for the same disorder by mercury was suffering from a severe affection of the heart, and was very sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured in a few weeks, and is well in a few days. I know from its formula, which you will give me, that this preparation from your laboratory must be a great remedy, consequently, the most truly remarkable results will be had in every case."

Fatherly yours, G. V. LARIMER, M.D.

**Rheumatism, Gout, Liver Complaint.**

INDEPENDENCE, Preston Co., Va., 6th July, 1859. Dr. J. C. AYER: Sir, I have been afflicted with a painful rheumatism, and have suffered the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One look at the bottle, and I was well again. My general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREEMAN.

Julia Y. Getchell, of St. Louis, writes: "I have been suffering from a severe affection of the heart, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken down man for some time past. I am told that you have a *Cure* for the Liver. My beloved parent, the Rev. Mr. Dey, advised me to try your Sarsaparilla, because he said he knew you, and that they may be worth trying. By the blessing of God, I am now well again, and perfectly strong, and as to make a new man of me. I feel young again. The best that can be said of you is not bad enough."

**Schistos, Cancer Tumors, Enlargement, of the Liver, Caries and Exfoliation of the Bones.**

A great variety of cases have been reported to me where cures of these formidable complaints have resulted from their use. Some of them may be found in our American Almanac, which the agents below named are pleased to forward gratis to you.

**Personal Physician, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.**

Many remarkable cures of these afflictions have been made by the alternative power of this medicine. It stimulates the body, and gives it a power to overcome disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do."

**Ayer's Cherry Pectoral,**

FOR THE RAPID CURE OF COUGH, COLD, CHILBLAINS, SPASMS, BRONCHITIS, INFLAMMATION, CONSUMPTION, and for the Relief of CONSUMPTIVE PATIENTS IN ALL STAGES OF THE DISEASE.

This is a remedy so universally known to surpass any other in the cure of these diseases, that it is difficult to describe the evidence of its virtues. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the United States and Europe.

Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over disease, and others the scars of its battles.

As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we trust that it did well when making the cure which has won so strongly upon the confidence of mankind.

**PACKARD'S Great Regenerator for the HUMAN HAIR,**

IS now too well known to need any further recommendation from any source. Yet to satisfy the most credulous, I will publish the following testimony.

Harrison Sq., Dorchester, Mar. 30, 1859.

Mr. PACKARD:—Sir, I have used your Regenerator for hair and found it well up to your claim for it. My hair was very gray; it is now restored to perfect color. In short, I have now a perfect head of hair. I am willing to go before any Justice of the Peace and make oath to the above, if you wish it.

EDWARD BIRD.

What it has done for hair is well known for everybody that will use it.

# QUINCY PATRIOT

SATURDAY, APRIL 20.

only for the ball-room, and brave the severest weather in a costume suitable only for summer wear. As the Philadelphia North American well remarks:

"It is notorious that Americans, and especially American ladies, very much over-dress. Costly fabrics, silks and laces are every day sweep Chestnut street or Broadway, that are only fit for the carriage, and out of a park or public drive, are never seen abroad. A French lady always dresses in good taste—but for the street she dresses plainly. Few London matrons would walk abroad in the costume which a New York lady thinks the only one fit to appear in. Why is this? Is the American woman less modest or discreet? No, but she imitates without discriminating: she is the model, wife, daughter, mother, because here she follows the instincts of her nature, the promptings of her own loving heart. But her dress is not her own; it comes from the other side of the Atlantic. An English Duchess, or a French Countess, was in a carriage, and the same Duchesses, when she took a walk, wore thick shoes, gaiters, a gown of plain stuff. But the fair American does not know this, or does not regard it; and so she persists in treading daintily steps with thin soled shoes over wintry pavements, and perseveringly sweeps the crossings with her lustrous silks."

## THE QUINCY PATRIOT.

Saturday, April 20th, 1861.

BORN TO NO MASTERS, OF NO SECT ARE WE."

WAR—CIVIL WAR, with all its horrors, is now impending over us. Our streets, during the week, has worn quite a military appearance; martial spirit has rose to an intense fervor—recruits have been called for and despatched to the South, to protect the public property and the Government at Washington from a threatened invasion.—We hope the fears of the people have been unnecessarily alarmed—in a civil war we have every thing to lose, and nothing to gain. Blood may flow, but it will not wipe out the wrong, or unite us again as one people.—When Greek meets Greek then comes the tug of war. Is there no hand to stay this mighty torrent of sectional hostility, and say to the troubled elements—peace be still? or are we a God-forsaken people? Let us trust for the best, and never despair so long as there is a ray of hope for reconciliation.

Our gallant little corps, the Hancock Light Guard, under the command of Capt. Franklin Curtis, promptly answered to the requisition of the Government, and on Wednesday last, took their departure, for their place of destination, Fort Monroe, Virginia. They went off in good spirits, mustering between fifty and sixty, rank and file. May health and a safe return await them.

### Fort Monroe.

We think a brief description of this Fortress may be of interest to our citizens, at the present time, as many of our fellow-townspeople, have been suddenly called upon to take charge of this military station.

Fort Monroe occupies the extremity of a level sandy bank, known as Old Point Comfort, Virginia—a point of land forming the terminus of the western shore of the Chesapeake bay; it is encompassed on every side with water, with the single exception of a narrow strip of sand beach on the north; on the northeast, east, and southeast, by the waters of the Chesapeake bay, on the south, and southwest, by those of Hampton Roads, and on the north and northwest, by Mill Creek, an inlet of Hampton Roads. A barren, sandy plain, extremely limited on the west and southwest, narrow, but stretching out to a considerable distance on the north to form the peninsula, on the extremity of which the defences are built. The very limited extent of this barren, sandy ground, and the consequent, almost entire absence of soil immediately around the Fort, are necessarily productive of a circumscribed vegetation in the shape of trees, shrubs and plants. Within the enclosure of the work, and growing sparsely on the grounds immediately contiguous to it, the live oak, in its evergreen foliage, is quite conspicuous; having been retained here for the purpose of ornament, when the grounds were originally cleared up. What renders the presence of this tree, more worthy of notice, is the fact, that this point is the extreme northern limits of the south Atlantic Coast at which it is found to thrive, or is found at all.

Fort Monroe is located on a 250 acre lot, which has been ceded to the United States, and mounts 335 guns, generally 32 and 48 pounds; 130 of which are under bomb proof covers; on the opposite point, one mile distant, is Fort Calhoun. These two Forts command the entrance to the Hampton Roads. The shoal water, under the action of the sea, and the reaction of the bar, is kept in an unrelenting ripple, which circumstance, has given to this place the name of the "Rip Raps."

In a sanitary point of view, this locality is as healthy as any in the immediate vicinity. The prevailing diseases are intermittent fevers, diarrhoea, and acute dysentery, and occasionally yellow fever.

PISCATORIAL FAVOR. Our friend, Capt. Richard Newcomb, has presented us with a fine mess of smelts taken from the Canal near his house, one day this week. He is very successful, with his net, in drawing from their element, these early visitors to our waters. He has, in this way, taken over a hundred dozen in an evening. The Capt. has our especial thanks.

FIRE. The dwelling house of Joseph W. Richardson, at the Point, took fire yesterday forenoon, burning off the roof, when the fire was extinguished. It is supposed to have caught from a defect in the chimney.

## Poetry.

For the Patriot.  
The Prairie Lark  
BY LINDA LINDA.

The winds of March were sweeping o'er  
This land of prairies—broad and grand,  
Where buds and blossoms once so fair,  
Had withered 'neath stern winter's hand.  
While crossing one of those fair plains,  
Reflecting on those withered flowers,  
That once had bloomed in beauty there,  
In summer's warm and sunny hours,—  
A most enchanting sound I heard—  
Come softly stealing o'er the glade,  
So sweet—so heavenly it seemed,  
I almost fancied there had strayed  
Some angel from the spirit land,  
Into my dream-soul to pour.  
A song of love and peace and joy,  
Wafted from that celestial shore,  
Where dwell the pure and holy ones  
Whom God hath called from earth away,  
To that eternal world of bliss.  
With saints to live in endless day.  
But nearer and still nearer came—  
Those notes of sweetest melody,  
And soon my eyes were gazing on  
The singer that had sung to me.  
A little warbler sat upon  
A twig, whose slender stem did give  
Beneath its weight, e'en as the oak  
When with the storm-kings it doth strive.  
Its little bosom seemed so full  
Of pleasure, as it still sang on,  
That I in fancy heard its thoughts,  
Pour out in that wild gushing song!  
It seemed to speak of zephyrs soft,  
All laden with the breath of spring,  
And the lovely scenes to come.  
To our raptured senses bring,  
Of the rich green sward that presses  
As soft velvet 'neath our tread,  
And the gorgeous robes God giveth  
To the branches o'er our head;  
Of the fragrant flowers that blossom  
O'er our fair earth everywhere,  
And with low, sweet voices, whisper  
Of the hand that placed them there.  
Aye, to me that song was telling,  
Of the peace which God doth give,  
To the meek, the pure, the sinless,  
E'en while here on earth they live.  
Such won'drous powers of song are given,  
What must that rapturous chorus be,  
That echoes through the courts of heaven!  
Quincy, Ill., March, 1861.

## Friend Sorrow.

Do not cheat thy heart and tell her,  
Grief will pass away—  
Hope for fair times in future,  
And forget to-day."  
Tell her, if you will, that sorrow  
Need not come in vain;  
Tell her that the lesson taught her  
Far outweighs the pain.  
Cheat her not with the old comfort,  
Soon she will forget."  
Bitter truth, but bitter  
Rather for regret;  
Bid her not "seek other pleasures,"  
Turn to other things;"  
Rather nurse her caged sorrow  
Till the captive sings.  
Rather bid her go forth bravely,  
And the stranger greet;  
Not as foe, with shield and buckler,  
But as dear friends meet;  
Bid her with a strong clasp hold her,  
By her dusky wings;  
And shell who'll low and gently  
Blessings that she brings.

## Little Rogus.

I was sitting beside  
My destined bride,  
One still sentimental day,  
"How long," said I,  
"But to make you cry,  
And I'd kiss the bright tears away!"  
Fair Cecily blushed,  
Her voice grew hushed,  
I thought she would cry, to be sure;  
But she lisped to me,  
Pouting prettily,  
"Prevention is better than cure."

## Anecdotes.

A pedagogue was about to flog a pupil for having said he was a fool, when the boy cried out:  
"Oh, don't, don't; I won't call you so any more. I'll never say what I think again in all my life!"

I say, said a young fellow to his friend, do you know that Jones said you were not fit to clean his shoes?  
Did he? I hope you defended me.

Yes, that I did.

What what did you say?

I said you were.

Minnie was one day talking to her little class in Sunday school about God's great love to man. Wishing to impress it upon their minds, and to know whether they understood her, she asked:

Now children, who loves all men?  
The question was hardly asked before a little girl not four years old, answered quickly:

All women!

A friend, who has a very reliable clock in his drug store, is terribly annoyed by boys running in to inquire the time of day. The other evening a little shaver came and asked this usual question:

Please, sir, tell me what time is it?  
Why, I gave you the time not a minute ago! said the astonished apothecary.

Yes, sir, replied the lad, but this is for another woman!

## Insurance against Fire.

FOR PURIFYING THE BLOOD.

And for the speedy cure of the subjoined varieties of

Scrofula and Scrofulous Affections, such as

Tumors, Ulcers, Sores, Eruptions,

Pimples, Pustules, Blotches, Boils,

Brands, and &c., &c.

OAKLAND, Ind., 6th June, 1860.

J. C. AYER & Co. Gentlemen: I feel it my duty to ac-

knowledge a favor done to me.

Having suffered a Severe Disease:

**Ayer's Sarsaparilla,**  
FOR PURIFYING THE BLOOD.

And for the speedy cure of the abjoined varieties of Disease:

**Sarsaparilla and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

Danvers, June 6th June, 1859.

J. C. Ayer & Co. GENTLEMEN: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having suffered a Scrofulous affection for several years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me more than ever. I have never had a cold, and never suffered from the scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines without avail, but when I used your Sarsaparilla, the disease grew worse. At length I was induced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla) to the usual remedies, and that this must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses, by tea-spoonfuls, at first three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin has never gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you in the highest estimation of the age, and remain ever gratefully yours,

ALFRED L. TURNER.

**Anthony's First Remedy or Erysipelas, Tetter, and Ulcer, and Head, Ringworm, Sores, Eyes, Dropsey.**

Dr. Robert M. Proble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of Erysipelas, which had been ten years' duration, and got it, and used it till it cured me. I took it, as you advise, in small doses, by tea-spoonfuls, at first three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin has never gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you in the highest estimation of the age, and remain ever gratefully yours,

Zebulon Shom of Prospect, Texas, writes thus: "I recently comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alternative in the number of cases for which we have no specific, but especially in Female Diseases of the Scrofulous diathesis. I have cured many instances of Leucorrhœa, and the like, by the same dose and duration of the serum. The alteration itself was soon cured. Nothing within my knowledge equals it for those female disorders."

**Bronchocœle, or Swelled Neck.**

Zebulon Shom of Prospect, Texas, writes thus: "I have found your Sarsaparilla cured me from a dangerous swelling on the neck, which I had suffered from over twenty years."

**Leucorrhœa or Whites, Overactive Turner, Uterine Ulcerations, Female Diseases.**

Dr. J. M. Chapman of New York City, writes: "I recently comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alternative in the number of cases for which we have no specific, but especially in Female Diseases of the Scrofulous diathesis. I have cured many instances of Leucorrhœa, and the like, by the same dose and duration of the serum. The alteration itself was soon cured. Nothing within my knowledge equals it for those female disorders."

**Syphillis and Venereal Disease.**

Dr. J. C. Ayer, Boston, Mass., 25th August, 1859, writes: "In my practice, I have found the complaints for which it is recommended, and have found that it effects truly wonderful cures. Your Sarsaparilla has been attacked by scrofulous ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla has been attacked by scrofulous ulcers in his nose, and the ulceration had eaten away a considerable part of it, so that he could not close his eyes. He had been compelled to wear spectacles. After taking your remedy eight weeks no symptom of the disease remained."

**Phthisis and Consumption.**

Dr. J. C. Ayer, Boston, Mass., 25th August, 1859, writes: "In my practice, I have found the complaints for which it is recommended, and have found that it effects truly wonderful cures. Your Sarsaparilla has been attacked by scrofulous ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla has been attacked by scrofulous ulcers in his nose, and the ulceration had eaten away a considerable part of it, so that he could not close his eyes. **Rheumatism, Gout, Liver Complaint.**

Dr. J. C. Ayer, Boston, Mass., 25th August, 1859, writes: "In my practice, I have found the complaints for which it is recommended, and have found that it effects truly wonderful cures. Your Sarsaparilla has been attacked by scrofulous ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla has been attacked by scrofulous ulcers in his nose, and the ulceration had eaten away a considerable part of it, so that he could not close his eyes. He had been compelled to wear spectacles. After taking your remedy eight weeks no symptom of the disease remained."

**Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Convalescent Patients in advanced Stages of the Disease.**

This is a sovereign remedy known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtue. Its unrivaled excellence for young children, and its truly remarkable effect in curing the most inveterate chronic diseases, have made it known throughout the civilized nations of the earth. Few are the communities, or families, that do not claim them. They are the commonest, or rather, the best remedy for the cure of the effects of colds, fevers, &c. &c. Dr. J. C. Ayer, pastor, the Rev. Mr. Kelly, advised me to try your Sarsaparilla, because he said he knew well, and any thing you may say is true, that your Sarsaparilla will cure me, and help to purify my blood as to make a new man of me. I feel young again. The best that can be said of your Sarsaparilla is this:

Let me man hang back. Every man must come forward when called, or be forever disgraced. He had to-day engaged fifty muskets of the State to be used by a new Company here. This was no enthusiastic measure, but one of absolute necessity. The men who have now gone will serve only till the last of July, and it is of the first importance that all be familiar with the use of arms. We need experienced men. There is no more terrible force on the face of the earth than a well disciplined Regiment of Massachusetts men.

Mr. Cudworth then made a short speech.

He spoke of his deep sympathy with our Quincy boys on that cold, dreary, rainy day, deserted by their officers, going they knew not where, yet not dispirited. He honored those men, and would gladly have gone with them. Old Massachusetts has nobly responded to the call of the Government. Every shot at Fort Sumter has fallen in Massachusetts, and produced a terrible crop of armed men, who will eventually carry the Flag to Victory. (Here Thompson Baxter, Esq., called for cheers for Capt. Curtis, which were given with good will.) We are all here to-night as Union men, burying all former party ties—devoted to the Constitution and the Laws—pledging our lives, fortunes and honor to the protection of our Flag."

The crowd was next addressed by Rev. Henry Giles. I was not aware, said he, that such a meeting as this was to be held, until a few moments before I came here. It has been remarked that there is no use in talking, and unfortunately for me, it is the only thing I can do. There are two classes in society—talkers and doers. We are in the midst of a struggle against our desires. We have waited and received insults, and taunts, and sneers. History will wonder at our patience; that we were so willing to bear and forbear—but now we have arisen in the force of calm passion, after having regarded and treated them as friends and brothers—bone of our bone and flesh of our flesh—and they being the aggressors, having arisen without cause, have no right to complain. We must both act and speak. These are the qualities of a free people.

It is a sad case when soberly thought of.

Such a tragedy has never occurred in history.

In recorded struggles we have seen Civilization against Barbarism. In our case Slavery against Freedom. We are in a position where power is nearly equally divided. We must be sober. We have the great principles of right on our side. We have long forgotten that we have spoken in the spirit, and with feelings of old Læcemonia. Massachusetts is not great in space but she is great in spirit. We shall meet the Southerners with the fire of Bunker Hill. We shall look them in their faces and fire. We have a great deal on our side, but must keep our powder dry.

I recollect an anecdote of a fellow in Cincinnati, who had considerable funds deposited in a certain bank, which it was rumored was about to fail. He went to the bank and demanded his money, which the clerk rather declined to pay. He drew his revolver and said: Pay me my money! and the cashier did it quickly. On being asked why he did not put his trust in God and wait, replied: They can't do it. They can't do it.

He remarked that he felt sad when he saw a young man from Quincy leaving for the war, against the entreaties of father, mother, and friends, saying he loved them all, but loved his Country more. That young man is

## Miscellaneous.

### Grand Mass Meeting.

#### Conditions.

A large and enthusiastic meeting of the citizens of Quincy was held in the Town Hall, on Saturday evening last, to devise measures to contribute for the relief of those who have left for the Army, and for any families who may be left destitute. The meeting was organized by the choice of the following officers:

President, John Quincy Adams.

Vice Presidents, Eleazer Frederick, Daniel

Baxter, Noah Cummings, Ebenezer Adams,

Wm. B. Duggan.

Secretaries, Geo. L. Gill, John Chamberlain,

Stephen Morse, Jr.

Mr. Adams, after thanking the citizens for the honor conferred upon him, stated that he had seen Capt. Curtis of the Hancock Light Guard, and had told him that no exertions of his should be wanting to provide whatever was necessary for the comfort of his soldiers. He came to this meeting to redeem the pledge. Now is time for deeds and acts—not talk. It was our duty to meet and provide aid for those brave men, so long as we have anything to give, and he was willing to redeem his pledge to Capt. Curtis to the last cent.

We must organize! The contest is begun.

It is no slight affair. It is a contest between

slave and free, and we must suffer and

undergo, and bleed for the Flag of our Country.

We must be prepared with the iron

determination of Cromwell. The feelings of

76 must animate us. Every man must be

prepared.

We must provide for those men who go,

so that they will have no anxiety about their families.

The sinews of war are money.—

We must see to it, that Old Mass-

achusetts does not allow her sons to suffer for anything which is in our power to provide.

Let every man demonstrate with his money, that his heart is with the Government, in this contest;

with treason—for it is nothing else.

Let no man hang back. Every man must

come forward when called, or be forever disgraced.

He had to-day engaged fifty muskets

BORN TO NO MASTER, OF NO SCLAVE WE...

**READ! READ!**  
Our patrons must be more particular and band in their Notices, Advertisements, &c., before ten o'clock, Friday morning, if they wish to see them appear in the next day's paper. Long Communications should be left at the Office as early as Monday.

**THE EVENTS OF THE WEEK** continue to look more warlike. Things appear to be culminating to a crisis. The reinforcements from the North are ordered to cut their way through Maryland to Washington—and the people of that State are rising en masse to resist them. Gen. Beauregard, leader of the Southern forces, has dispatched a message to the Executive at Washington, suggesting the propriety of having the women and children removed from that city as early as to-day—intimating an immediate attack on the place. As matters now stand a fight seems inevitable. The hot blood is up and must flow. A fearful responsibility rests some where.

**A GOOD MOVE.** A paper has been circulated by Erastus M. Glover of this town, and a very pretty sum raised for the purpose of purchasing a Sail and Bell, which are to be presented to Charles F. Pray, who left as a private in the Quincy Company for Fort Monroe, and has since been promoted to Ordnery Sergeant. That testimony, although small in a pecuniary point of view, will testify, in no slight measure, the regard and love which his associates in this town bear toward him.

**QUINCY MUTUAL FIRE INSURANCE COMPANY.** At the annual meeting of this Corporation, the following gentlemen were chosen Directors:

William S. Morton, Israel W. Monroe, Thomas C. Webb, Whitcomb Porter, William B. Duggan, Thomas Curtis, R. B. Leuchars, Charles A. Howland, Quincy Alified Loring, South Hingham; Apollo Randall, of Braintree; H. W. Blanchard, of Dorchester; Sumner A. Hayward, of North Bridgewater; Royal W. Turner, of Randolph; Solomon J. Beale, Cohasset; Charles Brock, of Milton; Jonathan H. Cobb, of Dedham; Ebenezer Gay, of Hingham.

At a subsequent meeting, Wm. S. Morton was elected President, I. W. Monroe, Treasurer, and Charles A. Howland, Secretary.

**BUTTERCUPS AND DAISIES.** This is the frontispiece of Godey for May. A group of young urchins, in the hey-day enthusiasm of young life, are revelling in the floral riches, which fancy has pictured of an old-fashioned English May Day. Following this, is an exquisite plate of fashions, a peculiar feature of this magazine; with designs for drawing, embroidery, etc., etc., and a full complement of choice reading matter, on various subjects, adapted to every taste. To be had at the Quincy bookstore.

**CARPETS FOR THE PEOPLE.** See the advertisement of the New England Carpet Company, of Boston, in to-day's paper.

**KEROSENE OIL.** We have received from the agent, N. B. Farnald, a fresh supply of this excellent fluid. To be sure, when you purchase, that you are getting the genuine, is a gratification to those who appreciate a good light. The miserable compounds which have been sold under its name, has injured its reputation, and led many to mistrust its utility. To avoid such inconveniences, call on Mr. F. he keeps none but the pure article.

**GET A PURE ARTICLE.** However opinions may vary as to the use or abuse of liquors as beverages, or for medicinal use, no live man can be found who would not prefer and recommend the pure article whenever any is to be taken. There are two kinds of wines spoken of in the Bible; one is recommended "a little for the stomach's sake," the other denounced. No doubt one was pure, the other rancid. If you will use the article, do procure it in its original purity, and only seek for it among honorable and respectable merchants, whose character and long standing as well as judgment can be relied upon, and to whom a reputation for selling fine wines or liquors is of tenfold more importance than any thing they could gain by adulteration.

If consumers have any doubt as to procuring, in their own vicinity, such an article as they desire, we confidently recommend them to the old established house of L. D. RICHARDS & SON, Boston, whose advertisement may be found in another column.

**Western Correspondence.**

WINONA, MINNESOTA, APRIL 16TH, 1861.

**FRIEND GREEN:** The Old Mississippi is making a hard run upon her banks. I think you will hear of great destruction of property all along the banks, from St. Paul to New Orleans. It is rising now at the rate of eighteen inches per day. In two days more at this rate, it will be higher than ever known here.

War has begun; we have, as do telegraph wires at our doors. Tremendous enthusiasm prevails. The drums are beating here for volunteers for the support of the Government. The people are rising as a unit—and are armed with the same vigor that animated Sam Adams. It is delightful to be able to divine these things, and then stand upon an eminence and see the bursting volcano. The banks based upon Border State Stocks, in Illinois and Wisconsin, are being like the gun carriages at Moultrie, knocked all to splinters. Like the mighty floods of the Old Father of waters, sweeping on to the ocean. So is freedom, marching Southward. 'Tis Godlike. Let the actions of all be quick and terrible. Seward has surrendered to Ben Wade and the demands of the great Northwest. Confidence is restored in the administration, and the people begin again to think we have a government.

JAMES WHITE.

BOSTON Correspondence.

BOSTON, APRIL 24, 1861.  
The work of defensive war north of Mason & Dixon's Line, goes bravely on. Every friend of the Union is aroused, and the camp fires of patriotism are everywhere in blaze. Money and men, ready to any extent asked. The unionists of all parties are coming to the rescue. Our glorious country, whose liberties and honor are dearer to us than life, is worthy of every sacrifice on our part, even unto death. Business is in a great measure suspended here—the absorbing theme is war, and cures on the head of Jefferson Davis, and all rebels, North and South. Volunteers by thousands are ready at any moment for defence of the country, from all ages, ranks and conditions of men. Last week we apprehended a long civil war. We change our program and believe the war will be short. We dare predict that within ninety days, the Southern traitors will be overawed and humiliated, and the rebels ask for peace. Two hundred thousand union men can march in triumph to the Gulf of Mexico, and plant the star spangled flag on every shore where now the banner of the Southern Confederacy waves.

The city of Washington is now safe beyond all doubt, and if Jefferson Davis eats his Christians dinner there, it will be in disgrace. His *Rues de guerre* on the Capitol is all moonshine. We are in the dark respecting Southern movements at Montgomery, as nearly all intercourse is suspended. The rebels are without doubt vigorously preparing for war, and the invasion of Washington. But gentlemen, Southerners, you are a few days too late, and though you may be very good looking, you can't come in.

The latest intelligence from the gallant Fourth Massachusetts Regiment, under Col. Packard, at Fort Monroe, is cheering. They are likely to see some service yet, being surrounded by enemies. The story going the rounds, that several of the soldiers were intentionally poisoned from drinking bad brandy, is very improbable of truth. Every person in Boston seems to have imbibed the war spirit, whether liable to do military duty or not. Among the exempts by law, are ministers of the Gospel, civil officers in the United States' Government, pilots, seamen, ternion, most of the officers in the civil government of our State, including sheriffs, and Registers of Probate and Deeds, officers who have held or may hold for a period of five years commissions in the army or navy of the United States, or who have been suspended and discharged—conductors and engine drivers of railroads—members of the fire department in a city and town, and all over forty five years of age. Yet quite a portion of such exempts have volunteered their services for the defence of their country at home or abroad.

Speaking of the Massachusetts troops at Fort Monroe, the Providence Journal says:

"We learn that when the Massachusetts troops arrived at Fort Monroe, the commander of the Fort was moved to tears. He exclaimed, seeing the head of their Colonel, 'In Heaven's name where did you get such noble looking fellows as these?' He shook every man by the hand. That does not look much like jealousy between regulars and volunteers."

**Letter from our Correspondent at Illinois.**

We will here acknowledge our indebtedness to our fair correspondent, for the many good things from her pen, which have from time to time appeared in our columns. Her floral offering came safe to hand, and added another green wreath around the tablet of our memory.

Our correspondent's feeling a bision to her lamented teacher, is an affectionate tribute of the heart, to a worthy man and esteemed citizen.

She says, now who were acquainted with Mr. Cummings, would for a moment suspect, from his "calm exterior," that all was not sunshine within—or that there was any earthly sorrow so great, which his wounded spirit could not bear—but put for release—for the golden thread of life to be broken, that it might find repose in forgetfulness.]

LOAMI, ILLINOIS, APRIL 17TH, 1861.

MR. GREEN: Gathering flowers a few days

since, the thought struck me that I would

press few varieties of our wild ones and

send them to you, and so I now enclose them.

It seems, by a recent letter I received from your vicinity, that old winter is loth to leave you.

The recent storm in your midst extended to us, but here they came in warm and frequent rains, which have almost disengaged the farmer who are impatient to get in their crops. With us, the grass is green, and thick enough for cattle to get most of their living from it. Forest trees are leaving out, the peach trees are unfolding their delicate pink flowers, and the cherry and apple trees will soon look like so many huge bouquets. The air is vocal with the songs of many birds, who, with us, rejoice that "winter is over and gone."

How shocked I was to learn of the death of my dear old school teacher, "Master Cummings," and in such a manner, too! I cannot realize it. Verily, it often requires more courage to live than to die.

Great indeed, must be the burthen of life, ere one can determine thus to cut the silver cord, and loose the fettered soul. We know not how much of agony was hidden beneath that calm exterior—so let us not judge harshly.

My faith is world-wide, and our Father is merciful. I have only pleasant memories of this man—I will cherish them. Let him who alone redeeth the heart of man, be his judge. Respectfully yours,

LINDA LINDA.

**WHITING'S UNION SALVE.**—For all kinds of flesh wounds, burns, scalds, chilblains, etc., no matter of how long standing. The excellent virtues of this salve, as a sure remedy for the abovementioned complaints, have been acknowledged by many of the medical faculty, and by all who have given it a trial. The proprietor intends shortly to place it more generally before the public, with her other valuable recipe, the "Cordial Bitter," a safe and speedy specific for all spring afflictions.

**SUICIDE.** An elderly woman, wife of Ebenezer C. Thayer, of this town, hung herself, on Saturday last, to the bed post in her chamber. Momentary insanity was assigned as the cause.

House and Land situated on the top of Mount Pleasant. Said property bounds Southward and Easterly by land of Mrs. Susan Webb and Westerly by land or cart-way. Said property is described below, formerly owned and occupied by Charles A. Cummings, florist, deceased, used as a nursery and green-house, situated on Sea street, Quincy, consisting of 1-2 acre of very superior land, with building thereon valued at \$1000.

Also property situated on Washington street, which bounds Southward by said street, Westerly by land of Asa B. Pratt, Northerly by land of David P. Richards, Easterly by land of Samuel Pray. Said property consists of a House, Land, and a building used as a stable and shoe manufacturing shop. Said property is assessed to Thomas Fay, for Town, State, and County purposes, in the sum of ten dollars and seventy eight cents, for the year 1860.

Also property situated on Commercial street, bounded Northerly by said street, Southward and Easterly by land of Charles Humphrey, Easterly by land of Joseph Loud. Said property consists of land and house, situated on the corner of Laurence and Raynham, Mass., in the sum of three dollars and ninety-nine cents, for the year 1860.

Also property situated on Broad street, opposite the Baptist Meeting-house, in Weymouth, and between the houses of Thomas Richards and Ziba C. Small. Said property consists of a House and Land, and is assessed to Sargent L. Stoddard for Town, State, and County purposes, in the sum of six dollars and fifty-four cents for the year 1860.

Also property situated on Union street, and bounded Northerly by said street, Easterly by land of Patrick Walsh, Westerly by land of George W. White. Said property consists of a House, Shop, and land, and is assessed to Cornelius Hale, for Town, State and County purposes, in the sum of twenty-seven cents—said taxes are for the year 1860.

Also property situated on White's Lane, a little back from Union street, and bounded Easterly by said Lane, Southerly by land of Stephen Donahue, Northerly by land of James Gilligan. Said property consists of a House, Barn and Land; part of said barn is fixed up and rented to a family—and is assessed to Dennis Slattery for Town, State and County purposes, in the sum of three dollars and six-tenths cents, for the year 1860.

Also property situated on Union street, and bounded Northerly by said street, Westerly by land of William Hubbard, Easterly by land of Cornelius Hale. Said property is assessed to George W. White, moulder and founder, and forms part of his property for Town, State and County purposes; for the year 1860. Said property consists of House, Land, Stable and Sheds.

Also a piece of Land on the Easterly side of Richmond Hill, and bounded Southerly on Richmond street, Northerly by land of Mrs. Susan Webb. Easterly on Lot No 40. Westerly on Lot No 38—the above description or bounds is from the deed of 1853. Said property is assessed to Patrick, Jr., in the sum of seventy-two cents for the year 1860.

The above property will be sold as foreclosed, in the names mentioned above, for the payment of said taxes, unless said taxes and the legal expense thereon are previously paid.

In a Seal Envelope:

ON THE NATURE, TREATMENT, and RADICAL CURE OF SPERMATORRHEA, or Seminal Weakness, Sexual Debility, nervous and involuntary emissions, inducing impotency, and Mental and Physical incapacity.

By ROBT. J. CULVERWELL, M. D., Author of the "Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-abuse may be effectually removed without medicine and without dangerous surgical operations, hones, instruments, rings or cords, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically. This lecture will prove a boon to thousands and thousands.

Sent under seal, in a plain envelope, to any address, post paid, in the receipt of two postage stamps, by addressing:

Dr. CH. J. C. KLINE, 127 Bowery, New York. Post Office box, 4,586.

## Poetry.

Spring.

A flush of green is on the boughs,  
A warm breath pants in the air,  
And in the earth a heart-pulse there  
Throbs underneath her breast of snow:

Life is astir among the woods,  
And by the moor, and by the stream,  
The year, as from a torpid dream,  
Wakes up in sunshine on the buds;

Wakes up in music as the song  
Of wood bird sings, and loosened till  
More frequent from the windy hill  
Comes greeting forest voices along;

Wakes up in beauty as the sheet  
Of woodland pool the gleams receives  
Through bright flowers, over-sided leaves,  
Or broken sunlights, golden-green.

She sees the outlawed winter stay  
Awhile, to gather after him  
Snow robes, frost-crystallized diadem  
And then in soft showers pass away.

She could not love rough winter well,  
Yet cannot those but mourn him now  
So wears awhile on her young brow  
His gill—a gleaming icicle.

Then turns her, loving, to the sun,  
Upheaves her bosom's swell to his,  
And, in the joy of his first kiss,  
Forgets for aye that sterner one:

Old winter's pledge from her heave—  
That icy cold, though glittering spar—  
And zones with a green cymat,  
And girdles round her brow with leaves;

The primrose and wood-violet.  
He tangles in her shining hair,  
And teaches elfin breezes fair  
To sing her some sweet canzonet.

All promising long summer hours,  
When she in his embrace shall lie,  
Under the broad dome of bright sky,  
On mossy couches starred with flowers,

Till she smiles back again to him  
The beauty beaming from his face,  
And, robed in light, glows with the grace  
Of Eden-placed cherub.

O earth, thy glowing loveliness  
Around our very hearts has thrown  
An undimmed joyance all its own,  
And sunned us o'er with happiness.

## A Lament.

There was an eye whose partial glance  
Could ne'er my numerous failings see;  
There was an ear that heard untold  
When others spoke in praise of me;

There was a heart a time only taught  
With warmer love for me to burn—  
A heart, whoso'er from home I roved,  
Which fondly pined for my return;

There was a lip which always breathed  
Even short farewells in tones of sadness;  
There was a voice whose eager sound  
My welcome spoke with heartfelt gladness;

There was a mind whose vigorous power  
On mine its own effulgence threw,  
And called my humble talents forth,  
Whilst thence its dearest joys it drew;

There was a love which for my weal  
With anxious fears would overflow;  
Which wept, which pray'd me, and sought  
From future ill to guard—but now!

That eye is clos'd and deaf that ear,  
That lip and voice are more forever,  
And cold that heart of anxious love,  
Which death alone from mine could sever,

And lost to me that ardent mind,  
Which lov'd my varied tasks to see;  
And oh! of all the praise I gain'd,  
His was the dearest far to me!

Now I, unloved, uncheer'd alone,  
Life's dreary wilderness must tread,  
Till He who heals the broken heart  
In mercy bids me join the dead.

O Thou! who from Thy throne on high,  
Can heal the mourner's deep distress;  
Oh, Thou! who healest the widow's cry,  
Thou! father of the fatherless!

Though now I am a faded leaf  
That's severed from the parent tree,  
And throw upon a stormy tide—  
Life's awful tide that leads to Thee;

Still! gracious Lord! the voice of praise  
Shall spring spontaneous from my breast;  
Since, though I tread a weary way,  
I trust that he I mount is best.

## Misers.

How many a man from love of pelf,  
To stuff his colliers, starves himself;  
Labors, accumulates, and spares,  
To lay up ruin for his heirs;

Grudges the poor their scanty dole;  
Saves everything except his soul;  
And always anxious, always vexed,  
Loses both this world and the next!

## Anecdotes.

Young man: said a minister to a youth of  
his congregation, do you know what relations  
you sustain in the world?

Yes sir; two cousins and a grandmother,  
but I do not intend to sustain them much  
longer.

A facetious boy asked one of his playmates  
how a hardware dealer differed from a boot-  
maker? The latter somewhat puzzled, gave  
it up.

Why, said the other, because the one sold  
the nails, and the other nailed the soles.

Polly was telling an absurd dream, when  
her mistress exclaimed:

You must have been asleep when you  
dreamed such stuff as that!

No, indeed, ma'am, she replied tartly, I was  
just as wide awake as I am this minute.

What makes you get up so late, sir? said  
a father to his son, who made his appearance  
at the breakfast-table about ten o'clock.

late! why, father, I was up with the lark.  
Well, then, sir, for the future don't remain  
so long up with the lark, but come down a  
little earlier to breakfast.

**Cephalic Pills**  
CURE  
Sick Headache  
Nervous Headache  
CURE  
All kinds of  
Headache.

By the use of these Pills the periodic attacks  
of Nervous or Sick Headache may be prevented;  
and if taken at the commencement of an attack,  
immediate relief from pain and sickness will be  
obtained.

They seldom fail in removing the Nausea and  
Headache to which females are so subject.

They act gently upon the bowels,—removing  
costiveness.

For Literary Men, Students, Delicate Females  
and all persons of sedentary habits, they are val-  
uable as a Laxative, immediately improving the  
appetite, giving tone and vigor to the digestive  
organs, and restoring the natural elasticity and  
strength of the whole system.

The CEPHALIC PILLS are the result of  
long investigation and carefully conducted ex-  
periments, having been in use many years, during  
which time they have prevented and relieved a  
vast amount of pain and suffering from headache,  
whether originating in the nervous system or  
from a deranged state of the stomach.

They are entirely vegetable in their composition,  
and may be taken at all times with perfect  
safety without making any change of diet, and  
the absence of any disagreeable taste renders it  
easy to administer them to children.

BEWARE OF COUNTERFEITS.

# Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

And for the speedy cure of the unjoined varieties of Disease:

**Serous and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

Quincy, June 6th, 1859.

J. C. AYER & Co. Gentlemen I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inflicted a Scrofulous infection, I have suffered from it for many years. Some time ago it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it burst out on my face, and my eye was closed with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla) to it. I knew it was good, so I sent for it, and used it, and till it cured me. I took it as you advise, in small doses, of a powerful medicine, and in a few days three hours after New and healthy skin soon began to form under the scabs, which after a while fell off. My skin is now clear and healthy, and I can well believe that I feel what I am saying when I tell you that I hold you to be one of the apostles of the gospel, and remain ever gratefully yours,

ALFRED R. TALLEY.

**St. Anthony's Fire, Rose or Ergot Disease, Tetter and Salt Rheumatism, Sciatica, Head, Ringworm, Etc., Dopey.**

In Dr. J. M. Pease writes from Salem, N. Y. 12th Sept., 1859, that he has cured an inveterate case of Dopey, which threatened to terminate fatal, by the services of your Extract of Sarsaparilla. He says that the attack of *Malignant Ergotism* by large doses of the same: says he cures the common *Ergotism* by it constantly.

**Bronchitis, Goitre or Swelled Neck.**

Subscription Sheet of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over twenty years."

**Larynx or White, Ovarian Tumor, Uterine Ulceration, Female Diseases.**

In Dr. J. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your Extract of Sarsaparilla, as the best and most excellent alternative to the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Sexes. I have cured many cases of *Leucorrhœa* by it, and some where the complaint was caused by *ulceration of the uterus*. The ulceration itself was cured in a week, and my knowledge adapts it for these female arrangements."

Edward S. Marrow, of Newbury, Ala., writes: "A desperate ovarian tumor on one of my ovaries, which had been all the trouble, and all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing could be done for me, but I now thank God for the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks we are well again."

**Syphilis and Mercurial Disease.**

New Orleans, 26th August, 1859.  
Dr. J. C. AYER: Sir, I closely comply with the request of your agent, and report to you some of the effects I have had with your Extract of Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found no effect equal to it. In particular, *General Arterial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his flesh, and the top of his nose, and were threatening to penetrate his brain, causing him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten through the bone, and threatened to penetrate the under side, so that he could reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulceration was stopped, and the edges of the nostril were restored to their natural form, and the patient had no disfigurement to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones, and had constant harassing pains in her joints and bones. She, too, was cured entirely by your Sarsaparilla. In a few weeks I have cured two cases of syphilis, and I have no doubt, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it are Fraternally yours,

G. V. LORIMER, M. D.

**Rheumatism, Gout, Liver Complaint.**

INDEPENDENCE, Preston Co., Va., 6th July, 1859.  
Dr. J. C. AYER: Sir, I have been afflicted with a painful rheumatism, and stuck me in spite of all the skill of physicians, and stuck me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle of it cured me, and they say it is the greatest health so much that I am far better than before I was attacked. I think it a wonderful medicine.

Jules Y. Getchell, of St. Louis, writes: "I have been ill with a severe rheumatism, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years. From no other place did I get relief but from your Sarsaparilla. The Rev. Mr. Egoy, advised me to try your Sarsaparilla, because he knew you, and any thing you made was worth trying. I took your Sarsaparilla, and it has perfectly relieved my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

**Schirrus, Cancer Tumors, Enlargement, Caries and Extirpation of the Bones.**

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this Extract of Sarsaparilla. The names and descriptions of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to those who will apply to them.

**Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.**

Many remarkable cures of these affections have been made by the alternative power of this medicine. It eliminates the vital functions, and removes all the causes which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

**Ayer's Cherry Pectoral,**

FOR THE RAPID CURE OF COUGH, COLDS, CHILBLAINS, CROPS, BREATHING, INFLUENT CONSUMPTION, and for the Relief of CONSUMPTIVE PATIENTS IN ALL STAGES of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is now the standard of all medical virtue. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary diseases have made it known throughout every country in the world. For the communities, and even families, among them who have no personal experience of its effects, are given living trophy in their mind, in the victory the same day over the disease of throat and lungs. All know the dreadful fatality of these disorders, and they know, too, the effects of this remedy, we need not go more into detail. We are now in full possession of the virtue that it did have when making the cures which have won so strongly upon the confidence of mankind.

### A Sermon

PREACHED IN THE STONE TEMPLE, IN  
QUINCY, APRIL 28TH, 1861, BY THE PASTOR,  
REV. JOHN D. WELLS: REPORTED  
BY S. MORSE, JR., FOR THE PATRIOT.

healthier and stronger, and nourishes Christian virtues, brings man nearer his God; if the growth of vice is checked and nipped in the bud, if the hand raised to strike a blow at the Right is paralyzed, who is not ready to say that the seeming ill is a blessing?

Why are we so tried, we ask? Why is temptation permitted to assaul us? Acknowledge that it is a great evil. Does not lasting good come out of it? Are we not better and holier for every victory?

Can we have a true appreciation of the joy of the righteous, without some knowledge of the state of despair to which sin brings us?

God makes us better for our temptations. He brings peace from war. I should be untrue to myself, if I did not speak of that of which all our hearts are full. That horror, which a year ago, we hardly dreamed of, is at our doors. So long has our favored Nation slumbered in peace, prosperous and happy, undisturbed, save by some slight tumult. So long have we enjoyed the blessings of freedom, unmolested, that we began to look against each other, as Old World imperfections. The Prescher heartily believed it were better that half of our people should be slain.

The text was taken from Matthew x, verses, 34, 35, 36: "Think not that I come to send peace on earth; I come not to send peace, but a sword; for he that comes not at variance against his brother, and the daughter against her mother, and a man's foes shall be they of his own household."

"Not peace but a sword." How could such language come from the lips of our gentle and patient Lord? How could Christ who taught LOVE as Heaven's first law, declare in this distinct language, that the first fruits of his teachings should be bitterness and strife? Simply because he with his divine presence, saw the Father's purposes of final good out of present evil; of final joy from present pain; because he knew that so long as evil is in the world, there will be contention. So long as sin endures, Truth must fight against it. Wickedness will not yield to love must be put down by force.

The words of the text did not announce the end for which He came—but the human suffering, because of the sins through which His kingdom must be established. "Love thy neighbor as thyself," is a divine command; but there is one still greater—*"Love thy God."* It is a hard thing to break off family ties, to part with dear friends; to make foes of one's own household; but a far greater evil, a worse sin, to forsake our God—to prefer peace to the Divine approval. Perfect love rules in Heaven—love which casteth out fear—love which does away with force; that love, we sinful, ever wandering from the narrow path, take for our standard, and slowly work our way towards it. Our earthly means are imperfect; our true end is never gained below; still we work on, climbing higher and higher, often obliged not to do wrong that good may come—but to prefer the less to the greater evil; using imperfect laws, governments, rules of action, as stepping stones to everlasting truth.

Christianity moves slowly, seldom by leaps, but with sure steps. Each generation must take the society and rules as it finds them, and form out of their incompleteness something nearer perfection. All the time, sin abounds. Nothing is pure. There is no full sense of Heaven on earth—no perfect rest short of the grave. Bitter trials, terrible strokes come, and will continue to come, year after year. All this seems dreadful—dreadful to anticipate, dreadful to realize, and the words of the text, at first appear harsh and strange, but taken together with other Scripture teachings, they suggest the great and glorious truth, that God never fails to make all the wrong, which sin brings into the world, subservient to everlasting good.

We will not attempt to speculate on the precise way in which sin has come upon us. We will take the fact as it stands, and we must confess, if we read aright, that God permits, even sometimes commands, what we think an enormous evil, for the

deliberation, and as it would take him some time to decide, he would just clap a few pieces of boards over the holes; and in ten minutes time, with his own hands, he effectively closed every gap. "BORN TO NO MASTER, OF ROSESTAREWE."

(READ! READ!!)

We wish our kind patrons would try to be more prompt in bringing in their articles. Advertisements, special notices, etc., should be handed in before 10 o'clock Friday forenoon, and long communications as soon as Monday if they wish them to be inserted in the next paper.

ANOTHER WEEK brings us round to the same point of uncertainty in relation to our National affairs. Whither we are drifting, the wisest and most sagacious of our statesmen are unable to say. Mr. Lincoln is doing all within his legitimate sphere to preserve the integrity of the Union; but the disaffected States appear as relentless and uncompromising as ever. An amicable adjustment is desired on all hands; why is it not permitted?

Do we not present a most humiliating spectacle to the world? A nation, foremost in the ranks of civilization, in arms to destroy one another, And for what? Can any one tell us the root of the difficulty? If the voice of the people could be heard, we are sure,

that peace would again soon visit the country. Business is drooping, confidence is shaken, and our mechanics are walking the streets for the want of something better to do, with fearful forebodings for the future. Would it not be better to avert farther calamities, to put aside the sword, and, like brothers as we are, come together, and talk the matter over? To this, when reason returns, it must come at last. What evil genius stands between us and our duty?

MAY DAY did not bring with it the sun-shine and flowers requisite for our young folks to get up a floral demonstration. The air was raw and cold; the sun would not show himself, and the flowers were too modest, or backward to make their appearance.

HUNG—IGNOMINIOUSLY HUNG. An effigy of Jefferson Davis was discovered on Monday morning last, suspended from the limb of a tree on Washington street. When taken down by the boys, its ghastly look and repulsive exterior did not strike us very favorably for a President.

THE SEASON. We have seen peas up, and the spring business with our farmers appears to have commenced in earnest. The buds on some of our early trees are unfolding themselves, and in a few weeks we shall be in the midst of flowers.

JACK FROST. After a succession of very pleasant weather, we were visited on the night of Wednesday last, by a heavy frost. Ice formed the thickness of window glass. But it is thought there was no harm done. Vegetation was not advanced enough.

FIRE DEPARTMENT. The Selectmen have appointed the following gentlemen as Engineers of the Fire Department in this town, for the year ensuing:—

William Curtis, James M. Glover, Reuben Kicker, Ebenezer Cleverly, Jos. G. Brackett.

At a meeting of this board held on the 29th ult., William Curtis, was chosen Chief Engineer, and Joseph G. Brackett, Clerk.

ACCEPTED. The Rev. J. G. B. Heath, of Easton, (Penn) has received a call to become pastor of the Universalist Society in this town, which he has accepted. Any of our young friends, who wish to have the golden yoke tied easily and cosily about their necks, can find Mr. Heath, at Mr. Joseph G. Brackett's, ready and willing to oblige them.

DEPARTURE. At noon, on Thursday last, the Conard steamship Niagara sailed from Boston for Liverpool. Hon. Charles Francis Adams, Minister to the Court of St. James, and Hon. Cassius M. Clay, Minister to Russia, were among the passengers. Mr. Adams was accompanied by his wife, a daughter, and two sons, and Mr. Clay by his wife and five children. The steamer was magnificent, highly decorated with flags.

(F)—"The Life of the Flesh is in the Blood," was said by inspiration long before Harvey's discovery of its circulation had brought to light its purposes and uses. Now we know not only that "life is in the blood," but that disease inhabits it also. Many of the disorders that pervade the human frame, have their home in it, thrive and grow in it. The celebrated Dr. J. C. Ayer, of Lowell, has had regard to this important fact in making a remedy to cure these disorders. His Extract of Sarsaparilla purges out the impurities of the blood and induces a healthy action in it that expels disease. This looks reasonable, and it is true, for we know by our own experience. Seldom as we take any medicine we have nevertheless relief which his remedies never fail to afford us when we are obliged to have recourse to them.—Catholic, Halifax. (N. S.)

### Boston Correspondence.

BOSTON, MAY 1, 1861.

Preparations for war are progressing here with vigor. At every turn of the street you hear the tap of the drum, or witness volunteers passing by. The city has quite a military appearance, and is under continual excitement. Large numbers of visitors are here daily from the suburbs. The star spangled banner is seen every where, inspiring patriotic feelings in the hearts of every true lover of the Union. May it soon wave in triumph throughout the thirty-four States.

Perley writes from Washington that the Capitol is safe. This is good authority. But twenty thousand additional troops there from the North would make it safer. These loyal troops will soon be there. The South wants Washington and the North means to keep it; and the great battle ground is to be in and near the District of Columbia. The best received opinion is, that the rebels mean to invade Washington, and that very shortly. And this is the prominent feature of the war. Washington is now well guarded ever to be taken by the rebels. The policy of the administration is fixed. The whole power of the Government and all the money and men of the West and North will be used to put down rebels and traitors. We are on the threshold of great events; blood and carnage may very soon follow—but the Government is preparing for any emergency. Its policy is now defined, to prosecute the war begun against the Government of the United States with all the energy necessary to bring it to a successful termination.

Business is a secondary consideration at the present moment here. With some branches it is active. Money matters are getting less easy. Banks and capitalists are distrustful in their selections of business paper. A financial pressure within a few weeks is not at all improbable. Nay, it is probable that money will be as tight before autumn as at any former period, and one should begin now to take in sail.

Agriculture is the handmaid to look to at the present moment. Every man should plant his grounds to the utmost capacity.

A garden of a quarter of an acre, well planted and cultivated, will produce sufficient of vegetables for any small family.

Let the community of New England, not only plant for their own wants every thing in their power, but also enough to share with those noble band of patriots, who have gone from our midst to fight the battle of Liberty for the preservation of our Union. X.

ERATUM. In the last week's letter of our Boston Correspondent, for Querre read Guerre.

Letter from Col. Packard.

It will be seen from the following letter, which was received a few days ago from the Commander of Massachusetts Volunteer Militia, at Fort Monroe, that the many reports circulated during the last three weeks, about our gallant townsmen, Franklin Curtis, Esq., describing the Army, were without foundation. Woe be to them that started those vile report.

Headquarters, 4th Regiment, M. V. M.  
Fort Monroe, Apr. 28, 1861.

To Miss ——,  
Yours of the 22d inst., came duly to hand, I was surprised to hear that Capt. Curtis was charged with deserting. Wishing to send to Boston, and knowing that he had business which needed his personal attention, I detailed him.

Capt. Curtis arrived at the Fort last Monday afternoon, and took command of his Company, much to the relief of Lieut. Spear. Tell those that stay at home, that we have no cowards in the Fourth Regiment.

We are having an easy time now, but expect a repetition of the scenes of Fort Sumter before long.

Tell my wife that you have heard from me, as it is doubtful when she will receive anything from me, as the mails in this section are stopped, and we have to depend on vessels.

Yours with respect,  
ABNER B. PACKARD,  
Com. M. V. M., at this post.

Another Letter from Fort Monroe.

Fort Monroe, Apr. 29, 1861.

MR. EDITOR:—It is rumored that half the Fourth Regiment from Massachusetts was killed, and that Capt. Curtis had resigned and gone to California. We soldiers of Company II, wish to contradict it, as it is not true. All the soldiers in the Fourth Regiment are alive and in good health, with the exception of one, who was poisoned on his way to the Fort from a bottle of rum bought in New York. As for Captain Curtis, there could not be a braver man, or more true an officer or soldier. He is willing to sacrifice his money for the necessities of his soldiers—his blood for the preservation of the Union. Anything in his power to do for his soldiers, he is willing to do, and we are ready to stand by him, and at his command, to fight for the Union now and forever.

There is a star in the North  
Which shall never go down,  
Until the beauty of its valor decay.  
We must worship its light,  
Though it is our own,  
Until the stars and stripes decay.

### For the Patriot.

The Fourth Regiment.

Headquarters, 4th Regiment, M. V. M.  
Fort Monroe, April 28th, 1861.

I suppose you and your readers would like to hear about the Fourth Regiment, or at least, part of it which belongs to Quincy. We left Boston late Wednesday afternoon in a special train for Fall River, there to take a steamboat for this place. All along the road the various depots were thronged with those who had friends or relatives in our corps, who saluted us with cheers and discharges of cannon as we passed along. Arriving at Fall River about ten, we marched on board the State of Maine. We numbered four hundred and seventy all told, while the boat could not comfortably accommodate more than two thirds of that number; consequently we were much crowded together, and the men were obliged to sleep anywhere and everywhere.

Our progress was very slow so that we did not reach New York until seven o'clock Thursday evening. We stopped here for two hours taking coal on board and trimming ship. While there the Captains of the various companies with the Field and Staff, were invited to take supper at the Author House, where we spent three or four hours very pleasantly, and then again embarked we were soon on our way.

It is almost needless for me to say New York was all alive with excitement. Her "pet pride," the Seventh, was to sail in the Mercury soon to be followed by three other regiments. Uniforms were to be met at every corner, and seemed to be a passport to every favor.

At noon on Friday the men were all mustered in the saloon, their arms inspected, ten men detailed from each corps and provided with ball cartridges. This detachment, numbering one hundred men, were ordered to sleep on their arms ready at a given signal, to take their appointed stations to repel any attack. The single cannon on board was manned, provided with cartridges and canister shot. We had heard from New York that there was a chance of our being intercepted, and as far as we were able were determined to be ready. At midnight all our lights were put out. A steamer passed us and sent up a rocket. In a moment our drums beat and our men stood to their arms. The steamer, however, passed on without molesting us. At day light we could see Fort Monroe in the distance; no flag, nor sign of life was there.

Three miles down the bay we had hailed the keeper of the light boat stationed there, but had received no answer; he is an ultra-secessionist, and since then has resigned his office. We laid off and on abreast the Fort nearly an hour; at last we saw the stars and stripes raised on the flag staff, and ran down to the wharf. We quickly disembarked, and marched into the Fort. As we landed, the men of the garrison who crowded upon the Company as long as there is a drop of blood in their veins. Company H. is in good spirits and enjoying themselves well.

BUTTER. We are enjoying an article of this kind, furnished us by Mr. Arey, from one of our first dairies—which cuts like old cheese; sweet as a new blown rose, with all the freshness and flavor of new-made butter. Our patience has so often been tried in these matters, that we never speak only under the strongest convictions. Friends, we have referred to this fact for your benefit.

We were greeted heartily by the garrison on our arrival. For weeks they had daily been in fear of an attack. The night before our arrival the officers and men had slept on their arms expecting an assault.—The men were worn out by continued watching, having been obliged to be on guard duty two nights out of every three. The Cumberland lies abreast the Fort, and stops every vessel going up or down, to examine their papers, and compel them to hoist the stars and stripes. On Friday last, the frigate brought to a anchor which, on examination, proved to be loaded with a full field battery, bound either to Norfolk or Wilmington. Her captain was put under guard, while the contents of his vessel are now lying on the wharf, guarded by our men. On Saturday the Quincy Company were posted on the wharf with orders to shoot any man who should attempt to cut the schooner's fastenings. We are quite busy now getting into the regular routine of army life. One company of our regiment is daily detailed for guard duty, and two for fatigue duty. Attending to parades, mounting guns, and other like duties, take up most of our time. In a week every gun will be mounted, and the men will have an easier time.

We are all sorry here to know that at home Captain Curtis is considered a deserter, and is charged with cowardice. Such a charge is utterly false and groundless. He had leave of absence for three days, and was a bearer of despatches from Col. Packard to the Governor. He returned to his post promptly at the time appointed, and intends to stay as long as the Fourth Regiment continues in service. I shall write to you again whenever anything happens worthy of note.

And for the speedy cure of the subjoined varieties of Disease:

Serofula and Serofulous Affections, such as Tumors, Ulcers, Scars, Ulcerations, Pimples, Pustules, Blisters, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. GENT: I feel it my duty to acknowledge what you say respecting my Sarsaparilla. Having suffered from Serofulous infection I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned into a Boil, and at other times it was a Blain, which it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I had no relief from any medical treatment, and much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the "Gospel Magazine" of your publication that anything you made must be good. I sent to Cincinnati and got it, and used it with great success, a month, and used almost three bottles. New and healthy skin soon began to form under the old, and I was well again. My wife is dead, and I know by my feelings that she has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you in the highest estimation of the value of your article. Yours,

## Miscellaneous.

Mr. Pepper's Wife.

to receive expressions of sorrow and penitence; he had no doubt that she would fall at his feet and say:

Dear Philander, won't you please to excuse me this time, and I'll never do so any more.

And he was going to say: Betsey Jane, you'd better not! but instead of doing all this what do you think she did? Laughed at him right in the face.

Mr. P. was awful wrathful, and spoke up in a voice of thunder, and said:

Mr. P. walk right up stairs, this very minute, and don't let the grass grow under your feet, either. You have begun your studies in good season, Mrs. P., but I'll have you know it won't do to continue them any length of time with me. Mrs. P. again I command you to walk up stairs.

Well, really, Mr. P., it is not necessary to speak so loud; I am not half so deaf as all that comes to; but as to walking up stairs, I have not the least objection to doing so, if you will wait until I have recovered from my fatigue; but I can't think of doing so before.

But you must, Mrs. P.

Then all I have to say is this, you'll have to carry me, for I won't walk.

Mr. Pepper looked at his wife in great astonishment, but as she began to laugh again he said to himself:

Make the kitchen fire—yes, I'll do that; then make a fire in the bedroom, I'll see to that too; then take the breakfast to his bed-room—just see if I do. And then Mrs. P. sat and thought deeply for some minutes, when apparently having arrived at a satisfactory conclusion she proceeded to business.

This occurred the morning after Mrs. Pepper went to sleep. Mrs. P. was a sensible woman—she made no reply to Mr. P.'s command, but as soon as her toilet was finished she left the room, and sitting down in the kitchen she thus ruminated:

She thinks I won't do it, and hopes to get off that way; but it won't do: up stairs she's got to go, if I have to carry her, so here goes, and taking the form of his lady in his arms she soon had the satisfaction of seeing her safely lodged in prison, and carefully locking her in, he stationed a red-haired youth on the front door steps to attend to callers, and also to see that Mrs. P. did not escape; and then he beat himself to a restaurant for his dinner, and after despatching that, he hurried off to his office, and was soon engrossed in his business.

About the middle of the afternoon, our young sentinel rushed into his office, and said, never stopping to take breath:

Mr. Pepper had better run home just as fast as ever he can, for that woman what's shut up making an awful racket, and she's tearing around there and rattling things distressed kind, and if she hasn't split up something or other, then I don't know what splitting be.

Without waiting to hear more, Mr. P. seized his hat, and hurried home at a most undignified pace.

Opening the hall door, he stole up stairs as carefully as possible, and applying his eye to the key hole, he beheld a sight which made him fairly roar with rage. Mrs. P. was setting in front of the fireplace reading his old love letters. The one she was engaged in perusing at that particular moment was one from a Miss Polly Primrose, who it appears had once looked favorably on the suit of Mr. P., but a more dashing lover making his appearance, Miss Polly sent him a letter of dismissal, promising undying friendship, and accompanying the same with a lock of her hair and some walnut meats.

But it was not the love letters alone that made Mr. Pepper so outrageous. He had been something of a traveller in his day, and had collected a great many curiosities in his rambles, where he had confined Mrs. P., and had let me lie abed, and how I was a going to shut her up, and feed her on bread and water if she dared say she wouldn't do it.

A cozy little arrangement that, Mr. Pepper, said a soft voice behind him.

Mr. P. started up, and there stood Mrs. P. just behind his chair, laughing, just as hard as she could. Mr. P. put on a severe look.

Sat down in that chair, madam, said he and pointed to the one he had just vacated, while I have a little conversation with you.

She seated herself.

Now I should be pleased to know why you did not obey my orders this morning, and where you have been all this forenoon?

Where have I been this forenoon, Mr. P., I have not the slightest objection to tell you; I have been down town doing a little shopping. I have purchased some lovely napkins—just look at them, she said, holding them up decently for his inspection. I only paid a dollar a piece for them—extremely cheap; don't you think so? she added.

Mr. P. confounded to peep through the key hole until he obtained a pretty correct idea of what was going on inside. Never was a Pepper so fired as he. He shook the door, but it was securely fastened within, and resisted all his efforts to open it. He ordered Mrs. P. to open it instantly or take the consequences; but as she did not open it, it is to be presumed that she preferred the consequences. Mr. Pepper darted down stairs like a madman.

I must put a stop to this, he thought, or I shall not have a rag to my back.

Procuring a ladder, he began to mount to the bedroom, but Mrs. Pepper was not to be taken so easily. She knew that he had left the door unlocked, for she had examined it as soon as he had left; but she had no idea of letting him have the benefit of her fire; so hastily seizing several large bottles of cologne she threw the contents upon the fire, and in

a few minutes had the satisfaction of seeing it entirely extinguished. This duty performed she left the apartment, and, locking the door, stationed herself in a convenient position to hear everything that transpired within.

In a few moments, Mr. P. was safe in the apartment, and as soon as he had closed the window, he stood bolt upright in the middle of the room, and said in deep voice:

Jezebel, come forth!

Jane, do you think you can escape?

Still no response.

Mr. P. begins to feel uneasy, and hastily commences to search the room; but had not proceeded far, when he heard a slight titter somewhere in the vicinity of the door. He listens for a moment, and it is repeated. Darting to the door he attempts to open it, but he finds himself a prisoner. There is one more chance, he thinks, and hurries to the window; but alas for Mr. P.! his wife had just removed the ladder.

He sits down on a chair and looks ruefully around him, and presently he arises and picks up a few fragments of a letter which are lying on the carpet, and finds it from Polly Primrose. He wonders what she has done with the lock of hair.

At this moment his eye falls upon his daguerreotype, which is lying upon the table before him, mechanically taking it up, he opens it, and sees—what? nothing but his own face, all the rest of him being rubbed off, and around his lovely phiz is the missing curl, and the walnut meats are carefully stowed in the bottom of the case. Mr. Pepper fairly blubbered aloud.

Good! thought Mrs. P.; when you find your level, I'll let you out, and not till then.

A little wholesome discipline will do you good and I'm fully prepared to administer it.

How long Mrs. P. kept her huge lord in durance vile, deponent saith not, and as to what passed between them after he was released from captivity, we are not any better informed, but of this we are. Mr. P. might have been seen, a morning or two afterwards, to put his head into the bed-room, and hear him say in a mock manner—

Betsey Jane, I've made the kitchen fire, and put on the tea kettle; won't you please to get up and get breakfast?

Hon. C. F. Adams' Farewell Address  
To the People of the Third Congressional  
District of Massachusetts.

QUINCY, May 1, 1861.

FELLOW CITIZENS: Having obeyed the call of the Government of the United States into another field of public service, I have this day resigned the honor of being your representative. How much I have valued it I shall not venture to describe. That I never solicited your confidence, you all know.

But when you voluntarily offered it, you completely filled the measure of my ambition. I trust that I need not add I leave you with regret, and in deference to the opinions of others more than to my own. Whatever may be the estimate generally placed upon the value of different public stations, it is not to be denied that they are of great value.

The difference is in the character of the people who have held them, and in the moderation and patriotism of those who have succeeded them. His sentiments are not, then, to be regarded as those of an extreme revolutionist, but rather as coming from the moderate class. Yet, in this respect, it will be seen from the following extract, which I quote as I find it in a newspaper, that they go quite to the length which I have described:

"The prevailing idea entertained by Jefferson and most of the leading statesmen at the time of the formation of the old Constitution, was that the enslavement of the African was in violation of the laws of nature; that it was wrong in principle, socially, morally and politically. It was an evil they knew not well how to deal with; but the general opinion of the men of that day was that somehow or other, in the order of Providence, the institution would be evanescent and pass away.

"This idea, though not incorporated in the constitution, was the prevailing idea at the time of its formation."

"Our new government is founded upon exactly the opposite ideas. Its foundations are laid, its corner stone rests upon the great truth that the negro is not equal to the white man; that slavery, subordination to the superior race, is his natural and moral condition. This, our new government, is the first in the history of the world, based upon this great physical, philosophical and moral truth."

It comes to this, then, the Vice President of the so-called Confederacy, funded his new government upon a single idea, and that is force. And he has the boldness to pretend that this is the first example in the history of the world, of a government of the kind, when boys in the schools might tell him that history has been made up of instances of the kind, from the days of Alcibiades and Xerxes, of Alaric and Attila, of Genseric and Mahomet, down to the present Sultan of Constantinople. It was, on the other hand, the peculiar characteristic of Mr. Jefferson and his compatriots, that they boldly cut loose from this old doctrine, and advanced a new one, which marked the greatest political advance of the last age. They assumed that man had natural rights of his own, which his stronger neighbors were bound to respect, and that where he did no wrong, he ought to have no wrong done to him. The people of Europe as well as the people of America, regarded this as the distinguishing feature of the new nation that had succeeded in establishing its own rights against the law of force. And the effect of this action has been gradually to mollify the theories even of the most absolute despots

of the world. Hence it is that at this moment, when some of the people of the slaveholding States have made up their minds to renounce and disown the new faith, they can only be regarded as persons who turn their backs on modern truths and return to antiquated error. They are, in fact, creating the bulwarks of a military oligarchy. You were clearly right, therefore, in the stand you took in favor of a general reform. And that portion of our fellow citizens which permitted its painful strength, for so long a time, to be used in upholding a policy which proved to have been so treacherous, most by this time have become convinced that no security was left but in a change of masters. And all of us must see that even the evils which are likely to be called to encounter are not coming from the side of the South, but from the North, which must have ensued from a combined and systematic demoralization under the old system.

It must be obvious that the assumption of such a theory as a rule of action in government, implies so much latitude in the abuse of power, and so much indifference to political association, that persons venturing it, far from safer. The great mass of the American people would not tolerate the notion that any possible state of things, except downright subjugation, could reconcile them to adopt it. They still continue to believe in the doctrine of the Fathers, so openly repudiated. They still maintain the great principles upon which the government is admitted by Mr. Stephens, to have been founded. They yet propose to preserve the spirit in which it was originally administered. In their eyes, the change proposed, so far from being an improvement, would be discreditable to the political intelligence of the nineteenth century. If it be the pleasure of the revising States to stand before the world as the exponent of such ideas, let them stand alone. Even the autocratic monarch of all the Russias, is at this moment proving by his actions, how very little of sympathy he has with these exploded notions. The whole world is moving forward, excepting the people ruled by King Cotton. It remains yet to be seen, whether even his throne will be safe from the consequences of such an experiment.

If I am right, then, in my views, the conclusion inevitably must be that the political revolution of the last year, marks a great era in American history, second only to that of our Independence. It saved us from the impending domination of slaveholding absolutism, and did hope that it might have been ill-founded in its originality. I find, however, that it might have followed by a policy which, whilst it would no longer be in the end, save even the slaveholding States from the perils of their situation. In these expectations it would seem, from present appearances, that I was much too sanguine. The desperate agitators have precipitated the more moderate and patriotic classes of their fellow citizens, into a revolution. They have staked their all upon the maintenance of their political supremacy as a slaveholding oligarchy. We cannot refuse the issue tendered to us, if we would. Their whole action since the sixth of November, has been aggressive, insolent, treacherous and violent, a very natural corollary from the principles on which their organization is now based. We have no choice but to sacrifice our independence, if we consent to their demands. The basis upon which their attempt at reconstruction rests is the right of one man to rule over another with his force. With this exception, very little change has been attempted in the frame of our government. The forms have been generally preserved with great care. The difference is mainly in the spirit in which it is to be administered, — Could we have consented to continue that spirit at Washington, there would have been no rebellion, and we should have had a federal government justifying the sway of force and fraud. We refused to be slaves, and the consequence is that the experiment has been transferred to Montgomery in Alabama.

It ought not, then, to be overlooked by you, that the only public question immediately before you, for your consideration, turns upon this point. The revising States into another field of public service, I have this day resigned the honor of being your representative. How much I have valued it I shall not venture to describe. That I never solicited your confidence, you all know. But when you voluntarily offered it, you completely filled the measure of my ambition. I trust that I need not add I leave you with regret, and that might make right. We have now the champion of law and republican liberty. It is impossible, even if it were to be done, to be disengaged from the perils of their situation. In these expectations it would seem, from present appearances, that I was much too sanguine. The desperate agitators have precipitated the more moderate and patriotic classes of their fellow citizens, into a revolution. They have staked their all upon the maintenance of their political supremacy as a slaveholding oligarchy. We cannot refuse the issue tendered to us, if we would. Their whole action since the sixth of November, has been aggressive, insolent, treacherous and violent, a very natural corollary from the principles on which their organization is now based. We refused to be slaves, and the consequence is that the experiment has been transferred to Montgomery in Alabama.

It is now most earnestly to bid each and every one of you, my fellow citizens, an affectionate farewell.

CHARLES FRANCIS ADAMS.

How we Abuse our Stomachs.

No other civilized people, probably, are accustomed to abuse their stomachs so badly as we Americans of the United States. Our food is often badly chosen, still more frequently spoiled in cooking, and almost always eaten in utter disregard of dietary rules. We eat far too much flesh-meat, (and especially pork, in its most objectionable form,) and too little bread, vegetables, and fruits. Our hot soda raised biscuits, hot griddle cakes, saturated with butter, and the hot, black, intolerable coffee, which form the staples of our breakfasts, are, in the way in which they are taken, among the most deleterious articles ever put upon a table. Pies are another American abomination, and have no small share of our ill health to answer for. The pie, as it is generally made, is the abomination of abominations. Some one describes it, as "very white and indigestible

at the top, very moist and indigestible at the bottom, and with untold horrors in the middle;" even our bread is unwholesome. It is made of the finest of fine flour, and either fermented till its natural sweetness and a large portion of its nutritive elements are destroyed, or raised with those poisonous chemicals, soda and cream of tartar. In either case it is unfit to be eaten. The rich cakes which our good housekeepers deem so indispensable, are still worse, and so on. Now, add to our bad chosen dishes and our objectionable cookery, the rapid eating and imperfect mastication, and the continually interrupted digestion which our intense and feverish life necessitates, and we have a complication of abuses which would, one must believe, have long since utterly destroyed the vital stamina of any people not originally endowed with marvellous physical powers.—*Jacques' Hints towards Physical Perfection.*

**UP READ! READ!**

We wish our kind patrons would try to be more prompt in bringing us their articles. Advertisements, special notices, etc., should be handed in before 10 o'clock Friday forenoon, and long communications as soon as Monday if they wish them to be inserted in the next paper.

**TOWN MEETING.** At a legal meeting of the citizens of Quincy held at the Town Hall yesterday afternoon, May 10th, Wm. S. Morton, Esq., was chosen Moderator.

**Voted.** That the Treasurer of Quincy be authorized to borrow, under the direction of the Selectmen, a sum of money at such times, in such amounts, and for such terms, as the same may be required for the purposes following, to wit:

1. To pay such persons of this town, who since the rebellion of the so called Confederate States, have enlisted in the army of the United States, or my hereafter enlist therein, in any company recruited in this town.

2. To pay such persons of this town, who have enlisted in other towns, provided they receive no pay from such towns, and that in all the above cases, such pay shall continue while such persons shall remain in active service; but in no case to extend beyond the term of three years.

3. To pay each married man, thus classified, the sum of fifteen dollars, and to each unmarried man the sum of ten dollars, (independent of any sum he may receive from the General Government,) per month, and such sums so granted as aforesaid to be paid monthly.

4. To pay to such men of this town as have now enlisted the sum of one dollar, and one quarter of a dollar per day for such time past as they shall have been actually drilling in this town, and for three weeks next ensuing, if they shall go long drill before being mustered, and shall actually enter into the service, provided that if there should be no requisition from the government within three weeks from this day, they shall receive the aforesaid compensation as if actually mustered.

**Voted.** That such sum of money shall, at the discretion of the Committee, hereafter designated and chosen, be withheld from said person, and pay to their families, whenever in the opinion of the Committee such payment shall be deemed advisable and proper.

**Voted.** That a Committee of one from each School District be appointed to regulate the expenditure and disbursement of the money raised as aforesaid; and the order of the Chairman and Secretary acting for the Committee shall be sufficient warrant and authority for the Selectmen to draw orders on the Treasurer, for the payment of said money.

**Chose.** John Glover, Wyman Abercrombie, Thompson Baxter, Jonathan Jameson, Henry Littlefield, Edmund B. Taylor, Committee.

The meeting was dissolved.

**A BARGAIN.** The beautiful green house, nursery, stable, and about one half an acre of land, belonging to the late Charles A. Cummings, on Sea street, was sold by public auction yesterday afternoon, to George H. Cummings, for the low sum of \$1450.

**OLD WEYMOUTH ALL RIGHT.** At a legal meeting of the town of Weymouth, held on Monday afternoon of last week, it was voted to appropriate five thousand dollars for uniforms for the new company, called the Weymouth Union Guards, just organized, and pay fifteen dollars a month for married persons who enlist, and ten dollars for single persons. The following are the officers of the company: Captain, James L. Bates; 1st Lieut., C. W. Hastings; 2d Lieut., P. B. Pratt; 3d Lieut., J. Peaks; 4th Lieut., M. Burrell, Jr.; Orderly Sergeant, J. H. Pratt. About one hundred names are enrolled for another company.

**THOR ENGINE COMPANY.** At the annual meeting of this Company, held on Monday last, the following persons were elected officers for the year ensuing:

Foreman, Amos M. Litchfield.  
1st Assistant, Gilbert Blaisdell.  
2d Assistant, Joseph W. Hayden.  
Clerk and Treasurer, Frederick Hardwick.  
Leading Hosemen, J. S. Paine, Samuel Turner, John W. Moore, George W. Turner, Harrison Crane, William W. Penniman.  
Suction Hosemen, Isaac Forrester, Marcus Hobart, Joseph Whicher, William Willott.  
Standing Committee, Henry A. Newcomb, Stephen Penniman, John W. Moore.  
Steward, Gilbert Blaisdell.

**QUEY.** Is the Commander of the Home Guard in this town forty years old? If so he was quite an "Old Bach" when married.

### Boston Correspondence

*BOSTON, MAY 8, 1861.*

The general features of civil war bear a better aspect for the cause of unionism than last week, when every thing was in doubt and gloom as to National affairs. From such intelligence as we can glean from the Southern papers, the rebels begin to manifest a confession that they have made a grave mistake and must back down as an ultimate necessity.

## Poetry.

## The Merry Birds of Spring.

O, the merry, merry birds of spring!  
How they sing!  
Their rapture over woodland, hill, and plain!  
With what gushing, golden showers  
They flood the bloomy, balmy hours,  
Steeping all in music's yearning calm, and joy's  
voluptuous pain!

O, the beauty they bring!  
O, the joyous songs they sing!  
O, the merry, merry birds of spring!

And the bluebird—gentlest he, and best—  
On the crest!  
Of th' earliest noisy bower northward driven,  
Warbling soft and low, doth ride,  
And leads the lingering south a bride,  
Like a spirit all of love compact, whose wing  
is dip in heaven!

Then the robin, dancing, troup along,  
Filled with glee!  
And flute-bellring a golden melody;  
While the gladsome birds conspire  
To rustle on their green attire,  
And the loosened streams exultant clasp their  
milky hands with glee!

Hark! the oriole has come once more!  
Hear him pour  
Sweet jargons, while swinging in the  
breeze!

How our village, vales and hills,  
The music shrills, and trills, and thrills,  
As his gorgeous plumage gleameth like a meteor  
'mid the trees!

Robed in black and gold now comes bobolink!  
Let us drink

The ecstasy of his exquisite strain,  
See him rise, and singing rise,

An arrow of song athwart the skies!  
Winged with love, he soars in rapture, and is  
rapture sinks again!

O, the merry, merry birds of spring!  
How they sing!  
Till with a song all heaven rings!  
Hear them clearing fat and neat,  
How soft and low, how loud and clear,  
Loye and spring, until the swallow brings the  
summer on his wings!

O, the beauty they bring!  
O, the joyous songs they sing!  
O, the merry, merry birds of spring!

## The Laborer and the Warrior.

The camp has had its day of song;  
The sword, the bayonet, the plume,  
Have crowded out of rhyme the song!  
The plow, the anvil, and the loom!  
O! not upon the battle-fields  
Are freedom's heroes bred alone;

The training of the workshop yields  
More heroes true than war has known.

Who drives the bolt, who shapes the steel,  
May with a heart as valiant smite,  
As he who sees a foeman reel  
In blood before his blow of might;

The skill that conquers space and time,  
That graces life, that lightens toil,

May spring from courage more sublime

Than that which makes a realm a spoil.

Let labor, then, look up and see  
His craft no path of toil or tasks;

The soldier's field you shall be!

Less art his own appointment-prize,

Nor deem that gold or outward light

Can compensate the worth that lies

In tastes that breed their own delight.

And may the tune draw nearer still,  
When man this sacred truth shall heed,  
That from the thought and from the will  
Must all that raises man proceed;

Though pride may hold our calling low,

For us shall duty make it good;

And we from truth to truth shall go;

Till life and death are understood.

## Farmer's Girls.

Up in the early morning,  
Just at the peep of day,  
Straining the milk in the dairy,  
Turning the cows away—  
Sweeping the floor in the kitchen,  
Making the beds up stairs,  
Washing the breakfast dishes,  
Dusting the parlor chairs.

Brushing the crumbs from the pantry,  
Hunting for eggs in the barn,  
Cleaning up the room for dinner,  
Spinning the stocking varne,  
Spreading the whitening linen—  
Down on the bushes below,  
Ransacking every meadow  
Where the red strawberries grow.

Starching the "fixings" for Sunday,  
Churning the snowy cream,  
Rinsing the pails and the strainer  
Down in the running stream—  
Feeding the geese and turkeys,  
Making the pumpkin pies,  
Jogging the little one's cradle,  
Driving away the flies.

Grace in every motion,  
Music in every tone,  
Beauty of form and feature  
Thousands might covet to own—  
Checks that rival spring roses,  
Teeth the whitest of pearls;  
One of these country maid's is worth  
A score of your city girls.

## Anecdotes.

A midshipman asked a priest to tell him the difference between a priest and a jackson. The priest gave it up.

One wears his cross on his back, the other on his breast, said the midshipman.

Now said the priest, tell me the difference between a midshipman and a jackson.

The midshipman gave it up, and asked what it was.

The priest said he did not know of any.

The man who has raised a cabbage-head has done more good than all the metaphysicians in the world!

Then, replied a wag, your mother ought to have a premium.

Now do take this medicine, wife, and I'll be hanged if it doesn't cure you.

Oh, I will take it, by all means, for it is sure to do good one way or the other.

All kinds of  
HEADACHE.

By the use of these Pills the periodic attacks  
of Nervous or Sick Headache may be prevented;  
and if taken at the commencement of an attack,  
immediate relief from pain and sickness will be  
obtained.

They seldom fail in removing the Nausea and  
Headache to which females are so subject.

They act gently upon the bowels,—removing  
costiveness.

For Literary Men, Students, Delicate Females and  
all persons of sedentary habits, they are valuable as  
a Laxative, immediately improving the appetite,  
giving tone and vigor to the digestive organs,  
and restoring the natural elasticity and  
strength of the whole system.

The CEPHALIC PILLS are the result of long  
investigation and carefully conducted experiments,  
having been in use many years, during  
which time they have prevented and relieved a  
vast amount of pain and suffering from headache,  
whether originating in the nervous system or  
from a deranged state of the stomach.

They are entirely vegetable in their composition,  
and may be taken at all times with perfect  
safety without making any change of diet, and  
the absence of any disagreeable taste renders it  
easy to administer them to children.

SATURDAY, MAY 18.

son, beloved one, and lead thee through green pastures by the still waters of life. Now, thou art gathering the fadless flowers of immortality, such as mortal eyes can never behold, and the music that greets them is not the sweet singing of birds, but, the angelic voices of the pure and blest as they chant the celestial song of triumph and everlasting love. Thrice happy one! Eternal spring abides with thee now, and unending joys are thine! The prostrating hand of disease hath no more power to lay thee low, sorrow and pain are thine no longer, and death enters not the pearly gates of the New Jerusalem. A few more days, and we too, shall sleep the sleep that here shall know no waking, and join thee in the realms of bliss, where parting words are never spoken.

Look not so sad, sweet friend. These are to me happy thoughts. The dark, cheerless, soul-aching faith of the infidel is not ours, thank God; but one which bids us resign our loved ones to the Angel of Death with calmness and submission, and with the best assurance that with them all is well. In this still let us rejoice.

BORN TO NO MASTER, OF NO SECT ARE WE."

**READY! READY!**

We wish our kind patrons would try to be more prompt in bringing in their articles. Advertisements, special notices, etc., should be handed in before 10 o'clock Friday forenoon, and long communications as soon as Monday if they wish them to be inserted in the next paper.

**POST OFFICE.** We learn that George L. Gill, Esq., has received his Commission, and will remove the office on Monday morning next, after the mail arrives, to a room in his store, which he has fitted up very neatly for the purpose.

**ALL FOR THE UNION.** Yesterday, in our military annals, was a memorable day. At sunrise the bells, with jubilant tongue, proclaimed an important event on hand. In the early part of the morning, the Army of the Hancock Light Guard was besieged with visitors, and at an hour to noon, the "Home Guards,"—a company of gentlemen of the old school, recently organized for home duty, arrived who were joined by our gallant little band of volunteers, and in this order, escorted by the Quincy Brass Band, took a circuit of the Square, to the Stone Temple, where a player was offered to the throne of grace, by Rev. Mr. Brown; so air was then played by the Band—followed by an anthem from the choir, with remarks applicable to the occasion, by Rev. Messrs. Wells and Brown, George A. W. Chamberlain Esq., and others. On the conclusion of these ceremonies, off for Boston, amid the prayers and congratulations of the assembled multitude. To day, they leave in the steamer Cambridge for Fort Monroe. Our parting was with regret; but in the bright hope that their mission will bring order out of chaos, and restore peace once more to our unhappy country.

**FRUIT.** The prospect is not very favorable for an abundance of fruit this season. The pear tree is in bloom, and looks very encouraging; but the cherry, we are fearful will be a failure. The hard weather which we had a week or ten days since was too severe for the tender blossoms, which were then about unfolding themselves.

**IMPROVEMENTS.** Notwithstanding the responsible duties of a National character, which has occupied so much of the time of our Municipal Fathers of late, they have not been unmindful of the domestic comforts of the community. Many of our streets have undergone necessary repairs, and long demanded improvements made. The contemplated alterations at the corner of School and Hancock streets, have been completed—furnishing a broad, neat and convenient foot path; where the pedestrian, if two should happen to meet, is not in danger of being toppled over the curb stone into the gutter.

**GRANITE ENGINE COMPANY, NO. 3.** At the annual meeting of this Company, held on Monday evening, May 6th, the following persons were elected for the year ensuing:

President, Elija A. Corliss.  
1st Assistant, Richard W. Dexter.  
2d Assistant, William Boyd.  
Clerk and Treasurer, Joseph T. French.  
Standing Committee, Lyman Gilman, James A. Fisher, Charles H. Brown.  
Steward, William Gragg.  
Suction Hosemen, Thomas H. Styles, Peter Farrell, 1st, Richard Cole.

**Leading Hosemen,** Richard H. Fisher, George W. Trask, James Gannon, George L. McIntire, Chester Page, Thomas O'Brien.

**SPRIT OF THE WEST.** Through the columns of the Adams County Independent, Wisconsin, published by Julius C. Chandler, we learn that our worthy brother of the quill, has dropped the shooting stick of his profession, for a shooting stick of Uncle Sam; and the quiet retirement of his editorial sanctum, for the noise and active scenes of camp life. Mr. Chandler is a fair specimen of the hardy pioneers of the great West—who emigrated from this place, some six years since, where, by his indomitable perseverance, he built himself up a snug little home, which he now feels it his duty to abandon for a time, in answer to the call of his country. With plenty of such nerve and sinew to sustain its interests, the Union has little to fear. His vindictory, as a parting bequest to the public, which appeared in his paper, April 2d, we should have been pleased to have copied, if a press of other matter had not put it out of our power. We can assure his friends, however, that it glows with patriotism, and that every line has the true union ring.

**FRIEND GREEN:**—I wish to correct your correspondent "Union" in regard to my raising a flag at the corner of Copeland and Cross streets. It should have been the *citizen* of the West District.

Respectfully yours,  
LEON C. BAXTER.

### News from Fort Monroe.

**Fort Monroe, May 8, 1861.**

To ——: On Sunday morning the 5th inst., the steamer Cambridge arrived with our things; we had been expecting it some time. Every Company had a large box sent to them full of clothing, and a number of useful articles. It was a glorious day in Fort Monroe; more like the Fourth of July than the Sabbath. It was a day of general rejoicing in our stronghold at old Point Comfort. Each one received one pair of pumps, one pair of shoes, two or three pairs of pants, straw hats, fatigue caps, &c. The ladies could not have sent anything more adapted to our present circumstances than what they did. It shows their regard for us.

To our State and Town, we, (every one of us,) owe our heartfelt gratitude; and thanks poured from the lips of every soldier, to the good, noble and brave, sons and daughters of Massachusetts, who always show that they are thinking of us, wherever we may be, either in defense of our flag, or in foreign climes. To the old and young, male and female, we wish them happiness and prosperity. There is a noble task, and a noble reward." To the high-minded women of Massachusetts, we soldiers, owe our everlasting thanks and gratitude, and we will show them that we do respect them, by doing our duty.

I receive a great many letters from Massachusetts, and it would be impossible for me to answer them all, still I should like to hear from all who have the time and inclination to give me the news from the Old Bay State.

For the Patriot.

From Col. Packard.

**Headquarters, 4th Reg. M. V. M.**

**Fort Monroe, May 7, 1861.**

**FRIEND GREEN:**—The Fourth Regiment, Massachusetts Volunteer Militia, have comfortable quarters at this post, and are enjoying good health, but the men have good reason to complain of the condition of their clothing.

The Fourth Regiment, which was the first to arrive from either State, to the post designated for them, had but a few hours to settle their business, and make preparation to leave their families. Most of my command left their homes on the morning of April 16th, expecting to return again in the evening, thinking they would not be ordered off without having necessary time to prepare themselves for the duty to be performed, but when learned from Headquarters, on their arrival at Boston, that they must leave immediately, and were led to suppose that everything necessary would soon follow them, but we have been disappointed. Last Sunday we had an invoice of clothing which arrived by the steamer Cambridge, from Boston.

I receive a great many letters from Massachusetts, and it would be impossible for me to answer them all, still I should like to hear from all who have the time and inclination to give me the news from the Old Bay State.

ABNER B. PACKARD.

From Fort Monroe.

**MAY 9TH, 1861.**

**Mr. ETON:** We received your paper to day, and it was a very welcome sheet to the Quincy boys. We also received the necessary articles which the Town and the Ladies of Quincy send us. May the Star Spangled Banner wave over their Country and homes as long as an eagle soars or a worm creeps. We will stand by the flag as long as there is a shade of it left, and a breath in our bodies. This is what they are aiming for. This, and the vicinity, will, no doubt, be the seat of war, if there is any. But when they try to take this fort, they will find that the Black Republican garrison, (as they term us here,) can fight like h—l. But I may come, and let it come, every soldier is ready for a fight and will do his duty. I have had one fight myself since I have been here, take my turn, with the rest, standing guard. Monday night was stormy, the thunder rolled, and the lightning flashed; it was an awful night. I was on the picket guard. Sometimes we have to stand in very dismal places, but a soldier's life, is a soldier's life, indeed. I like it very well, but I should not like to stay here five years. I shall be at home the last of July, my time is out the sixteenth of July. I get \$11.00 per month, and we are allowed \$2.00 a month for clothing, and if we do not have to buy any we can get it. I shall save all that I can of it.

We are all in good health and spirits—ready for the Southern rebels at any moment, but the majority of the men here think that they will not trouble us, as we are well fortified. There is ammunition and provisions enough in the Fort at the present for any emergency that may come. We have fifteen hundred men, (as near as I can find out,) and every man, with the exception of the Band and Officers, has got a musket. I do not know how many large guns there are, because more or less are erected every day.

As near as I can find out, all the soldiers eat at home, and there are more well fed by the regulars—these are what we call the old hands, for they were here when we came. They are very manly, civil and accommodating to the volunteers.

On the 7th inst., there was a command given about half past eight o'clock in the evening to have our arms and equipments ready and ready in case an alarm was given during the night, and I noticed that a good many of our Company put theirs on, so to be prepared.

I'll tell you reader, that the Quincy boys will do their duty; and you may rely on it, to the stars and stripes, and their country, they will leave nothing undone; for they are the boys that willingly stepped up, and said they would go and fight for their rights and the union of their country. Remember we are all as one, and all alike brothers, and the rebel that will come, down he goes.

With powder and steel.  
We will make them squeal.

Yours, &c., JAMES J. DOWD.

### Western Correspondence.

**WINONA, MINNESOTA, MAY 6TH, 1861.**

**FRIEND GREEN:** The cry "to arms!" came to our little State of 175,000 inhabitants, and in ten days 2,000 men were ready; but there were arms only for one regiment.

The First Regiment are quartered at Fort Snelling, waiting orders. They are under the command of Col. W. A. Gorman, of Mexican war notoriety.

Winona furnished a company of eight men with uniforms complete, and also provided for such that left families. The ladies presented a stand of colors to the regiment. The war spirit is truly up, and our people are in earnest.

There was a great mistake made in calling on the agricultural States, unless their men were to be called into immediate service, and properly ammoniated. There might have been millions more acres under cultivation but for this untimely call, however the greatest activity presents itself among our farmers.

Mr. EDITOR: One farce in the opening remarks of the President of the Mass Meeting, held at the Town Hall, April 20th, I think was erroneously reported in your paper. Mr. Adams is there made to say: "It is a contest between Slave and Free Labor," which we have now got to meet. I took deep interest in the meeting—it's objects and all that transpired; and if any such sentiment was advanced, it escaped my notice. With many others, I responded to the call, for the sole purpose of contributing my means to sustain the President of the United States in his endeavors to maintain the Constitution and the Laws inviolate; but not one mill for a sectional war on the domestic institutions of neighboring States, as might be inferred by the above quotation. Will Mr. A., through your columns, set us right in this matter, and oblige

For the Patriot.

For the Patriot.

Hon. Benjamin F. Thomas.

The resignation of Mr. Adams, renders necessary an election of a member of Congress for the Third Congressional District.

The eleventh day of June has been fixed by the Governor for the election. It therefore becomes the duty of every man in the District toenthink himself of a candidate. Already the various little cliques have proclaimed their several preferences, and we doubt not that active measures are being taken to bring forward a half dozen or more. In times like the present, it is the duty of every man to forego party feelings and connections, and to unite upon a strong and energetic man. We are in a civil war, the end of which no man can foresee. The resources of both sections of the country will be tried to the utmost. All there is of executive talent, wealth, labor, science and power to endure, will be put to the test, and consequently it is our duty to select men of ability equal to the occasion. Least of all, do we require a partisan demagogue. We want a man of comprehensive views, of profound knowledge and acquaintance with the machinery of government, and capable of arduous labors and high resolves. It is no time for men-talkers. It is an era in the history of our country—more momentous for good or evil, than was the Revolution of '76. Then if these things be true, and surely none will deny them, let party lines be effaced—let us unite as patriots for the common good and the common safety. We want a man of inflexible devotion to the Union and of well settled convictions that the war is not to close until the rebels are put down and the sovereignty of the General Government is enforced and obeyed by every State from the Canadas to the Mexican line. There are two classes of men who would be peculiarly dangerous at this time in Congress; first, those who are or would be favorable to a peaceable dissolution of the Union; second, those who might on some adverse turn of the public fortunes be willing to compromise with the rebels. We want no such men in Congress. It is too late for compromise of any kind. And as for a peaceful secession, it is preposterous and absurd. There is no such thing except in the utter humiliation and debasement of the free men in the Northern States. No! this war must go on; the principles on which our Government was founded must be vindicated. It will go on, and what is especially demanded now, is, that it go on under the direction of the ablest men in the country.

Let us join with an unselfish resolution to select the best men for public places in these times of the public danger. There will be no Whigs, no Democrats, and no Republicans, if the traitors and rebels are not overpowered and destroyed. We shall all become vassals and subjects of military despotism. We have to fight for our existence and our liberty first of all, and when we shall have established them on a firm basis, we may think and talk about parties.

Will thinking men look at these things? The country is in danger, and all that is worth living for is at stake—and yet we have miserable partizan clamors for the nomination of this man, or that man and the other—not one of whom has any foundation for his pretensions, other than some accidental party connections during the last few years. The people must rise in insurrection against the demagogues, and select him whom their uniting instincts point out as the man for the emergency. Some of our public men have hardly been equal to the crisis, and have been forced by events to see and feel what others had foreseen and foretold of the desperate designs and purposes of Davis, Toombs & Company. The storm burst upon their heads when they were little prepared for it. Let us have a man in Congress of sagacity and capable of long sustained and systematic efforts in behalf of our noble cause, even against the most adverse fortune. For we may be assured, that the rebels will make efforts as desperate, as desperate men, a cause ever yet made. Now we submit, that of all men, Judge Thomas, is the man for the crisis. He is a true and loyal man, of great abilities, of remarkable powers of debate, and masculine eloquence, of comprehensive and far reaching views, of a strong and inflexible will; but more than all, he is profoundly convinced that it is the sacred duty of the General Government to crush out the rebellion of the secessionists, even to the last spark.

Let this name of God and humanity, let this question of slavery be settled by the bloody arbitrament of war to which the slaveholders have so audaciously and wickedly appealed. There never will be an enduring peace until it is conquered by the sword. Let us strengthen the arm of the General Government to wield the sword, by infusing energy into all its departments.

ALSO—Great Regenerator for the HUMAN HAIR,

I am now too well known to need any further recommendation from any source. Yet to satisfy the most credulous, I will publish the following testimony:

Harrison Sq., Dorchester, Mar. 30, 1859.

MR. PACKARD—Sir—I have given your Regenerator a fair trial and find it all I claim for it. My hair was very gray; it is now restored to perfect color. All the lumen is removed from the scalp. In short, I have now a perfect head of hair. I am willing to let anyone before the Pease and make oath to the above, if he will do it.

## Poetry.

For the Patriot.  
The Sons of Freedom will not Bend.  
F. M. ADLINGTON—Weymouth.

When steep'd in crimes a people dare,  
The truth of God and man defy,  
And lay their wondrous weapons bare,  
And lift their traitor flag on high.

Then let the patriot clarion ring  
Beneath the banner of the free;  
Our sons shall to the combat spring  
And win the wreath of victory.

Shall despise knaves defay our power,  
And all our fathers' aims defeat;  
The freeman's flag insulting lower,  
And trample underneath their feet.

Shall Slavery flaunt her bloody flag  
Over lands our fathers died to free;  
And shall we fear the Southern's brag;  
To Southern deepest bow the knee.

No, by the memory of the dead,  
Who led in Freedom's cause the van—  
By all the blood our fathers shed,  
Contending for the rights of man.

By ev'ry glorious battle field,  
Where Freedom consecrates the sod,  
By our brave fathers' trusted shield,  
Reliance on a righteous God.

The sons of Freedom will not bend,  
Nor yield their honors to the foe;  
But bravely all their rights defend,  
And lay the insulting traitors low.

## The Gathering.

Forward! onward! far and forth!  
An earthquake shuns awakes the North—  
Forward!

Massachusetts hears that cry—  
Hears and gives the swift reply,  
Forward!

Pennsylvania draws her sword,  
Echoes from her hills the word,  
Forward!

Brave New York is up and ready—  
With her thirty thousand steady,—  
Forward!

Small Rhode Island flies to arms,  
Shouting at the first alarm,  
Forward!

Illinois and Indiana  
Shriek, as they unroll our banner,  
Forward!

Not behind the rest in zeal,  
Hear Ohio's thunder-peal,  
Forward!

From Vermont, New Hampshire, Maine,  
Come the same awakening strain,  
Forward!

Old Connecticut is here,  
Ready to give back the cheer,  
Forward!

Minnesota, though remote,  
Sweeps the free inspiring note,  
Forward!

Iowa and Michigan,  
Both are ready to a man.  
Forward!

Not the last in honor's race,  
See Wisconsin come apace.  
Forward!

Delaware, New Jersey rise,  
And put on their martial guse.  
Forward!

Onward! On! a common cause  
Is yours—your liberties and laws.  
Forward!

Forward in your strength and pride!  
God himself is on your side.  
Forward!

## Dinner.

We may live without poetry, music, and art;  
We may live without conscience and live without heart;

We may live without friends; we may live without books;

But civilized man cannot live without cooks.

He may live without books—What is knowledge but grieving?

He may live without hope—What is hope but deceiving?

He may live without love—What is passion but pining?

But where is the man that can live without dining?

## Liberty.

The mountains—they proclaim  
The everlasting creed of liberty!  
That creed is written on the untramped snow,  
Thundered by torments which no power can hold,

Sure that of God when He sends forth His cold,  
And breath'd by winds that through the free  
heaven blow.

## Anecdotes.

A green one, who had crossed the Atlantic, told a story of a storm, when the rain poured down in such torrents, that the ocean rose six inches.

There's no mistake, said he, because the captain kept a mark on the side of the vessel.

Father, said a roguish boy, I hope you won't buy any more gunpowder tea for mother.

Why not?

Because everytime she drinks it she blows up!

Go to bed, sir, immediately!

Times are hard, wife, and I find it difficult to keep my nose above water.

You could easily keep your nose above water, husband, if you didn't keep it so often above brandy.

I have a fresh cold, said a gentleman. Why do you have a fresh one? said a wag. Why don't you have it cured?

**Cephalic Pills CURE Sick Headache CURE Nervous Headache CURE All kinds of Headache**

By the use of these Pills the periodic fits of Nervous or Sick Headache may be prevented; and taken at the commencement of an attack, immediate relief from pain and sickness will be obtained.

They seldom fail in removing the Nausea and Headache to which females are so subject.

They act gently upon the bowels, removing constiveness.

For Literary Men, Students, Delicate Females and all persons of sedentary habits, they are valuable as a Luxative, immediately improving the appetite, giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the nervous system or from a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children.

**Beware of Counterfeits.**

**AYER'S  
CATHARTIC  
PILLS.**

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your health uncomfortable? These symptoms are often the prelude to serious illness. Some of them are temporary, and should be averted by a timely use of the right remedy. They will cleanse out the disordered humors—purify the blood, and restore the body once more to health again. They stimulate the functions of the body, and help to remove the obstructions from the channels which make the disease. A cold settles somewhere in the body, and obstructs the functions. Then it is not removed, and the surrounding organs, producing general aggravation, suffering, and disease. While in this state, the body is torpid, and the pills, as we see how directly they restore the natural action of the system, and with it the invigorating feeling of health again. This is the reason why the complaint is also true in many of the deep-seated and dangerous disorders. The same purgative effect expels them. Careful similarity of function of the body, they are rapidly, and many of them surely, cured by the same means. None know the virtues of these pills, with equal interest, when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known persons.

From a *Prominent Merchant of St. Louis*, Feb. 4, 1856.

Dear Dr. Ayer: Your pills are the paragon of all that is good in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had defied the skill of your city's best physicians. They have been of incalculable benefit to me, and I have long given preference to them with blisters and pimples on her skin and in her hair. After our child was cured, she also tried your pills, and they have cured her.

ASA MORGRIDGE.

**A Family Physician.**

From Dr. E. W. Carterwright, New Orleans.

Your pills are the paragon of all that is good in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had defied the skill of your city's best physicians. They have been of incalculable benefit to me, and I have long given preference to them with blisters and pimples on her skin and in her hair. After our child was cured, she also tried your pills, and they have cured her.

St. L. C. AYER: I cannot answer you what complaints I have cured with your pills better than to say all that I can. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

**Headache, Sick-headache, Foul Stomach.**

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaints I have cured with your pills better than to say all that I can. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Yours with great respect,

ED. W. PRETTLER,  
*Clerk of Steamer Clark*.

**Bilious Disorders, Liver Complaints.**

From Dr. Theodore Parker, Boston.

Not only are your pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual than any other aperient or tonic I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, }  
W. H. Seward, Secy. }  
March 1, 1856.

Sir: I have been repeatedly cured of the worst **headache** any body can have by a dose or two of your pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect,

## Poetry.

For the Patriot.  
"I am the way, and the Truth, and the Light."

Father, is this the way? it looks so dark, I fear to cross the dreary wild alone; the shadows lie so thick around, the sky is overcast, and the wind bowls mournfully; the stars, that erst so brightly shone, have one by one, gone out; not one faint glimmering to cheer the dim beyond— The landmarks all have been removed; the props on which I leaned have all been striken From beneath me; and my guide, whose patient love, and watchful care removed the thorns from out my path, has passed on before me. Oh! it looks so dark, and I am grown so weak, and fearful with despair; my Father! must I go—alone?

Child, look up! My love has marked thy way. There, place thy hand in Mine, And lean on Me, and will lead thee through. Canst thou not trust the promise, made to such as thou: "A Father to the fatherless, and Judge of the widow is God in His Holy habitation;" "I will never leave thee nor forsake thee," e'en though the way seems clouded O'er, and rocks and pitfalls meet at every step; My grace shall be sufficient for thee, in the darkest hour; only lean on Me with firm, unwavering faith, and patiently await the dawning of that day, whose sun shall rise for thee beyond the swelling Jordan. Thy mission here accomplished, and thy work all done Commissioned Angels shall convey thy earth-worn spirit to the realms of light—the City Beautiful— Whose portals gently thy guide hath left ajar."

C. J. McC.

Quincy, May 21, 1861.

For the Patriot.

The Flag of Our Fathers.

F. M. ADLINGTON—Weymouth.

Up! up with our banner, and on the strife— Our eagle is pluming his wing, For father and mother, for sweetheart and wife, For country and honor; war! war to the knife; Huzza! let our battle cry ring.

The whelps of the South are let loose in a pack, The traitors and dupes are combined; But woe to each whiskey-lord, ignorant Jack— The phalanx of freedom is close on their track, To scatter their host to the wind.

The spirit of Washington frowns from the skies, Indignant on America's band; The blood of our martyrs for liberty cries: On, on to the battle, to vengeance arise And wipe out the curse from our land.

Then on with our banner—the flag of the free, A blessing will ever attend; The flag of our fathers forever shall be The signal of victory—by land and by sea, That flag we will die to defend.

The Light of the Hearth.

She comes with fairy footsteps; Softly their echoes fall; And her shadow plays like a summer shade Across the garden wall. The golden light is dancing bright, 'Midst the maze of her hair, And her fair young locks are waving free To the wooing of the air.

Like a sportful fawn she bounded So gracefully along, As the wild young bird she caroleth The burden of her song.

The summer flowers are clustering thick Around her dancing feet, And on her cheek the summer breeze Is breathing soft and sweet.

The very sunbeams seem to linger, Above her holy head, And the wild flowers at her coming Their richest fragrance shed.

And oh how lovely light and fragrance mingle in the light within!

Oh how fondly do they nestled Round the soul that knows no sin!

She comes, the spirit of our childhood— A thing or two, still a breath of Heaven,

Yet breathing still a breath of Heaven, She redeems her from the earth.

She comes in bright-robed innocence, Unsolved by blot or blight,

And passes by our pathway path, A gleam of angel light.

Oh blessed things are children! The gift of heavenly love.

They stand with our worldy hearts And better things above.

They link us with the spirit world.

By purity and truth,

And keep our hearts still fresh and young,

With the presence of their youth.

Auritates.

A red-nosed gentleman asked a wit whether he believed in spirits.

Ay, sir, replied he, looking him full in the face, I see too much evidence before me to doubt that.

Ah, Mr. Simpkins, we have not chairs enough for our company, said a gay wife to her frugal husband.

Plenty of chairs, Mrs. Simpkins, but too much company, he replied.

NUMBER XXII.

**AYER'S  
CATHARTIC  
PILLS.**

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings unquieted? These preparations are often the prelude to serious illness. Some fit of sickness, however, may arise, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and let the fluids move on abundantly, and the body will be relieved. They stimulate the functions of the body into vigorous action, and remove all obstructions from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions, creating pain, fever, and the surrounding organs, producing general affection, suffering, and disease. While in this condition, opposite to health, take Ayer's Pills, and let the fluids move on abundantly, and the body will be relieved. They stimulate the functions of the body into vigorous action, and remove all obstructions from the obstructions which make disease.

Two DOLLARS per annum in advance, and if delayed until the end of the year, then THREE DOLLARS will be required.

No subscription nor advertisement will be discontinued previous to the payment of all arreages, unless at the option of the publisher.

Advertisements correctly and conspicuously inserted at the customary prices, and will be charged until ordered out.

The privilege of annual advertisers is limited to their own immediate business.

**CIRCUMSTANTIAL EVIDENCE.**

Many of our readers will doubtless remember the mysterious murder committed in Grand street, Williamsburg, in the year 1836. The facts are simply thus:

Mrs. Weldon, an old inhabitant of Williamsburg, lived in a small frame house at the farther end of Grand street, at that time very sparsely built up. A niece and servant girl were the only persons residing with her. The former appeared to be very much attached to her aunt, and attended to her wants with filial assiduity. The domestic had lived with Mrs. Weldon for five years, and was considered a good servant.

Mrs. Weldon was a widow lady of simple means in the shape of annuity, which was to cease at her death. She was rather miserly in her disposition, and accustomed to hoard money. Her husband at one time lost a considerable amount by the breaking of a bank, and since then no one could persuade her to have anything to do with a bank. It was supposed that this hoarding propensity was known only to the niece, Miss Milwood, and the servant girl, Hannah.

One morning in September, 1836, the inhabitants of Grand street were electrified by the report that Mrs. Weldon had been found dead in her bed; and that strong proof of guilt existed against her niece.

I read the account in the newspapers, and supposed it was one of those plain cases which admit of no doubt. The matter having occurred in Williamsburg, it was out of my beat, and I thought no more about it.

The following morning, while at breakfast, my servant girl informed me that a gentleman wished to see me. I told the girl to show him up, as my time was precious, and I would converse with him while at breakfast.

Almost immediately afterwards a young man of very respectable appearance entered the room. I motioned him to a seat.

Mr. Johnson, he said, I have come on very painful business, I want your assistance. He hesitated to proceed.

What can I do for you, my dear sir? I replied.

You may command me.

You have doubtless read about the murder in Williamsburg, the day before yesterday.

A young lady, Miss Emily Milwood, has been arrested on suspicion. Now I know she is innocent, and I want your assistance to prove it.

I have read the particulars in the newspapers, and I must confess the evidence appeared to me to be overwhelming.

I know the evidence is strong against her, he replied; but if you knew Emily as well as I do, sir, you would be morally certain that she is incapable of the deed.

The young man spoke with such warmth that I looked at him somewhat curiously.

Are you related to Miss Milwood? I asked.

Mr. Johnson, I will tell you all; the truth is, we are engaged to be married. I have known her from a child. Her heart is pure and noble; she would not injure a worm, much less her aunt and benefactor.

I began to feel interested in the case; and told him I would proceed at once to Williamsburg and investigate the matter. He thanked me and bade me good morning, and promised to call the following day to learn the result of my inquiries.

I hurried through my breakfast, and proceeded at once to the scene of the tragedy. I found the room exactly in the same condition as it was when the murder was discovered.

It was in the front room in the second story. Mrs. Weldon must have been asleep when the deed was done. She was found hanging half out of bed, with her throat cut in a frightful manner. The bed and carpet were stained with blood. And strange to say, the blood could be traced to the door of Miss Milwood's room, but no farther.

It appeared that some persons in the street were alarmed early in the morning by the servant girl looking out of her mistress' chamber window, and calling — Murder! They immediately went to the front door, and found it fastened securely. The back doors and windows were also found fastened.

Some watchmen were procured and an examination was made of the premises. The strongest proofs were discovered that Miss Milwood was the perpetrator of the deed. The blood, as I have before said, was traced to her door. A considerable sum of money was found in her trunk, together with some old fashioned jewelry which was known to have belonged to the deceased. But if that was not enough to convict her, there was still more damning evidence. Her bedroom window was found open, some drops of blood upon the sill; and underneath, in the long grass, was found the knife with which the crime had been committed. It was surmised that she had committed the deed, and

after taking possession of the hoarded money and jewels, had gone to her own room and thrown the knife out of the window. She had then retired to bed, where she was found in the morning fast asleep.

When I heard all this I was far from being satisfied. It seemed to me if she had any intelligence at all, she would have taken more pains to conceal her guilt, and I made up my mind that if she were guilty she must be one of those stupid, clumsy people we sometimes meet in the world.

I next proceeded to examine very minutely the chamber where the deed had been committed. I had not been five minutes in the apartment before I was satisfied that Miss Milwood was innocent.

My reasons for this conclusion were these: the wound inflicted on the deceased was too deep and extensive to have been made by a woman's hand; and the murderer, wherever he was, was left-handed. While searching the room I found on the floor a vest button; it was rather peculiar, being made of blue porcelain. I put it in my pocket.

My next proceeding was to visit the young lady in custody. My profession procured me an order instantly, and I was shown into her presence. I explained my business to her, and stated who engaged me. When I mentioned her lover's name tears filled her eyes. She was a very pretty girl; the epitome of female modesty and delicacy.

Dear Henry! she exclaimed, how noble he is! Thank God, he at least does not think me guilty!

She could restrain herself no longer, but wept bitterly.

I have been in prison two days, she continued after a pause, and yet I cannot realize the fact. It appears like a hideous dream to me. I repeat to myself the question: Can it be possible I am arrested for the murder of my aunt — my benefactress? No, no, it cannot be!

The following morning, while at breakfast, my servant girl informed me that a gentleman wished to see me. I told the girl to show him up, as my time was precious, and I would converse with him while at breakfast.

Almost immediately afterwards a young man of very respectable appearance entered the room. I motioned him to a seat.

SATURDAY, JUNE 1.

the Powder Magazine; when these are completed, we think, we can hold it against any foe that Jeff. Davis or any other rebel can bring. Likewise, a regiment from Vermont, who are building us another bakehouse, so that in a few days we shall have an abundance of the stuff of life.

The town of Quincy has done a liberal and noble act toward her soldiers; and well she may, for the soldiers of Quincy will nobly and faithfully do their duty; and will show the rebels, that the old Bay State has got some of the Lexington and Bunker Hill spirit still left. The Fort is now one of the most excited garrisons there is in the Union; and it is one of the pleasantest. The apple, date, fig, pear, peach, and other kinds of fruit are growing within the Fort; the fruit on the apple trees are as large as a walnut, and the figs have arrived at its full growth. The gardens of the officers look like a fairy scene, decked with the most luxurious flowers. There are flowers, however, we trust will never fade—but endure to the end of time—the Red, White and Blue—reflected from our National emblem; they are the flowers of the country, and woe betide the man that would efface them. I find that my sheet is full, I must therefore bid you a hasty adieu.

Yours truly, J. J. DOWD.

BORN TO NO MASTERS, OF NO SCAFFOLD,

**READY! READY!!**

We wish our kind patrons would try to be more prompt in bringing in their articles. Advertisements, special notices, etc., should be handed in before 10 o'clock Friday forenoon, and long communications as soon as Monday if they wish them to be inserted in the next paper.

**Good News.** On Sunday morning last, our townsmen, Dr. H. M. Saville, Surgeon at the present time at Fortress Monroe, (Va.) arrived in this place, direct from the Fort, bringing dispatches from Gen. B. F. Butler, and cheering news from the soldiers. He visited our school on Wednesday and gave us a very encouraging account of the Quincy Boys. He says the most of them have grown heavier and stronger, and have improved in every respect since their departure. They are quite anxious for a fight, having got tired of such monotonous life, and he thought they would have their wish in a few days.

**ENGLAND AND THE UNITED STATES.—** The British government has issued a proclamation declaring its intention to maintain the strict neutrality between the government of the United States and certain States styling themselves the Confederate States of America.

**No Nomination.** The Republican Third District Congressional Convention met at Dedham, on Tuesday last, with reference to the vacancy occasioned by the resignation of Hon. C. P. Adams. Twenty nine towns, all except two in the District, were represented by the required number of delegates. Hon. M. M. Fisher, of Medway, presided, with several Vice Presidents, (W. Gardner, Prescott, of this town,) and Secretaries. After much debate, an informal ballot was ordered but before the result was declared, the Convention adjourned without making a nomination. The vote is supposed to have stood:

For Hon. B. F. Thomas, W. Roxbury, 68  
For Hon. William Gladin, of Newton, 54.

**Military.** One of the finest corps that has left Boston is the Fourth Battalion of Rifles, Major Leonard, which are now stationed at Fort Independence.

Its members are mostly young men from nineteen to twenty-five, hardy and fine looking, and have been subjected to a thorough surgical examination. Numbered among its ranks are several Quincy boys, viz:—

Loring Bigelow, Henry A. Holden, Edward Russell, Wm. Rideout, Wm. Robinson.

**Soldiers from Quincy—Attention!**

The Committee chosen by the Town of Quincy, May 10th, 1861, to carry into effect the vote of the Town, for the relief of those persons or their families in this town, who are now serving in the army, have organized by choosing John Glover, Chairman, and William Abercrombie, Secretary, and have adopted the following rules:

1st. That any inhabitant of this town who has enlisted in any Company, except Company H, of Quincy, must furnish the Committee with a certificate from their commanding officer stating to what Company and Regiment they belong, in what town they enlisted, and the date of their enlistment.

2d. That all single men who wish their friends to receive all or any part of what they will be entitled to, must in all cases send an order on the Committee for the same, with the certificate.

The Committee will meet at Mechanics' Hall, Washington street, every Monday evening, at 8 o'clock.

Per order,  
JOHN GLOVER, Chairman.

**Fasting and Prayer.** President Davis of the Confederate States has issued a Proclamation appointing Thursday, the 14th day of June, to be a day of fasting and prayer.

**An Improvement.** The Old Colony and Fall River Company have commenced their new route through South Boston, cutting off buildings and laying rails.

### For the Patriot. Interesting Ceremonies.

Quincy is certainly in the van for patriotic demonstrations of her loyal citizens in these trying times of Southern rebellion. At the first *faisan* of war, a quota of her gallant young men reported to the scene of hostilities as volunteers in the cause of freedom. Private contributions of a generous and noble character have been made here; and the town at a recent meeting convened for that purpose, has taken action in behalf of the volunteer soldiers, highly creditable to the generosity of its inhabitants. In every part of Quincy the star-spangled banner waves majestically to the breeze.

We have already spoken of the pleasant gatherings at the West and Centre Districts, on the occasion of flag raising. We now record the doings of another equally enthusiastic assemblage. On Friday afternoon, May 24, the American Legion, as a symbol of unity, peace and liberty, was raised on the Coddington School House, under auspicious circumstances. The day was pleasant, and the people of all ages gathered by a brief notice to witness the solemn consecration of the National Flag to unionism, now and forever. The banner was obtained solely by the spontaneous contribution of the popular and worthy teacher, and the other departments of the School under his charge as Principal. The ceremonies were admirably conducted by Mr. Purush. Appropriate devotional exercises were performed at the opening, by the Rev. Mr. Heath. After which the presentation of the Flag was made in a neat, judicious and impressive speech by Mr. Purush to Dr. Win. B. Duggan, as Supervisory Committee of the School, who responded in behalf of the District as the banner gracefully ascended to its destination at the summit of the flag staff. There may it flutter to the breeze, till rebellion and treason are forever crushed out of our glorious Confederacy. Mr. Purush in his happiest manner, several called out Rev. Mr. Wells, G. B. Putnam and James E. Turrell, Esqrs., who took the stand and eloquently addressed the meeting.

### For the Patriot. From Fort Monroe.

*Fort Monroe, May 28, 1861.*

Mr. Editor—I thought it would be interesting to you and to the friends of our Company to know where we are stationed. On Saturday, the 24th inst., at 10 o'clock, A.M. our Company's turn was to go on guard duty.

We were up all night, but after twenty-four hours, as usual our Company was relieved of duty. We were some fatigued, for the day was very warm, and after we returned to our quarters with our overcoats, &c., Captain Curtis marched us to the beach where some of the boys enjoyed themselves with swimming, while others cleaned their guns, &c. When we returned, the garrison was all in confusion and excitement. The Fourth Regiment was ordered to pack their things and get ready to march, but where to, nobody knew; although all were anxious to find out. Our steward, Henry G. Wildman, was ordered to get three days rations ready, and some of the boys stood up all night cooking meat, &c., for the Company to take with them. At 2 o'clock, P. M., Captain Curtis ordered out the Company in a hasty manner, and the first to be arrested in progress on Saturday morning last. He would remember with gratitude the other Engine Companies who came at the first alarm so readily to the aid of the fire. By the great exertions and activity of the Fire Department of Quincy, this property, and a partial loss, was saved from total destruction.

The value of our Engine Companies, cannot be too highly appreciated in preserving and rescuing the property of our citizens from the appalling calamity of fire. WM. B. DUGGAN.

**HANCOCK HOUSE.** The card of "mine host" of the Hotel in this place, the management of which he has lately taken, may be found in our advertising columns. With experience and an earnest wish to serve patrons, there is no reason why Mr. M. should not be liberally encouraged. His efforts in this town, we trust, will sustain him in the deservedly high repute which he acquired elsewhere.

**QUICK SALES.** A new lot of Morella Cloth has just been received by Caleb Packard, which he is selling at the very low price of 6 1/2 cents per yard. Those in want should call soon, or it will be all gone, for over sixty yards were sold yesterday, within half an hour.

## NOTICE.

BY THE COUNTY COMMISSIONERS,

MAY 1st, 1861.

IN the various Roads Cases now pending, in which action is or may be deferred, the Commissioners suggest to the parties that they deem it inexpedient to file their Cases before the time of trial, to call upon the public Treasury, to defray the reasonable expenses upon the Towns for the construction or improvement of highways, under their order, unless in cases of paramount necessity, or where public detriment may be occasioned by postponement.

This, however, will not retard the usual proceedings, in cases attended with slight expense, or those where the towns may, by decisive vote, indicate that such proceedings should be at once had.

## Poetry.

For the Patriot.  
Not for the Dead.

BY LINDA LINCOLN.

Not for the quiet dead,  
Whose hands are folded o'er the peaceful breast,  
Whose hearts will no more throb with wild unrest,  
Let bitter tears be shed.  
Not for the happy dead,  
Whose ransomed souls have reached the courts above,  
To bask forever in the light of Love,  
Let sorrowing tears be shed.  
Not for the blessed dead,  
For they have sought and found the penitent gates,  
And entered in where Christ our Savior waits  
To crown the lowly head.

No; we may not sigh  
For those who've passed the river deep and cold,  
And stand with waving palms and harps of gold,  
To welcome us on high.

But for ourselves we weep,  
When we must walk where late the loved ones stood,  
Alone, with sad and weary hearts, and would,  
Aye, would, but cannot sleep.

We sorrow for ourselves,  
Who tread life's thorny path, and oft must lie  
In deepest shadows 'neath the changing sky,  
Where man in darkness dwells.

And yet, all, all, is well;  
Our heavenly Father in His own good time,  
Will call us home to that celestial clime  
Where our beloved ones dwell.

Thanks, Father, loving-kind,  
For the best promise that to us is given,  
That all our sweetest, loftiest hopes of heaven,  
Will full fruition find.

Quincy, Ill., May, 1861.

## Remonstrance against Cruelty.

Why should man's high, aspiring mind,  
Burn in him with so proud a breath,  
When all his haughty views can yield  
In this world, yields to death?  
The fair, the brave, the vain, the wise,  
The rich, the poor, and great and small,  
Are each but worms' anatomies,  
To strew his quiet hall.

Power may make many earthly gods,  
Where gold and bribery's guilt prevails,  
But man's uncomely honest odds  
Kicks out the mortal scales.  
The flatter'd great may, in mirth raise  
Of power and their own weakness hide,  
But death shall find unlocked for way's  
To end the force of pride.

An arrow hurl'd o'er high  
From e'en a giant's snowy strength,  
In time's untraced eternity,  
Goes but a pugnacious length.  
Nay, whirling from the tortured string,  
With all its pung of hurried flight,  
'Tis by the skyward's little wing,  
Outmeasured in its height.

Just so man's boasted strength and power,  
Shall fade before death's lightest touch;  
Laid lower than the meanest flower  
Whose pride o'erturns the oak.  
And he who like a lightning blast,  
Despoiled worlds with war's alarms,  
Shall be himself destroyed at last  
By poor despoiled worms.

Tyrants in vain their powers accrue,  
And awe slaves' murmers with a frown;  
But unawed death at last is sure  
To snap the Babylon down.  
A stone thrown upward to the sky  
Will quickly meet the ground again;  
So men-gods of earth's vanity  
Shall drop at last to men.

And power and pomp their all resign,  
Blood-purchas'd thrones and banquet halls;  
Fair to seek ambition's throne  
As here to spring walls.  
Where the poor suffering wretch bows down  
To laws a lawless power hath past;  
And pride, and power, and king and clown,  
Shall be death's slaves at last.

Time, the prime minister of death,  
There's nought can bribe his will;  
He stops the richest tyrant's breath,  
And lays his mischief still.  
Each wicked scheme for power all stops,  
With grandeur false and mock display,  
As eve's shades from high mountain tops,  
Fade with the rest away.

Death levels all things in his march,  
Nought can resist his mighty strength;  
The palace proud, triumphal arch,  
Shall melt like shadows' length;  
The rich, the poor, one common bed  
Shall find in the unkind' grave,  
Where weeds shall crown alike the head  
Of tyrant and of slave.

## Auriculars.

The wife of a well-known literary gentleman, while reading one of his articles for the press, corrected it as she went along, and the errors were somewhat numerous.

Why, husband, she exclaimed, you don't know the first rules of grammar or else you are very negligent.

Well, well, my love, he exclaimed: What is the matter now?

Why, in three cases you speak of our sex in the plural, and write it in the singular number.

I can't help it, was the retort; woman is a singular being.

Emma Jones had made herself a Union rosette, and pinned it on the right of her dress. Why do you wear it in that way? asked her friend, Charlie.

Because, said she, I want to show people that my heart is on the right side.

A man being commiserated with on account of his wife's running away, said, don't pity me till she comes back again.

## Ayer's Sarsaparilla.

FOR PURIFYING THE BLOOD.  
AND FOR THE SPEEDY CURE OF THE SUBJOINED VARIETIES OF DISEASE:

**Seroful and Serofulous Affections, such as Tumors, Ulcers, sores, Eruptions, Pimples, Pustules, Boils, Blains, and all Skin Diseases.**

J. C. Ayer & Co. Geists. I feel it duty to advise you that your Sarsaparilla has done for me many a valuable service, and I have derived benefit from it in various ways for years. Sometimes it burns out in Ulcers on my hands and arms; sometimes it turns into a tumor on my leg; sometimes it breaks out in sores and ulcers which will not heal, and only go away after a long time. I have used it in many cases, but without much relief from my tedium. In fact, the disorder grew worse. At length I was reduced to the use of Opium, and I knew from your reputation that anything you made must be good. I sent to you for your Sarsaparilla, and I took it. It took, at first, but did not do me any good. I then took a dose of Malignant Ergotism by large doses of the same; says he cures the common Ergotism by cutting off the root. I then took a dose of your Sarsaparilla, and I feel that the disease has gone from my system. You will well believe that I feel what I am saying when I tell you, that I hold you by one of your nostrils.

ALFRED R. TALLEY.

St. Anthony's Pill, Rose or Ergotism, Liver and Salt Fever, Rheumatism, Sore Eyes, Dropsey.

Dr. Robert M. Probie writes from Salem, N. Y., Oct. 12, 1859, that he has cured an inveterate case of Dropsey, which threatened to terminate fatally, by the use of your Sarsaparilla, which he prescribed in most cases of Malignant Ergotism by large doses of the same; says he cures the common Ergotism by cutting off the root.

**Brachiocele, Goitre or Swelled Neck.**

Zebulon Sison of Pleasant, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a swelling of the neck, which I had suffered from over two years."

**Lericorosis or Whitemeas, Ovarian Turner, Uterine Ulceration, Female Diseases.**

Dr. J. B. Shanning, of New York City, writes: "I most cheerfully comply with the request of your agent in giving you a few words in regard to your Sarsaparilla. I have used it in every case of female disease, as an alternative to the numerous constituents for which we employ such a remedy, but especially in Female Diseases of the womb, ovaries, uterus, &c. I have also used it in cases of Leucorrhœa up to its end, where the complaint itself was most severe. Nothing within my knowledge has ever been equal to it."

Edward S. Andrew, of Newbury, Mass., writes: "A dangerous ovarian tumor on one of the females in my family, which had been growing rapidly, was removed by your Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the use of your Sarsaparilla, which he called a cure-all. It proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Spasmodic and Mercurial Disease.

Dr. J. C. Ayer, Feb. 20, 1859, writes: "Sir, I enclose with the request of your agent, and resort to you again of the effects of my treatment with your Sarsaparilla.

I have had the pleasure to inform you that most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Neuralgic and Migraine, and for many maladies and Systolic obstructions in the throat, which were removed by your Sarsaparilla, and kept him in fine health. Another was attacked by a severe attack of Neuralgia, which was relieved by your Sarsaparilla, and he is now perfectly well.

**Hancock House, Quincy.**

**H**ANCOCK House, (Mass.) has assumed the management of this Hotel, which is in good repair, and well furnished. Its locality, about eight miles from Boston, and within ten rods of the Railroad Depot, where trains pass ten times per day, each way, with its beautiful view of the sea and land, render it one of the most desirable summer resorts in a vicinity of the City. The drives in the neighborhood are unsurpassed for their variety of rural scenery. Ocean bathing can be enjoyed as the beach is within fifteen minutes ride.

A good Liver Stable is attached to the premises.

Private families can be accommodated with first class board by making early application.

## Poetry.

For the Patriot  
A Prayer.  
By LINDA LINDAN.

Father, to Thee our wayward hearts incline,  
And fill our longing souls with Love divine;  
I inspire us with a pure and holy faith,  
To cheer our troubled souls through life and death.  
Hedged of all thy choicest gifts to man,  
How oft we sadly murmur and complain.  
Our thankless hearts receive our all from Thee,  
Parental care—rich mercies large and free.  
Each heavenly blessing which we here possess,  
Cometh from Thee, the fount of every bles.  
Hear us, oh Father! and to each import  
A cheerful spirit and a contrite heart.  
Relying on Thy goodness, may we strive  
In peace and love with all mankind to live;  
Then calmly when Thy mandate shall be given,  
Yield our last breath, and sweetly rest in heaven.  
Loamii, Ill. May, 1861.

For the Patriot

## Song—The Land that We Love.

Respectfully dedicated to the gallant Irish, who have volunteered to defend the flag of our Union.

TUNE:

Oh, the land of sweet Erin's the land of delight.

For the land that we love, for the land of our choice,

For the home of our children we have but one voice;

Where the guardians of freedom advance in their pride,

The brave sons of Old Erin will march by their side.

Then aloft with our banner, the stripes and the stars,

'Tis the signal of victory in liberty's wars;

For that banner to traitors a terror is found,

And wherever it waves it makes holy the ground.

Then huzz for the flag, where in triumph it waves,

Let the Slaveocrat look to his cotton and slaves,

For when tried in the scales with the rights of mankind

Which will have the most weight may be seen by the blind.

We may fight not alone for the glory or self,

For our wives or our children, or even for dear self;

But we fight for the homes of the free and the brave,

Who endure not a tyrant and breed not a slave.

While the Slaveocrats gloat on their whips and their chains,

While the blood of brave Emmett is coursing our veins,

By the Shamrock of Erin we swear to be true,

And to give ev'ry traitor with interest his due.

Then march on, brothers, on the battle, press on,

To the land that we love let each prove a true son,

And proclaim by his deeds in defence of the right,

That we Irishmen always for freedom will fight.

F. M. ADLINGTON—Weymouth.

## Popping the Question.

Fair Sally and her lover Mat,  
Close by the fire in silence sat;  
A dish of apples, rosy faced,  
Was 'tween them on a table placed.  
In vain poor Mat essayed to speak,  
While blushing mantled Sally's cheek—  
For she well knew what Mat would say,  
He could only find the way,  
To find the truth an ugly task,  
She passed half to the silent swain.  
Mat looked confused, then brightened up,  
And said, as he the apple took:  
Now, Sally, dearest, unto me  
As kind as to this pipkin be—  
You've halved the apple—pray here me!

## The Laugh of a Child.

I love it—I love it—the laugh of a child,  
Now rippling and gentle, now merrily and wild—  
Ring out on the air with its innocent gush,  
Like the trill of a lark at the twilight's soft bush;  
Floating off on the breeze like the tones of a bell,  
Or the music that dwells in the heart of a shell;  
Oh, the laugh of a child, so wild and so free,  
Is the merriest sound in the world for me.

## Quoted.

My dear Amelia, said Mr. Perkins to the young lady whose smiles he was seeking, I have long wished for this sweet opportunity, but I hardly dare trust myself now to speak the deep emotions of my palpitating heart; but I declare to you my dear Amelia, that I love you most tenderly; your smiles would shed—shed—

Never mind the wood-shed, said Amelia, go on with that pretty talk.

Not long since some ladies walking in the garden of an eminent divine, who had been classed among the transcendentalists saw his little boy scraping up the gravel path with an old table spoon.

What are you doing my little boy? inquired one of the ladies.

O, said the young off-shoot of transcendentalism, I'm digging after the infinite.

A somewhat juvenile dandy said to a fair partner at a ball: Miss, don't you think my mustaches are becoming?

To which the Miss replied: Well, sir! they may be coming, but they haven't yet arrived.

JUST PUBLISHED,

In a Seal Envelope:

ON THE NATURE, TREATMENT, and RADICAL CURE OF SPERMATORRHEA, or Seminal Weakness, Sexual Delirium, nervousness and involuntary emissions, inducing impotency, and Mental and Physical Incapacity.

By ROBERT J. CULVERWELL, M. D., Author of the "Green Book," &c.

One of the world-renowned authors in this administrative Lecture, clearly proves from his own experience that the awful consequences of Self-same may be effectually removed without medicine and without dangerous surgical operations, bougies, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself, cheaply, privately and radically. This lecture will prove a boon to thousands and thousands.

Sent under seal, in a plain envelope, to any address, post paid, on the receipt of two postage stamps, by addressing:

**PURE LIQUORS AND FOR PRIVATE WINES USE AND MEDICAL PURPOSES.**

We offer to the country trade and consumers a complete assortment of every variety of LIQUORS, WINES, &c., and would say that our experience of more than FORTY years as Importers is not only a sufficient guarantee for the PURITY of our Goods, but that it enables us to offer advantages to buyers that can not be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strict, pure and reliable article of Liquors and Wines for medicinal and other purposes, we have for many years given particular attention to filling orders for PRIVATE USE, and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require Pure Liquors or Wines, in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention with full and complete catalogues of goods, prices, &c.

Nervous Headache  
CURE  
All kinds of  
Headache.

By the use of these Pills the periodic attacks of Nervous or Sick Headache may be prevented; and taken at the commencement of an attack, immediate relief from pain and sickness will be obtained.

They seldom fail in removing the Nausea and Headache to which females are so subject.

They act gently upon the bowels,—removing constipation.

For Literary Men, Students, Delicate Females and all persons of sedentary habits, they are valuable as a Luxative, immediately improving the appetite, giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been used in many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache whether originating in the nervous system or from a damaged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times, with perfect safety without making any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children.

LEAVES BOSTON AT 2 O'CLOCK.

When I count the number of dots in a pack of cards, there are three hundred and sixty-five—so many days are there in a year. The cards in a pack are fifty-two—so many weeks are there in a year. When I reckon how many tricks there are in a pack, I find there twelve—so many months in a year.—So that a pack of cards is both Bible, and almanac, and prayer book to me.

The Mayor called his servants, ordered them to entertain the soldier well, gave him a piece of money, and said he was the cleverest fellow he ever heard in all his life.

**DEATH OF FRANCIS L. SOUTHER.** The telegraph dispatches from the seat of war, on Tuesday last, brought the melancholy intelligence of the fall of this young man, at the attack at Great Bethel, Virginia, by the Federal troops, on the 11th inst. The struggle was a sanguinary one, and Mr. Souther, early in the engagement fell mortally wounded—having an arm shot off, and was also shot through the lungs. He was the son of John L. Souther, of this town, and at the time of his decease, was about twenty-five years of age.

Mr. S. was one of our most promising young men—a ship carpenter by trade, and leaves a wife and two children, to mourn the loss of an affectionate husband and parent—a father, of a dutiful son, and a large circle of acquaintances of a devoted friend. At the first sign of hostilities, he rushed to the conflict, and freely staked his life in defence of his country. Peace to his ashes.

The following we copy from the Boston Daily Atlas and Bee:

"Mr. Souther was a member of the Hancock Light Guard. A brother of his was in the same engagement in which he laid down his life. He went forth at the call of his country cheerfully, prepared to discharge to the uttermost every claim which the country had upon his services, even to the giving up of life itself. His last words to his aged grandfather, before his departure from the city, were: 'I calculate to do my duty, and hope, should I live or die, living or dying, to be a faithful soldier to my country.' His last care in his grandfather's presence, was to see that a bible was safely bestowed in his knapsack. Such was the character of our soldier who has fallen thus early in the conflict. He bereaved widow and children, gave the warm sympathies and condolence of every Massachusetts heart.

Appropriate services to the memory of the deceased, will be held at the Stone Temple to-morrow afternoon, at three o'clock.

TOWN MEETING. At the election in this town, on Tuesday last, of Member of Congress in the Third District, the vote was as follows:—

Benj. F. Thomas of W. Roxbury, 198  
Ezra Beal of Randolph, 15  
Norton Q. Pope, 1

CONGRESSIONAL ELECTION. The returns from all but six towns in the Third District of this State, foot up as follows:—Thomas, 228; Beal 250; scattering 14. The official vote will be announced next week. It will be perceived that the "People's candidate," Judge B. F. Thomas, is elected to fill the vacancy caused by the resignation of Hon. C. F. Adams.

APPOINTMENT. The Governor of this State, with the advice of the Council, has appointed Edward Everett of Boston, to be the Trustee and Agent of the Commonwealth, in the construction of a monument, to commemorate the Declaration of American Independence, in the city of Philadelphia.

HATIAN INDEPENDENCE. Hon. B.C. Clark, Consul of Hayti for Boston, and James Redpath, General Agent of Emigration, and Consul of Hayti for Philadelphia, have been appointed Commissioners Plenipotentiary to the government of the United States for the purpose of procuring the recognition of the independence of Hayti by the United States.

CHURCH SERVICES. Those who attend or attempt to attend church service in the afternoon, and particularly strangers, get not a little confused. The hours at different churches is variously at 2 1/2, 3, and 4 o'clock. Those at the intermediate hour are disturbed and confused by the bell-ring and carriage-driving of the last. Taken altogether, it is anything but a good arrangement. Would it not be better to have a uniform hour for all the churches? At Christ Church, the hour for the warm months is four o'clock, which has been tried with much acceptance. This gives both the clergy and people resting and thinking time between services. Let us have a change.

For the Patriot.  
And Still they Come.

Another Union Banner was raised with interesting ceremonies on the school house of the North District, in this patriotic town, on Friday, p. m., 7th instant. The whole affair was admirably conducted under the direction of Mr. Sandford, the efficient and well beloved Principal, assisted by Edmund Pope Esq., Supervisory Committee; whose fidelity and labors in advancing the prosperity of the school are well known and appreciated—

This makes the fifth public flag raising in Quincy since May 1st, and is equal to any of them in success and gratification. Notwithstanding the weather was chilly and uncomfortable, there was a large gathering of the citizens from various places; affording a higher interest by their presence on the occasion. Devotional exercises were impressively performed at the opening, by Rev. Mr. Angier, of Neponset. The beautiful flag, a gift from the teacher himself, was presented to Mr. Pope, who received the same in behalf of the District, by immediately assigning it to its place at the tip top end of the flag staff; where, may it be seen by the traveling public through Quincy to Boston, until General Scott stops up every rat hole of the Southern rebels' army, so that the traitors to their country's government shall perish or submit to allegiance.

The presentation address by Mr. Sandford to Mr. Pope, as Committee of the school, was eloquently delivered, and secures to him at once, the reputation of a good speaker. Remarks were also made by Dr. W. D. Duggan, L. P. Forbush, Esq., of the Coddington school; Mr. Merritt, Principal of the Washington school, Neponset village, and by Mr. Angier. The speakers met with a cordial greeting and were frequently applauded in the course of their addresses. The pupils were all present, and under the guidance of Miss Ella Pope, the Assistant Teacher, interspersed the occasion with excellent singing. Declinations were also held in turn by four interesting misses, pupils of Mr. Sandford's school, prominent for the beauty of delivery and diction of the selections.

The Quincy Brass Band volunteered their services and were present—the "observed of all observers." They freely discharged sweet music to the assembly, who listened with the highest pleasure to their various performances. All honor to this excellent musical corps.

By the kindness and generosity of many citizens of this District, a banquet was prepared after the ceremonies had ended, in which an abundance of good things were found to refresh the inner man. The Band and invited guests were recipients of the festivities, held at the late residence of Mrs. Thomas Adams. The whole arrangement was happily managed.

For the Patriot.  
From Fort Monroe.

June, 8th, 1861.

Mr. EDWARD:—The majority of Company H. are sorry that their Captain is accused of more than he is really guilty. Seven eighths of our Company are satisfied that he has done as well as other officers of his rank in the Regiment, and we hope that those that wrote home such ungentlemanly things about him, will step up and prove it. We cannot say anything at present, because we do not know what was sent us. Everybody knows that where there are so many, there will be a few to find fault; but I can safely say that the majority of the Company would rather lose all, than accuse their Captain of what they think he is not guilty.

There is great anxiety here in the camp for a fight, and we expect to have it soon. On the 6th inst., at Newport News, an alarm was given, caused by three rebels firing at a man belonging to the Fourth Regiment, who was getting logs to build the batteries. He was not injured but the male he drove was killed, and at the alarm there was one soldier accidentally killed. Four regiments have come to Newport News within three days. There is nothing new or exciting at present. We are all well and in good spirits, ready to meet Jeff Davis and his starved out slaves and soldiers.

TEACH THE YOUNG IDEA HOW TO SHOOT. Quite a martial spirit has entered into the feelings of the younger portions of our community of late. Squads of young urchins, of the A B C class of life, are practising evolution, a la Scott, for future contingencies. Go ahead, boys; if we are to have a three years war, your services may yet come into requisition.

ANOTHER COMPETITOR FOR YOUR FAVORS. Mr. Prescott's new team appeared in our streets, yesterday. He brings ice from the famed Monatiquot lake, Braintree. With two such auxiliaries in their service—Mr. Prescott and Eaton—we should think our citizens might keep cool and comfortable through the hot weather.

STRAWBERRIES. We were permitted to feast our eyes on some of this ripe fruit, a day or two since, from the garden of George W. Prescott, of this town. They promise to be very plenty this year; there was a very full blossom—and the vines are already crimson with the blushing fruit.

For the Patriot.  
Francis Lincoln Souther.

The papers of this week have brought us intelligence of the death of our townsmen, Francis Lincoln Souther, who was killed in an engagement with the rebel troops at Great Bethel, (Va.) He was aged twenty-five years, and leaves a wife and two children in this town. Such is the brief announcement; which, among those who have known him from boyhood, will excite mingled feelings of joy and sadness. Of sadness, that one so young should be snatched away by the ever watching tyrant death. Of joy, that at the call of country he buckled on his armor and leaving all, died with his harness on. His memory will be dear to all, and to those who were nearest him we would say in their affliction, that sometimes God giveth a crown of thorns and sometimes of flowers—but both are his crowns, and in the hereafter shall be treasured by him. Let us then think more of the cause for which he gave his life and swear by his nobility, heroism, and sacrifice, that the country shall be vindicated and rebels punished.

It is reported that he was killed while engaged in the humane act of carrying his wounded companions from the field of action. If this be Southern nobility we might learn something of humanity from a slave.

Kissing, it is said, was an ancient expedient among kinsmen to discover who of the fair circle had been drinking, as it was considered a profanation of beautiful lips to bathe them in wine.

Gen. James Watson Webb, of New York city, editor of the Courier and Enquirer, has been appointed Envoy Extraordinary and Minister Plenipotentiary to Brazil.

The fate which awaits the Southern traitors will differ from that of Judas Iscariot in only one particular. Judas went out and hung himself, while they will put somebody to the trouble of hanging them.

The New York Journal of Commerce has the names of thirty newspapers which have suspended publication since the commencement of the war.

It will be remembered that President Lincoln's proclamation ordering the rebels to disperse, and calling out 75,000 men, was received by the Montgomery gentry, while playing Congress, with "bursts of laughter." Those same gentlemen have united in requesting Jefferson Davis to appoint a "day of fasting and prayer." This verifies the old proverb: "He laughs best who laughs last."

Nearly \$4,000,000 annually will be saved to the United States, by cutting off the mail to the Seceded States; when the rebellion is suppressed this expense will be resumed, possibly.

The artificial propagation of fish has proved a complete success in Europe; the breeding boxes established in 1857, turn out 500,000 salmon every year.

Jeff. Davis, the leader of the rebels, has been afflicted with hypertrophy of the heart for several years, and his sudden death at any time would not surprise his family or friends.

The White House and department buildings at Washington City, are ordered to be draped in mourning for thirty days, in memory of the late Senator Douglas.

William Tufts, for forty years chief clerk in the office of the Secretary of the Commonwealth, died at Salem, lately, in the seventy-fifth year of his age.

James Redpath, of Boston, the Haytien Agent of Emigration, offers to take charge of the Boston Post and Journal, united.—The stripes (three) were a dingy red—the color of brickdust—and looked as if they had been drawn by an unsteady hand—with a blue ground on which were seven stars. After what has been done here, by the pulpit, press, and our amiable correspondent, "Union," we did not think we had so great a sinner amongst us—who could so far forget his manhood, as to be guilty of such a deed. It may be his first offence—we hope it will be his last; that he will set the error of his way, and promise to sin no more. The poisonous thing remains in our possession, which the owner is requested to call and take away.

A GREEN OLD AGE. We were reminded of this, a few mornings since, in one of our rambles, at the south part of the town, by the appearance of Mr. F.—a pale old gentleman, of eighty summers, with scythe on his back, who took his place beside his workmen in the field, and with well directed sweeps, brought down the tall grass, to the music of the mowers, with the same apparent ease, as his younger and more athletic companions. May many seasons yet be spared him, to take part with us, in this healthy and ennobling exercise.

THE PORTRAITS OF JEFF. DAVIS AND JOHN B. FLOYD HAVE BEEN PLACED IN THE "ROGUES' GALLERY" IN NEW YORK CITY. The former is known as the traitor, and the latter, the robber.

WITHIN SIX WEEKS, IN CANDIA, (N.H.) THERE HAVE BEEN BURNED AN ENTIRE FAMILY—SEVEN CHILDREN AND ONE GRANDCHILD, ALL VICTIMS OF DIPHTHERIA. The eldest was but seventeen years old, and the youngest an infant.

THE RECEIPTS OF SPECIE AT NEW YORK CITY, DURING THE LAST TWENTY-FOUR HOURS ENDING ON THURSDAY NOON OF LAST WEEK, EXCEEDED TWO AND A QUARTER MILLIONS OF DOLLARS.

ACCORDING TO AN ARTICLE IN THE NATIONAL INTELLIGENCER, THE TOTAL NUMBER OF OFFICERS IN THE NAVAL AND MARINE SERVICE OF THE UNITED STATES IS 1,563. OF THE SOUTHERNERS 321 HAVE RESIGNED AND 340 REMAIN.

FIFTY THOUSAND DOLLARS OF THE BONDS OF THE SOUTHERN CONFEDERACY, BELONGING TO NEW ORLEANS WHO WERE FORCED TO SELL THEM, WERE DISPOSED OF A FORTNIGHT AGO, AT THE RATE OF TEN CENTS ON A DOLLAR.

## Summer Friends.

When spring the fields in daisies dressed,  
And flushed the woods with maple buds,  
I spied a little blue-bird's nest  
Within a cedar's branching boughs.

Its old gray grass, inland with hair,  
The summer's sun had withered up,  
And autumn's scars still were there,  
Though snow had brimmed its tiny cope.

What then? I heard a pilgrim bourn;  
And half forgot the long neglect,  
When perched upon the threshold rim  
A little feathered architect.

And straw by straw the walls he wrought,  
And hair by hair the floor he spread;  
And when his blue-bird wife he brought,  
They slept within the nuptial bed.

Oh! how I loved my prairie guest;  
For him I loved his helpmate to;  
With jealous care I fenced their nest,  
And watched them as they sang or flew.

So April passed; and gentle May  
Went murmuring by with leaves and bees;  
And two small blue-winged chicks had they;  
When summer broadened on the trees.

My very solitude had made  
The tiny household seem more sweet;  
And often to the bank I strayed  
To watch the nestlings chirp and eat.

But when the palest autumn came,  
And shook the boughs and bared the wood,  
I saw the feathered brood could blane,  
Though void their puny wigwam stood;

For summer friends had come like these,  
Like these the summer friends had flown;  
When stormy winter strip the trees,  
They left the cold and me alone.

## Song of the Volunteers

From the mountain, from the river,  
From the valley, from the plain,  
We are sweeping to the rescue  
Like the billows of the main!

For the traitor's hand is lifted,  
And our fathers' sacred trust,  
Our country's starry banner,  
Is trailing in the dust!

By the fires the Pilgrims lighted  
On the old New England shore!  
By the ashes of the stateaten  
Who "still liveth" evermore!

By our noble Constitution  
Which hath lighted us on high!  
In thy strength, Oh God of battles!  
We conquer or we die!

Shall the alders of our heroes?  
Shall the grave of Washington?  
Shall the holy soil of freedom  
Ever dash meet the sun?

Shall we prove to waiting readers  
That the mightiest of all God  
Is a watchful for the coward  
In the traitor's armor shod?

So we're gathered to the rescue  
With our "millions for defence,"  
And we pause not in the struggle  
Till each foe is driven home!

For the traitor's hand is lifted,  
And our fathers' sacred trust,  
Our country's starry banner,  
Is trailing in the dust!

## Let Me Go.

Let me go—the stars are paling,  
One by one, in light away;  
And the misty clouds are smiling,  
Tell the breaking of the day.

Upward, see, the mists are wreathing,  
Over the hill tops white as snow;

Ripping winds are softly breathing;  
Day advances—let me go.

And the spirits of the morning  
Streak with gray the eastern sky;  
Hold! for I would see the dawning  
Fair and cloudless, ere I die.

It is fading—whiter—whiter,  
Pearly as an infant's breast;

Kindest spirits voice call me—  
See! they fade in light away;

Earth no longer may enthrall me,  
Earth no longer may enthrall me.

Earth now the morn advanced;  
Brighter grows the glorious dawn;

Lovely and joy my soul entranceth,  
Glorious morning, hasten on.

On the Hill of God there standeth,  
A temple formed of living light;

Pure and bright its light expandeth,

Scattering for the gloom of night.

Earth-born scenes at most are fleeting,

Vanishing like tropic snow.

Rapturous joys are now returning,

Day advanced—let me go.

## Auriculars.

Mary, my love, do you remember the text  
this morning?

No papa I never can remember the text,  
I've such a bad memory.

Mary, said her mother, did you notice Su-

san Brown?

O yes, What a fright! She had on her  
last year's bonnet done up, a pea-green silk,

a black lace mantilla, brown garters, an im-

itation Honiton collar, a lava bracelet, her

old red drops, and such a fan!

In a country town there is a school-house,

on the window sill of which is painted—it

having been a grocer's store—powder and

shot.

What has powder and shot to do with edu-

cation? asked a passer-by.

A great deal, replied a wag; it is not the

schoolmaster's calling to teach the young

idea how to shoot?

You lost two legs in the army, you say;

what did you gain by it? asked a gentleman of

a pensioner.

Simplicissimus, sir, he replied, for after

that, no woman would marry me.

An old rough clergyman once took for his

text that passage of the Psalms—"I said in

my haste all men are liars." Looking up, he

said: You said in your haste, David, did you?

Well if you had been here, you might have

said it after mature reflection?

# Cephalic Pills CURE Sick Headache CURE Nervous Headache CURE All kinds of Headache.

By the use of three Pills the periodic attacks of Nervous or Sick Headache may be prevented; and if taken at the commencement of an attack, immediate relief from pain and sickness will be obtained.

They seldom fail in removing the Nausea and Headache to which females are so subject.

They act gently upon the bowels,—removing constipation.

For Literary Men, Students, Delicate Females and all persons of sedentary habits, they are valuable as a Laxative. Immediately improving the appetite, giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the nervous system, or from a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children.

BEWARE OF COUNTERFEITS.

The genuine have five signatures of Henry C. Spalding on each Box.

THE FOLLOWING ENDORSEMENTS

SPALDING'S CEPHALIC PILLS will convince all who suffer from HEADACHE, THAT A SPEEDY AND SURE CURE IS WITHIN THEIR REACH.

As these Testimonials were unsolicited by Mr. Spalding, they afford unquestionable proof of the efficacy of this truly scientific discovery.

BY ROBT. J. CULVERWELL, M. D., Author of the "Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-harm may be effectively removed without medicine and without dangerous surgical operations, bungles, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically. This lecture will prove a bonanza to thousands and thousands.

VERMIFUGE.

## SYMPTOMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with hammering or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a knawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times constipated; stools slimy; not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist,

DR. M'LANE'S VERMIFUGE

Will certainly effect a cure.

The universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public, that

## Miscellaneous.

## The Poverty Cure.

Mrs. Durand was an invalid. For many years she had been a victim to a complicated and baffling disease, which, for want of a better name was christened by her physicians and friends, "nervous debility." The slightest excitement or exertion left her utterly prostrated and weary, and every nerve and muscle in her system kept her painfully conscious of their existence. The luxuries that surrounded her were only to her talus. True, she had an elegant carriage, fine horses, and many servants, but the fatigue of riding was far greater than the pleasure of a ride, and she rarely attempted it. She had a fine library, but books she had not cared much for; and if she had loved reading, her eyes were so weak as to put that amusement out of the question. An extensive and choice conservatory was a part of Mr. Durand's establishment, but the odors of the flowers made his invalid wife faint and sick. She had no taste for fancy work—that busy idleness which saves so many hours from ennui; embroidery, crocheting, knitting, and netting; she had tried in turn and each tired her and made her head ache. Her three children generally made her a visit once a day; but it would be difficult to decide which enjoyed it least, or was more pleased to have it over—the boys or their mother. The children were glad to escape from the hushed, gloomy chamber, where every thing that they did seemed to be out of place and wrong, so constantly were they checked for being boisterous or troublesome; and Mrs. Durand experienced a sensation of relief when she had kissed them all, and seen them safely marshaled out of the room by their nurse—for she had a comfortable consciousness that she had done her duty, and that she had seen the last of them for one day at least. After this morning visit, she had nothing to do but to lean her aching head weakly back on the pillow'd easy-chair until her physician's coming aroused her from listlessness for a few moments—This call, and a still briber one from her husband, just before dinner, were all that varied the monotony of her life.

Mrs. Durand was a kind man, and reasonably fond of his wife: he had spared no pains or expense to restore her to health; he had made no objection to her trial of the pathes—allophty, homoeopathy, hydrotherapy—and had only shrugged his shoulders when, as a last resort, healing mediums were called to the rescue. He had gratified her every whim; had taken her to every variety of climate; without a word of remonstrance had visited all the Springs far and near, in search of that health which was no where to be found, until, at last, after going around the whole circle of remedies in vain, it had been Mrs. Durand's own proposal to remain at home under the care of her own family physician.

## THE QUINCY PATRIOT.

Saturday, June 22, 1861.

BORN TO NO MASTERS, OF NO SECT ARE WE."

**THE STORM** on Sunday last, was violent in the extreme. It was a summer visitor, after the Southern fashion. The morning was clear with a burning sun—but about mid day, a dark cloud arose in the West, preceded by a heavy wind, and when it burst, discharged torrents of rain and hail; some of the hail stones which fell were of the size of walnuts. As they rattled against our windows, it sounded like a shower of small change; and we jumped at the thought, that the gods had at last smitten us. In Milton and Dorchester, the damage done to glass was considerable—many houses were completely riddled. The storm, however, with us, was more merciful; we heard of no injury done, except the prostration of a beautiful flag staff. But true patriots, heavenward, with the stars and stripes proudly flying from the top.

Since writing the above, we have been put in possession of further particulars of its violence. A gentleman who was passing through Dorchester at the time, says, that in all his experience, (and it has not been small) he never witnessed so fearful a war of the elements; the ground was literally covered with hail—many the size of bullet's eggs, and others which looked like fragments thrown off from a crushed iceberg. The thoughtful gathered up some of the choices to cool their punch on the Fourth. In Plymouth, we hear that the gardens there and in the neighborhood, received much injury. In some localities, the tender and half formed vegetables, were struck to the earth, by the fury of the blast. The philosophy of all this is, that here, on terra firma, while we may be suffering the excruciating effects of a vertical sun, there may be, at the same time, a strata of cold air, not far above our heads, below even the freezing point.

**BUCKEYE MOWING MACHINE.** Mr. Seth Spear, of this town, has one of these machines on his farm. We were present at a most successful trial of its novel qualities on Wednesday last. About a quarter of an acre of grass was laid low in a very few minutes. A swath, three and a half feet deep was cut as fast as the horse could walk over the ground. It has the reputation of being able to accomplish an acre an hour, with ease. The machine is compact—built strong, and looks as if it might do good service. A horse is harnessed into thills, the conductor takes a seat behind, a row of glistening knives, (seven in number,) so formed and arranged that not a single spear can escape their sharp edge, is let down on one side, when the word forward is given, and the tall grass is pared close to its roots, as clean, as a barber will remove your beard.

For the gratification of the public, Mr. Spear will hold a mowing fest, in front of Mr. Lemuel Brackett's house, on Monday next.

**THE FOURTH** What is to be done? Because some of the States with which we have been in fellowship, have seen fit to leave the Union, cannot we keep it, as in other times, among ourselves. We had rather—that is too tame a word—there is no sacrifice too great, that we should not be willing to make, if the return of the day, should find us as happy and united a people as we were a twelve month since. But there is no use in mourning over what has been done, and cannot be helped. Bring out the big gun, then let the merry peal of bells usher in its dawn; and a military demonstration be made, and every arrangement taken, that we may suitably commemorate the occasion, and tender a welcome reception to our brave volunteers—as they are expected to be with us by that time—who so gallantly left home, kindred and friends, in defense of their country's flag, on the tented field.

**THAT FLAG.** We have been waiting patiently for the owner to come forward—but he has not made his appearance yet. The man who left it with us, also evinces some impatience; he thinks he has been unfairly dealt with; it is no easy affair, for a heavy man, to raise himself on a smooth pole, a distance of thirty feet, but it is an act worthy of record, and should not be passed over in silence. If something is not done soon, we shall file in a bill of exceptions whenever the offender is brought to justice.

**CAPTAIN!** A large number of your fellow citizens are interested to know whether your famous mowing match will come off on the Fourth as usual. They care but little for modern improvements; they like the old way—that is your way—of doing these things the best. Speak to them, if you can, a word of comfort; they thirst for an answer.

**GREEN PEAS.** Specimens, full grown, which were gathered from the garden of a friend, is a promise, that this early product of our gardens will soon be plenty with us. With these and the ever welcome strawberry, we shall begin to live.

## A Voice from San Francisco.

The accompanying letter and list of names was received yesterday morning from San Francisco. With it came a draft for two hundred and five dollars. The money was acceptable, but the fact that our gallant boys were remembered by their far off friends, brought a thrill of joy to all our hearts, far greater than even the thoughtful and generous contribution. Such evidence of the good will and sympathy from that distant portion of our Republic will excite in us all renewed exertion in the cause of right, freedom the Constitution and the Laws.

San Francisco, June 5th, 1861.

Mrs. WM. S. MORTON,  
Chairman of the Ladies' Relief Society,  
Quincy, Mass.

Dear Madam:—Highly appreciating the efforts of the ladies of Quincy in the noble cause in which they are engaged, and desiring to contribute our mite toward rendering

few of the former residents of your town sojourning here, in testimony of the great interest taken by them in the welfare of the patriots from our former home now engaged in the sacred duty of defending the Flag of our common country, from the lawless hands of its enemies, and guarding inviolate the glorious edifice of Liberty and Freedom, bequeathed to us by our ancestors, and consecrated by their blood, that future generations may enjoy its blessings. Wo to us, if through our negligence or heedlessness, tyranny and oppression rule triumphant through the land. Although dwelling on these far off shores, we nevertheless feel a deep concern for the success of their exertions, and as our personal services in all probability will not be required, we feel ourselves peculiarly happy in being enabled in some manner to express our views, and extend a little substantial aid to our brave townsmen, who have risked their lives in the cause of their country.

All honor to our brothers, brave; The worthy sons of worthy sires— Our sacred altar strike to save, From rebel bands and traitors fires. We remain in behalf of the donors, Very respectfully,

Your Obit. Servt,  
JOSHUA TORREY,  
JABEZ BIGELOW,

The following is an extract from a letter written by a soldier of Company H., Fourth Regiment, at Fortress Monroe, to a friend in this town:—

Capt. Curtis is as good an officer as the Fourth Regiment can boast of, and every story about his selling paper, so far as I can learn, is false. He gives us all we want of everything which he has, and willingly too, and for my part, I think he does all he can for us."

## News from the Army.

[The following is a portion of a private letter, which has been handed us for publication. It was written directly after the engagement at Great Bethel, (Va.) to a friend in this town.]

NEWPORT NEWS, JUNE 11, 1861.

Thank God I am alive to write you again. I have escaped unharmed through one battle. I cannot if I would, tell you what I endured and went through yesterday. Suffice it to say, I suffered much. But what is all that, as long as my life is spared me. I feel almost too tired to write, and it is very hot, but I cannot refrain.

I will try and tell you the particulars of the engagement as far as it lies in my power.

Sunday night we received orders to be in

readiness to start at 12 o'clock; so we all turned in early to get what little sleep we could. But about 10 o'clock we were all aroused by the report of guns. We all sprang to our arms, and in a few moments

were so thirsty. We had nothing to eat all day but a few crackers, until we got within a few miles from the camp, where we were halted, there was some large trees full of ripe mulberries. We ate of them. They brought from the camp some ham and herring, and some whiskey to revive us; a very little for each. We arrived home about six o'clock this morning. Most all of our feet were sore. Quite a number of our Company did not go. Some were sick, and some were on guard.

Although we did not come off victorious,

we have the satisfaction that we all fought well under the circumstances. When they go again, they will go with better preparations.

We are all very sad that we have lost one

of our Company. We are just beginning to

see what a soldier's life is; we all suffered much yesterday.

S. A. NIGHTINGALE.

CAPTURE OF A PRIVATEER. The schooner Savannah, a Jeff. Davis privateer, arrived at New York City, on the 15th inst. She was captured by the U. S. brig Perry, sixty miles from Charleston, (S.C.) The crew, thirty in number, were placed in irons. Great surprise was expressed by many that they were hung without delay. Her papers were marked No. 1, being the first issued by the rebel chief.

Before we had reached the place where the firing was, it had ceased. The troops having

found out their mistake. Just as we had reached

the field, a cannon ball as was supposed,

came towards us, and just before it reached us,

it plowed into the ground; we found it to be a shell, but it had not exploded. Thus in that

regiment, eleven were wounded, seven of

them we think mortally.

We all had a countersign, thus if we

separated, we would give it, and we

should know who were our enemies and who

our friends. But those companies that met

did not even give the countersign but opened

fire at once. It was too bad. Ill luck

had commenced with us in the outset; that

put us back considerably. We had then

about four miles more to go to reach our

destination. I did not know but what we should

turn back then, and I think it would have

been as well if we had; but our Commander

ordered us on. We had then walked about

twelve miles. While we were in a line at a

place, where we had halted, two rebels fired

at us from a house. The Zouaves went in,

took them as prisoners, and in a few minutes

the house was all in a blaze. It was a large

house, belonging to a planter. We continued

our march, and halted at our destination,

about 10 o'clock; thus we had been

marching from one until ten o'clock, a dis-

tance of about sixteen or seventeen miles, as

near as we could judge. We had not been

there long before the field piece, that we car-

ried with us opened upon the battery.

The Zouaves took the lead, and as soon as

they could find the rebel battery, they com-

menced firing with their muskets. It was

hard to find and get at the battery to attack

it. Our Regiment was in the rear, and be-

fore we rushed on to the attack, we saw the

Zouaves bringing back their dead and wound-

ed; a great many of them were killed by

shells. We tramped through woods and

ditches, until we came in sight of the men

who had preceded us and the battery; then

we rushed on to the scene of action; and Oh,

Heavens! how can I describe the scene.

There were shells flying and bursting in all

directions; and balls whizzing by and over,

and cutting and scathing the limbs and bark

off the trees. But above all the roar of the

cannon and musketry, we could hear the loud

command of officers to rally. They could

see the wounded and dead fall. It was a hot

contest for about two hours and a half; and

finding it was all in vain to make an impres-

sion on the battery, the head Commander

gave the order to cease fire, and retreat.

It was a foolish attack. Even the head and

leading commanders did not know what they

were going to attack, or they never would

have attempted it. As near as we could

judge there were at least two thousand men

in the fort. We had men enough. It can

never be taken by muskets. If we could

only have made a breach in the walls, we

could have routed them. We have not heard

as yet the truth of the affair; but as near as

we can find out, there are fifty dead, wound-

ed and missing on our side. I am sorry to

write that one of our Company fell—Francis

For the Patriot.

## On the death of Francis L. Souther.

His country calls; he hastens to obey—  
Girds on his armor, marches on his way;  
Quits home and friends his duty to perform,  
Leaves cooling showers to face the leaden storm;  
"My country and my freedom" is his cry;  
"For them I'll fight and for them will I die."  
He goes to battle in his nation's cause,  
To re-establish violated laws—  
Meets the foe, the guns are made to bear,  
And leaden hail comes whizzing through the air,  
But still undaunted foremost to the ranks,  
He presses on and gains the rebels' banks—  
Mounts up the parapet one among the first,  
And fronts the battle when it rages worst.  
On see him rush, resolved the foe to take,  
Though blundering chieftains make a sad mistake;  
Twice spears his steel, twice flies the ball of death;  
Two nations must have ceased to draw their breath.

He turns again his rifle to prepare,  
But lo! the shot is struck, and death is there;  
"Sink, sink, he falls!" his comrads lend their aid—  
Hear what he says: "I die where I am laid;  
Let my duty, be faithful to your trust;  
Let me lie here to slumber with the dust."  
Thus fought, thus died he—older to the last.  
His deeds are done and numbered with the past.  
Hark! springs a whisper from that spot of earth  
With his blood—hear as it gushes forth;  
What word is that? Lo! what that solemn sound:  
"Go do your duty," rising from the ground.  
Long speak that voice and reach the soldier's ear,  
And give them courage manlyed with fear.  
Sleep, noble Souther! for thy name shall live,  
And to the nation fresher vigor give—  
Emboldened among the bravest of our time,  
That record page shall with sweet lustre shine,  
And teach the leader by that blazing leaf,  
That oft a soldier's braver than the chief.  
What though a little time before us all—  
Was God's will and thine own lot to fall;  
We soon shall follow, 'tis Nature's general law;  
Flesh is but dust, and life is but a straw;  
We breathe a Rule longer to adore,  
And praise thy deeds, then fall to rise no more.

Yes, Souther, sleep thy spirit shall arise  
From this thy clay to decorate the skies;  
They laurels won, thy struggles all are over—  
Go to thy God—your country claims no more.

## Poetry.

For the Patriot.  
To Lena in Heaven  
BY ANNIE PEARL.

Tis the hour where gentle memory loves to linger o'er the silent past; O'er the bright hopes so fondly cherished in life's sweet early morn, When all was fair and bright—before its sky was overcast with clouds So dark and lowering, that through their shadowy mist no "silver lining" shone, Nor golden stars e'er pierced the gloom. Lena! my wandering thoughts have strayed to thee to-night, And in thy heavenly home I know that thou art watching o'er my path; And in the solemn stillness of the night, As o'er my brow the sportive zephyrs play, I feel thy spirit.

And a still small voice is sounding in my ear in tones once loved and dear: "Strive to be ever good and we shall meet again in Heaven!" Darling! why didst thou leave me? Oh my poor saddened heart Isudder still to-night, in its hushed stillness, dreaming of the past; When we were happy as the long bright summer days, Nor dreamed that change could come to break A bond so sacred! But death cannot be stayed! and so its cruel hand Was laid on thee, and I was left to battle life's tempestuous gales. Alone. No man thy gentle smile and tender words of kindness, Cheer my sad heart as I tread life's lonely pathway now. But, in my dreams, I sometimes see a spirit form, and as I gaze,

Far, far away, a white hand beckons unto me. And a sweet whisper like an angel's voice calls in my ear: Come darling, come, stay not away, for here is thy home. And as I strive to free myself and soar to thee and heaven, The vision fades, and naught is left but darkness and the past.

The past! how mournful is the sound, the knell Of those who sweetly sleep beneath the cold, cold sod.

I am so lonely Lena! and yet I know That thou art ever watching o'er me, and I feel thy presence nigh— And another, too thy gentle spirit guards, as his yearning eyes look on. Where is my own my promised bride, the darling of my life? And the duteous echoes answer from the spirit land: "Not lost but gone before!" Unto that bright and heavenly land where all is peace and rest;

Where fallen ones will meet no more to part,

And life's dark sorrows all will be forgot.

Scituate Neck.

Give me the People.

Some love the glow of outward show, Some more wealth, and try to win it; The house to me may lowly be, If but like the people in it. What's all the gold that glitters cold, Whate'er we're told, the noble gold Is truth of heart and manly daring! Then let them seek, whose minds are weak, More fashion's smile, and try to win it; The house to me may lowly be, If but like the people in it!

A lowly roof may give us proof;

That lowly flowers are often fairest; And trees, whose bark is hard and dark, May yield no fruit and bloom the rarest! There's worth as sure 'neath garments poor As e'er adorned a lofier station;

And minds as just as those, we trust; Whose claim is but of wealth's creation!

Then let them seek, whose minds are weak,

More fashion's smile, and try to win it;

The house to me may lowly be,

If but like the people in it!

Our Flag

Flag of the free heart's hope and home! By angel hands to Valor given— Thy Stars have lit the welkin dome, And all thy hues were born in heaven! Forever float that standard sheet— Where breathes the foe, but falls before us, With Freedom's soil beneath our feet, And Freedom's banner streaming o'er us!

## Anecdotes.

Gentlemen of the jury, said a Western lawyer, I don't mean to insinuate that this man is a covetous person, but I will tell you to one, that if you should bait a steel trap with a new three cent piece, and place it within three inches of his mouth, you would catch his soul.

Pop, observed a youth of tender years to his fond parent, does the Lord know everything?

Yes my son, replied the interested sire— But why do you ask such a question?

Because our preacher, when he prays, is so long telling him everything, I thought he wasn't posted.

Sir, your account has stood for two years, and I must have settled immediately.

Sir, replied the customer, things usually do settle by standing; I regret that my account is an exception. If it has been stand-

ing too long, suppose you let it run awhile.

DR. M'LANE'S  
CELEBRATED  
LIVER PILLS,  
FOR THE CURE OF

Hepatitis or Liver Complaint,  
INDIRECT AND DIRECT HEADACHE

## Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increase on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness, the bowels in general are constipated, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. M'LANE'S LIVER PILLS, in CASES OF

AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to take them FAIR TRIAL.

DR. M'LANE'S  
CELEBRATED  
LIVER PILLS,  
FOR THE CURE OF

Hepatitis or Liver Complaint,

INDIRECT AND DIRECT HEADACHE

## Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increase on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness, the bowels in general are constipated, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. M'LANE'S LIVER PILLS, in CASES OF

AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to take them FAIR TRIAL.

Address all orders to

FLEMING BROS., PITTSBURGH, PA.

U.S. Dealers and Physicians deriving from others than Fleming Bros., Pittsburgh, Pa., will be supplied with Quinine, and take none but Dr. M'Lane's prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, send one box post paid to any part of the United States, one box postage, two dollars three cent postage stamps, or one box of Vernillo for fourteen cent postage. All orders from Canada must be accompanied by twenty cents extra.

Sold by all respectable Druggists, and Country Stores generally.

Sir, your account has stood for two years, and I must have settled immediately.

Sir, replied the customer, things usually do settle by standing; I regret that my account is an exception. If it has been stand-

ing too long, suppose you let it run awhile.

Pop, observed a youth of tender years to his fond parent, does the Lord know everything?

Yes my son, replied the interested sire— But why do you ask such a question?

Because our preacher, when he prays, is so long telling him everything, I thought he wasn't posted.

did, they would require four times as much artillery and more ammunition, and an extension of rations. It was all very hot, while it lasted; the men were all very weary. We returned to Newport News the same day; the distance between the two places, back and forward, I should think was about thirty miles. When we got back, I was so tired, that I laid down in my tent and fell asleep, and was not able to go to the mess room for my supper. Yours, ever, JOHN LARKIN.

BORN TO NO MASTER, OF NO SUGGESTIVE,

READY! READ!

We wish our kind patrons would try to be more prompt in bringing in their articles. Advertisements, special notices, etc., should be handed in before 10 o'clock Friday forenoon, and long communications as soon as Monday if they wish them to be inserted in the next paper.

**FIRE.** On Wednesday morning last, about 1 o'clock, a fire was discovered in an unoccupied frame house, situated on Seabury street, near the corner of Cottage Avenue—owned by Daniel Dinegan. The engines were soon on the spot, but the fire had made such progress, it was found impossible to save it; and their exertions were directed to the preservation of the surrounding property. It was soon reduced to a heap of ruins. The loss was partly covered by an insurance of three hundred dollars in Dedham. A tenement in the rear, was slightly damaged, but others, in close proximity, escaped uninjured. At one time, the fire looked threatening—as if it would sweep the whole square—but the steady up and down motion of the machines soon drove it out.

This old frame has seen better days, and deserved a different fate. It was once the property of Mr. Briesler, and used by him as a warehouse; but some twenty years since, it was removed to this site and converted into a dwelling house. Mr. Solomon Torrey was once an occupant of the premises. The old story—the torch of the incendiary, done the mischief.

**EARLY FRUIT.** We were made the recipients through the kindness of our friend, Mrs. H. G. Whiting, a few mornings since, of a fine box of strawberries, from her *pro-life garden*. They were gathered from vines and excellence, surpassing any we had before seen. Mr. W. has paid much attention to their culture of late; his ground is admirably adapted for such purposes; a light loam, highly retentive of moisture, which the plant abundantly requires. The vines have already attained an extraordinary size—the tall runners are literally loaded with fruit in every stage of development. He has many varieties—the deep crimsoned Rubaiots, the blushing Seedling and the delicate Alpine Whites. The fruit of all these are very large and fair, and of a delicate fineness, melting and juicy, and of an excellent flavor, requiring but little sugar when eaten. We would recommend our friends, on Cross street, to public notice, who would be happy to receive calls, and supply all orders, as long as their favors shall last.

**THE FOURTH.** Before we shall issue our next number, this day, hallowed in the remembrance of a grateful people, will be numbered with the things that are past. The occasion, however, we are gratified to learn will be appropriately observed. The day will be ushered in mid the ringing of bells, the roar of cannon, accompanied by a military display, of our whole available force. The Zouaves, Company A., will make their first appearance—a young corps, rapidly rising in public esteem, and we predict, in distinction. At nine, the Captain's Mowing Match will take place—a social feature in the ceremonies; and in the afternoon, the Home Guards were to have visited the mansion of the Hon. Josiah Quincy, Sen., and partake of his hospitality. But this order has been revoked, and we are now in the dark respecting their movements. But they no doubt will give a good account of themselves when the time comes.

**SCHOOL MATTERS.** On Monday last, an injunction was issued stopping Mr. Dewey from keeping school in the West District. A hearing will be had, to-day, before the Superior Court, in Boston.

**THE CAPTAIN HAS RESPONDED.** The re-munder, he says, was uncalled for. As soon would he forget the honors due to the day, as this time-honored ceremony. The Match, therefore, will come off precisely at nine o'clock, A. M., on the Fourth. He regrets, that he shall miss from the ranks of his friends, some whom he had the pleasure of meeting on a former occasion, who have been called from their earthly labors; but he hopes this devoted band, in a body, respond to the call. He looks forward to the day with satisfaction. It will be a Match to try the affections—draw closer the ties of friendship, and make us a more union-loving people.

**COAST GUARD.** This military organization from Boston, visited this town, during the week, and have been encamped near the Sailor's Snug Harbor. They left on Friday morning.

### Reading and Writing Ordeal.

Rev. Henry Giles, a resident of this town, reviews Gen. Beauregard's recent rebel proclamation in a most scathing manner in the Christian Inquirer. He expresses the opinion that "the mighty Beau can fight no better than he writes," General Scott might as well have Beau Brummel or Beau Nash for an opponent." Mr. Giles thus treats Beauregard's allusion to the loyal troops.—"In a letter to a mock general like himself, this fellow, educated at the nation's expense, calls our troops "disciplined mercenaries!" and then in the next line, "an armed rabble." How troops can be, at the same time, "an armed rabble" and "disciplined mercenaries," it is for the valiant Beauregard to explain."

"Our troops are neither a rabble nor a set of mercenaries. They are, most of them, men of skill, in useful trades, and nearly all of them are decently educated. Some of them have children at school, and these children would put down Beauregard in a literary examination of fifteen minutes. Others of them are men who have gained, or who might gain high distinction in letters or in science. If Jeff Davis and Beauregard wish to save the country from bloodshed, I suggest a method of deciding the quarrel which would be harmless, and at the same time interesting and amusing. Appoint a day and place.—Let a hundred thousand on each side come front to front. Let them first look fiercely at each other, then shake hands, and then, by mutual consent, stack their arms. Open then huge books, like the registers of hotels, and let *that* army be considered as victorious, out of which the greatest number can sign their names."

"Will the South submit to this literary duel? or, as they assume to be the chivalry of the modern world, do they, like the knights of old, think it beneath the dignity of gentlemen to learn the art of writing? Suppose, then, that we choose the reading ordeal. I shall take Beauregard's letter to *"dear W. E. Martin"*, and after all on both sides have read it to read, I will give up our cause if any man on either side can find in it sense, grammar, decency, or thought. But possibly in this, as in other cases, extremes meet, and that the army of the Southern chivalry deserves both reading and writing as heroically as Jack Cade did and his enraged brothers did. Jack Cade objected to writing, in his day, because it was to be done on parchment. "Is not this a lamentable thing?" said he, "that an innocent lamb should be made a parchment?" Perhaps the Southern leaders object to writing because it is done on paper; because it savors of New England manufacture, of common schools, of plebeianism and Puritanism."

**President.** John P. Spooner M. D., of Dorchester,

**Vice Presidents.** Rev. J. W. Thompson,

D. D., of Jamaica Plain, Rev. Nathaniel Hall of Dorchester, C. K. Dillaway, Esq., of Roxbury.

**Secretary.** John Kneeland of Roxbury.

**Directors.** Samuel Adams, Esq., of Milton, J. N. Daniell, Esq., of Roxbury, A. H. Sumner, Esq., of Dorchester, Rev. S. G. Baldwin, of Dorchester, J. B. Cram, Esq., of Walpole.

**THE ACTUAL RESULT.** The official count of the vote for member of Congress in the Third Congressional District, is reported as follows:

Whole number of votes	3083
B. F. Thomas of W. Roxbury had	2774
Eleazer Beal of Randolph	251
All others	28

**THE TEN REGIMENTS.** It is stated that the companies already organized, and of which official notice has been received by the Adjutant General of this State, are sufficient, leaving only five companies to be organized, to constitute the whole ten regiments according to the last requisition of the General Government.

**MONUMENT TO HON. S. A. DOUGLAS.** A Committee has been appointed by the friends of the late Senator Douglas to secure the erection of a suitable monument to his memory. The Committee has determined to publish an address to the people of the United States, inviting them to meet in their respective towns, villages and cities, without distinction of party, to make contributions for the object.

"At fourteen years of age I was severed from Virginia; the National Government adopted me as its pupil and future defender; gave me education and a profession; and I then made a solemn oath to bear true allegiance to the United States of America, and to serve them honestly and faithfully against all their enemies or opposers whatsoever."—This oath and honor alike forbid me to abandon their standard at the first hour of danger."

**ILLEGAL CORRESPONDENCE.** Judge Sprague, of the United States District Court, in his recent charge to the Grand Jury, said that if any citizen of the United States had written letters to members of the English Parliament, or communicated with foreign governments, or any of its officers or agents, with an intent to influence the measures or conduct of any foreign government, or any officer or agent thereof, in relation to any disputes or controversies with the United States, or defeat the measures of the Government of the United States, he was liable to punishment by a fine not exceeding five thousand dollars, and imprisonment.

In the same charge he said our Government had a right to treat rebel privates as pirates although they are not recognized as such by the laws of nations.

"*OUT OF THEIR OWN MOUTHS.*" John Tyler, once President of the United States, is now a traitor to the Union. He took an active part in throwing Virginia into the hands of the rebels, and bringing upon her people all the disasters and suffering which they could have escaped had such men as this ex-President not proved false to their often-declared principles. In a message to Congress, dated August 20th, 1844, John Tyler, then President of the Union is now striving vainly to destroy, said:

"I regard the preservation of the Union as the first great American interest. I equally disapprove of all threats of its dissolution, whether they proceed from the North or the South. The glory of my country, its safety and its prosperity, alike depend on Union, and he who would contemplate its destruction, even for a moment, and forms plans to accomplish it, deserves the deepest anathemas of the human race."

**THE STATE LOAN.** The proposals of the Treasurer of the Commonwealth for a loan of one million of dollars, has been issued. It will be seen that certificates will be issued for one hundred, five hundred, and one thousand dollars, so that every person who has a hundred dollars can become a creditor of Massachusetts.

**PROMPT TO DUTY.** Gen. John C. Fremont, who was on a journey to Europe, has promptly responded to the call of his country, and arrived home in the last English steamer. He is in excellent health, and will at once enter upon the public services, as a General of the United States army.

**SUNDAY SCHOOL ASSOCIATION.** The sixth annual meeting of the Norfolk County Sunday School Association was held in the Stone Temple in this town, on Wednesday last.

Flowers and fruits adorned the Town Hall, affording both pleasure and sustenance for the guests, and one feature of the highly tasteful decorations was a portrait of John Hancock, a native of Quincy, draped with American flags and having the company banner of the Hancock Light Guard, now at Newport News, suspended over it.

After prayer by Rev. S. G. Bulfinch, of Dorchester, the annual address was delivered by Rev. A. P. Putnam, of Roxbury.—The Secretary presented the annual report. It alluded to the resignation of Hon. Charles Francis Adams of the Presidency of the Society, and a letter was read from him expressive of his deep interest in the objects of the Association. The statistics of the past year showed that the number of Sabbath School Teachers was about three hundred. The number of scholars fell not far short of two thousand.

Rev. Mr. Wells, J. Alba Davis, Esq., and the Ladies deserve great praise for their efforts to make this meeting so pleasant, interesting and instructive.

The following officers for the ensuing year were elected:

**President.** John P. Spooner M. D., of Dorchester,

**Vice Presidents.** Rev. J. W. Thompson,

D. D., of Jamaica Plain, Rev. Nathaniel Hall of Dorchester, C. K. Dillaway, Esq., of Roxbury.

**Secretary.** John Kneeland of Roxbury.

**Directors.** Samuel Adams, Esq., of Milton, J. N. Daniell, Esq., of Roxbury, A. H. Sumner, Esq., of Dorchester, Rev. S. G. Baldwin, of Dorchester, J. B. Cram, Esq., of Walpole.

**THE SEASON.** During the last few weeks, vegetation has come forward finely. Corn is rapidly unfolding itself; potatoes are in blossom; peas are becoming a drug in the market; strawberries are selling for fifteen cents a box, and the hay crop is being harvested under the most favorable circumstances. But the farmers say they want rain.
